Evolution of Government Policy Towards Homosexuality in the US Military James E. Parco,David A. Levy,2016-09-17 Throughout history, homosexuality has been a complicating factor for men and women electing to serve in the armed forces of the United States. The right to serve became increasingly complicated when the Department of Defense responded to congressional legislation in 1993 by adopting a policy that later became known as don't ask, don't tell (DADT). DADT permitted homosexual members to serve in the forces, so long as they showed no evidence of homosexual behavior. The compromise policy remained in force until Congress passed the Don't Ask, Don't Tell Repeal Act of 2010 and finally, in September 2011, the ban on gay men and lesbians serving openly in the US armed forces officially came to an end. Reflecting on the 20-year period governed by DADT, this volume explores the history, culture, attitudes and impacts of policy evolution from the mid-20th Century through to the present day. It not only provides insight to the scholarly field of how the most powerful institution in the world has viewed and dealt with homosexuality as it transitioned into the 21st century, but it is also poised to become a

seminal collection for researchers in the decades to come. This book was originally published as a special issue of the Journal of Homosexuality. Parco and Levy have produced a fine edited volume dedicated to deepening our understanding of the federal DADT policy. What has resulted is a deep analysis of the federal policies regarding gays and lesbians in the U.S. military. This volume is filled with rich descriptions and analyses written by the very best thinkers about issues pertaining to gays and lesbians in the U.S. military. Parco and Levy not only offer a comprehensive treatment of DADT, but their book will stand the test of time and spur additional important research about gay, lesbian, bisexual, and queer service members. The Rise and Fall of DADT is accessibly written and offers readers a comprehensive understanding of the DADT federal policy and the attendant issues of equity, social justice and ever-changing attitudes about LGBTQ people related to the U.S. military and to the larger American society. John P. Elia, Ph.D. Editor-in-Chief, Journal of Homosexuality and Professor and Associate Chair of Health Education at San Francisco State University, USA As Assistant Secretary of Defense for Public Affairs from 2010 to 2012, and the first openly-gay senior official to serve at the Pentagon, I was witness to and honored to be an active participant in the historic process that led to the ban on discrimination against lesbian and gay service members: men and women who had been hiding in plain sight while risking their lives to serve their country honorably. In this volume, Jim Parco and Dave Levy provide what is perhaps the most comprehensive account to date of the evolution of US government policy regarding LGBT service members. Their study includes outstanding firsthand narratives by many friends who played central roles in the repeal of Don't Ask/Don't tell, including Sue Fulton, Jonathan Lee and former Congressman Patrick Murphy. Parco and Levy provide the opportunity for scholars, experts and ordinary citizens from all walks of life to share in those journeys and in the very positive results that were achieved. Douglas B. Wilson, former Assistant Secretary of Defense for the United States

Ten Rules for Strategic Innovators Vijay Govindarajan, Chris Trimble, 2005-12-01 Even world-class companies, with powerful and proven business models, eventually discover limits to growth. That's what makes emerging high-growth industries so attractive. Although they lack a proven formula for making a profit, these industries represent huge opportunities for the companies that are fast enough and smart enough. But constructing tomorrow's businesses while simultaneously sustaining excellence in today's, demands a delicate balance. It is a quest fraught with contradiction and paradox. Until now, there has been little practical guidance. Based on an in-depth, multiyear research study of innovative initiatives at ten large corporations, Vijay Govindarajan and Chris Trimble identify three central challenges: forgetting yesterday's successful processes and practices; borrowing selected resources from the core business; and learning how the new business can succeed. The authors make recommendations regarding staffing,

leadership roles, reporting relationships, process design, planning, performance assessment, incentives, cultural norms, and much more. Breakthrough growth opportunities can make or break companies and careers. *Ten Rules for Strategic Innovators* is every leader's guide to execution in unexplored territory.

The Quest for Global Dominance Anil K. Gupta, Vijay Govindarajan, Haiyan Wang, 2015-01-12 Anil K. Gupta, Vijay Govindarajan, and Haiyan Wang are among the most distinguished experts in the field of globalization. In *The Quest for Global Dominance* they present the lessons from their twenty-year study of over two hundred corporations. They argue that, in order for a company to create and maintain its position as a globally dominant player, executives must ensure that their company leads its industry in the following four essential tasks: Identifying market opportunities worldwide and pursuing them by establishing the necessary presence in all key markets Converting global presence into global competitive advantage by identifying and developing the opportunities for value creation that global presence offers Cultivating a global mindset by viewing cultural and geographic diversity as an opportunity, not just a challenge Leveraging the rise of emerging markets especially China and India to transform the company's growth prospects, global cost structure, and pace of innovation

