Don't Waste Food Maryneat Rodriguez,2018-08-31 A marvellous promise made many years ago and a series of rare anecdotes are put together in this compilation of short stories. In a walk through random scenes the only objective to read is to distract you while introducing the crucial phrase. I could say to you here and now: while you read this, tons of food go to the trash dragging with them a lot of hours and efforts in human resources, it adds to that rare-looking three-legged carrot that nobody wanted to buy, but I do not want to bore you with all that. Instead, I want to tell you good stories like the time I fell in love while trying an electric saw, or the sweetest nurse a hospital has seen, or the magic honey jar that appeared everywhere, or the version of spam that I received this morning, and that made me laugh their illusion of cheating with such talk... In relaxed mode, no matter the beginning, each fantastic chapter ends in the same way for you that you have to learn: Don

On Earth We're Briefly Gorgeous Ocean Vuong,2021-06-01 The instant New York Times Bestseller • Nominated for the 2019 National Book Award for Fiction “A lyrical work of self-discovery that’s shockingly intimate and insistently universal...Not so much briefly gorgeous as permanently stunning.” —Ron Charles, The Washington Post Ocean Vuong’s debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling On Earth We’re Briefly Gorgeous is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family’s history that began before he was born — a history whose epicenter is rooted in Vietnam — and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, On Earth We’re Briefly Gorgeous is as much about the power of telling one’s own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Named a

The Way to Brave Andy Mcquitty,2018-02-06 Want to grow in courage? It's getting harder to be a Christian in our post-Christian culture. As a pastor of 35 years, Andy is seeing the church wake from a "Christian Pax Americana" to an era of intensified hostility. Based on David's courage before Goliath, The Way to Brave helps readers face the giants looming over us today, such as secularism and relativism. Bent on banishing Christian influence from public life, their power is shocking, their reach expansive, and their deployment quick. But still they are no match for our God. The Way to Brave guides readers through the five ways God prepared David to be intrepid in facing the giant who opposed him. The qualities

and experiences David possessed are the ones Christians need today. Pastor Andy McQuitty will walk you through what those are and how they can mark your life, bolstering you for the storms ahead.

The Art of Dowsing Michael Fercik,2020-11-15 The Art of Dowsing: Separating Science from Superstition book is the first book ever written that comprehensively explains the physics involved in using the modern ball bearing dowsing rod with gauging by pitting gravity against the elemental magnetic flux lines of the dowsed for element or elemental mass. Gravity is used as a gauge for dowsing the edges, middle, grade, angle of depositing with depth buried. The involved physics of each of the ninety-two natural elements radiating out electromagnetic microwave band frequency from single atoms that combine with other atoms of the same element for producing one elemental magnetic flux line, which combine with all the other same element's elemental magnetic flux lines for building enough static electrical energy for the human body produced static electricity to energize the dowsing rod's attached one-tenth-troy-ounce pure element that is dowsed for. The element that is attached to the dowsing rod becomes energized enough by the same element buried in the ground to produce physical turning of the dowsing rod when dowsing toward and over the sought buried elemental mass. Building and maintaining the modern ball bearing dowsing rod and dowsing on foot or amplified long-distance dowsing from a

vehicle is thoroughly explained. Michael John Fercik started dowsing for gold ore veins in 1975 with unknowingly becoming a dowsing savant after figuring out the dowsing physics involved, and this is why he has the natural ability today to write the book that will change the world's perspective on all the dowsing false superstitions with the correct dowsing theories and proven science and physics of dowsing in the modern world. Physical on ground dowsing and long-distance dowsing from a moving vehicle is explained in laymen terms for enabling everyone to understand the physics involved in dowsing while shown how to build your own modern ball bearing dowsing rod and how to dowse and gauge what is being dowsed. Physicists will be amazed that nobody has explained the physics involved in dowsing and how to use dowsing physics with gravity as a gauge for understanding the size, grade, angle of depositing, and depth buried of the dowsed elemental mass. Dowsing specific wording is explained in a glossary of terms for easy understanding and communications of the required dowsing process of eliminations. Whether or not you want to learn how to dowse, just reading and understanding the recently proven physics of dowsing will excite the curiosity of expanding previously unknown physics of the electrical energies involved in the human body interacting with the electrical energies of solid or liquid or gaseous matter through the modern ball bearing dowsing rod.