Earth Storm Mons Kallentoft, 2018-01-25 From the internationally bestselling author Mons Kallentoft comes a dark and thrilling new Mali Fors mystery. If you love Jo Nesbo and Samuel Bjork, you'll love Mons Kallentoft. Praise for the Malin Fors series: 'One of the best-realised female heroines I've read by a male writer.' Guardian 'Kallentoft's books have been called beautiful, exquisite and original. I can see why.' Literary Review 'This is a worthy successor to Larsson's Millennium trilogy.' Booklist Starred Review In the early hours of the morning, the naked body of a young man is discovered in a ditch next to Gota Kanal. The cause of death is mysterious; the body bears no visible traces of violence. The man is soon identified as Peder Akerlund, a former Swedish politician, excluded from his party for racism but since reformed. Then sixteen-year-old Nadja Lundin is reported missing, possibly abducted, the same evening, and there are signs that suggest the two cases might be connected. But what do the victims have in common? And why were they chosen? Gradually, Malin Fors realises that they are dealing with someone who is playing a game with them, who speaks through murders and who will not be silenced. What is he or she trying to say? Desperate to find Nadja alive, the team race against the clock to find an answer before it's too late...

Success Strategies Warren G. Bennis, Marjorie Blanchard, Brian Tracy, 2008 Strategic planning is vital to achieving success in any endeavor in life. Whether you are an entrepreneur, a corporate CEO, a volunteer for a community project, or trying to organize your personal life, it's important to have strategies in place that will help you succeed. I am really excited about what the authors in the book had to say. If I had not interviewed these outstanding, successful men and women I don't think the subject they talked about would have occurred to me. Who would have thought reinventing diversity or the power of procrastination would be success strategies? One of the authors in this chapter said that we are performing in an era where knowledge is power. He went on to say I think the key is applying that knowledge with laser-like focus. This means ruthless prioritization on what needs to be accomplished in order to yield the highest payoff in

cultures of high demand. The chapters in this book will help you discover core issues that may be challenging you or keeping success just out of reach. I am sure that you will be able to use the information these authors have shared to empower your dreams and goals into reality. Remember success doesn't just happen-you make it happen

The Images of Architects Valerio Olgiati, 2013 The Visible Origin of Architecture: I asked architects to send me important images that show the basis of their work. Images that are in their head when they think. Images that show the origin of their architecture. In this book we find 44 individual 'musees imaginaires'. The most unique architects living today each present up to 10 images to explain the autobiographical roots of their oeuvre. The images are explanations, metaphors, foundations, memories and intentions. They are poetic and philosophical avowals. They reveal a personal perspective on thoughts. They show the roots of architecture and expectations concerning projects. Conscious and unconscious. This book has the format of a reader. As little as possible is said. The images are small, legible and interpretable as icons. As individual collections, they present a personal view of an individual world, while as a whole they provide a universal view of the perceptible origin of contemporary architecture. Valerio Olgiati The images submitted to Olgiati are personal, confidential and poetic revelations of the deeper foundations on which the architects' projects are based. The collection acts as a kind of depth gauge of contemporary world architecture. The list comprises the 44 most unique architects living today: David Adjaye, Francisco Aires Mateus, Manuel Aires Mateus, Alejandro Aravena, Ben van Berkel, Mario Botta, Alberto Campo Baeza, Adam Caruso, Peter St John, David Chipperfield, Preston Scott Cohen, Hermann Czech, Roger Diener, Peter Eisenman, Sou Fujimoto, Anton Garcia-Abril, Go Hasegawa, Jacques Herzog, Pierre de Meuron, Steven Holl, Anne Holtrop, Junya Ishigami, Arata Isozaki, Toyo Ito, Bijoy Jain (Studio Mumbai), Momoyo Kaijima, Yoshiharu Tsukamoto (Atelier Bow-Wow), Christian Kerez, Hans Kollhoff, Winy Maas (MVRDV), Peter Markli, Jurgen Mayer H., Richard Meier, Glenn Murcutt, Ryue Nishizawa, Valerio Olgiati, John Pawson, Cecilia Puga, Smiljan Radic, Richard Rogers, Kazuyo Sejima, Jonathan Sergison, Stephen Bates, Miroslav ik, Alvaro Siza Vieira, Eduardo Souto de Moura, Robert Venturi, Denise Scott Brown, Peter Wilson (Bolles + Wilson), Peter Zumthor.
