Marine Corps Tank Battles in Vietnam Oscar E. Gilbert,2013-02-26 The author of *Tanks in Hell* tracks ten years of tank warfare in Vietnam, combining firsthand accounts from veterans with analysis of tactics and strategy. In 1965 the large, loud, and highly visible tanks of 3rd Platoon, B Company, 3rd Tank Battalion landed across a beach near Da Nang, drawing unwelcome attention to America's first, almost covert, commitment of ground troops in South Vietnam. As the Marine Corps presence grew inexorably, the 1st and 3rd Tank Battalions, as well as elements of the reactivated 5th Tank Battalion, were committed to the conflict. For the United States Marine Corps, the protracted and bloody struggle was marked by controversy, but for Marine Corps tankers it was marked by bitter frustration as they saw their own high levels of command turn their backs on some of the hardest-won lessons of

tank-infantry cooperation learned in the Pacific War and in Korea. Nevertheless, like good Marines, the officers and enlisted men of the tank battalions sought out the enemy in the sand dunes, jungles, mountains, paddy fields, tiny villages, and ancient cities of Vietnam. Young Marine tankers fresh out of training, and cynical veterans of the Pacific War and Korea, battled two enemies. The battle-hardened Viet Cong were masters of the art of striking hard, then slipping away to fight another day. The highly motivated troops of the North Vietnamese Army, equipped with long-range artillery and able to flee across nearby borders into sanctuaries where the Marines were forbidden to follow, engaged the Marines in brutal conventional combat. Both foes were equipped with modern anti-tank weapons, and sought out the tanks as valuable symbolic targets. It was a brutal and schizophrenic war, with no front and no rear, absolutely no respite from constant danger, against a merciless foe hidden among a helpless civilian population. Some of the duties the tankers were called upon to perform were long familiar, as they provided firepower and mobility for the suffering infantry in a never-ending succession of search and destroy operations, conducted amphibious landings, and added their heavy guns to the artillery in fire support missions. Under constant threat of ambushes and huge command-detonated mines that could obliterate both tank and crew in an instant, the tankers escorted vital supply convoys, and guarded the engineers who built and maintained the roads. In their "spare time" the tankers guarded lonely bridges and isolated

outposts for weeks on end, patrolled on foot to seek out the Viet Cong, operated roadblocks and ambushes, shot up boats to interdict the enemy's supply lines, and worked in the villages and hamlets to better the lives of the brutalized civilians. To the bitter end—despite the harsh conditions of climate and terrain, confusion, endless savage and debilitating combat, and ultimate frustration as their own nation turned against the war—the Marine tankers routinely demonstrated the versatility, dedication to duty, and matchless courage that Americans have come to expect of their Marines.

Dodge Dynamite! Peter Grist, 2015-01-29 Since the 1950s, Dodge has produced a series of charismatic performance cars that have given the company a unique reputation among American car makers. The original Charger and Challenger and

the more recent Viper and Caliber SRT are outstanding examples of the company's commitment to cars of high performance and aggressive styling. Peter Grist's pictorial history of these typically American machines gives a fascinating insight into their ancestry and evolution and celebrates the huge impact they have made on the road and on the track. His account is an exciting introduction that will appeal to everyone who is interested in American automobile history. When the first Dodge performance cars were conceived in the early 1950s, they were a brave step for a company that was well known for its dependable saloons and pickups. Peter Grist describes this change of direction and the radical new thinking that resulted in the creation of the innovative Dodge Hemi V8 of 1953. This remarkable engine provided the power for the first sporting Dodges and led to the race-bred D-500 series of 1956, the first Dodge Muscle car. But Dodge's reputation for creating big, potent, sporting cars was really consolidated in the 1960s and early 1970s the muscle-car era when the Dart, Charger and Challenger were so successful on the road, the race track and drag strip. The book features these historic cars and the drivers who have raised Dodge to a pre-eminent position over the last 50 years. Featuring illustrations of Dodge's styling experiments and concept cars, which had such a strong effect on their production models, from the first Dodge concept the 1954 Firearrow up to the most recent Challenger and Hornet. The book brings together an evocative collection of over 200 photographs and adverts that offer a unique look at ALL of Dodge's fast cars

in one book. this is an entertaining and informative guide to the Dodge tradition which will be essential reading for Dodge enthusiasts and for everyone who enjoys their cars at full speed.

Honda Motorcycles Aaron P. Frank,

Branded Entertainment Jean-Marc Lehu, 2007-03-03 Branded Entertainment explains how product placement, a long-time phenomenon in films, has gone beyond this to now embrace all media. Citing examples from film to music video, to computer games, the author explains the: history and development of product placement; advantages of this form of brand advertising; and methods employed by different brands Most importantly, Branded Entertainment discusses the future possibilities for using this form of promotion to recreate an emotional connection with customers and exploiting the opportunities afforded by advances in technology to spread the message across multimedia channels.

BMW Since 1916 Manfred Grunert, Florian Triebel, 2006

Man and Machine Stephan Wilkinson, 2005-12-01 They sit on a spur of test track outside General Electric's locomotive factory in Erie, Pennsylvania, panting and grumbling like two old lions half asleep. The ominous, muttering rumble is the idle of 8,800 horsepower--24 cylinders with pistons big as buckets, turbochargers the size of washing machines, two V12 engines driving alternators five feet in diameter. For here are two units of the most advanced diesel-electric locomotives in the world: a pair of GE Evolutions.--

Excerpt from Do the Locomotion in Man and Machine Stephan Wilkinson--a longtime expert on the ways men entertain themselves when no one is telling them what to do--takes readers into the high-speed, high-risk world of restored jets, fast boats, and Formula 1 cars. Wilkinson visits a factory where Amish men build custom ambulances, flies an airliner from the glory days of air travel, meets a bird that is a killing machine, and has a hot date with a handgun. In another chapter, Wilkinson relates the hazards of flying purely on instruments, and why being able to do so can make the difference between life and death. He draws from his own misadventures in flight and explains exactly why the high-end Beech Bonanza is known as "the doctor killer." And dissecting the finely tuned instrument that is the Formula 1 car, Wilkinson relates how the engine's connecting rods actually stretch at 19,000 rpm, even though they're made of titanium, and what can happen when a racecar brakes at 6Gs. Always entertaining, Wilkinson takes men, and maybe even a few women, where they love to go--under the hood, over the mechanic's shoulder, and behind the wheel.

The Gasoline Tramp Or Around the World on a Motorcycle (1912-1913) Carl Stearns Clancy, 2014-06-14 Strap on your motorcycle helmet, slip on your leather jacket, boots and gloves. Join the Gasoline Tramp on the first and wildest motorcycle ride around the world. Described as the longest, most difficult and most perilous motorcycle journey ever attempted, this book recounts the 1912-1913 motorcycle ride around the world by Carl Stearns

Clancy. After he completed his record setting global circumnavigation he compiled his notes and magazine articles in two long lost notebooks. 100 years after Clancy's 'round the world motorcycle adventure his work has been published as *The Gasoline Tramp*. Whether the reader is a history buff or motorcycling enthusiast, Clancy's view of the world from atop a motorcycle was never seen before, and likely will never be again. Bad roads, guns, sickness, a crashed and broken motorcycle, corrupt officials and wild animals, Clancy faced them all. He rode his 1912 Henderson motorcycle where no man had ever ridden before. Clancy left his home in America as admittedly a 21 year-old boy. 18,000 miles and 10 months later he returned as a self-described man. He crossed America, Europe, Africa and Asia on his journey. His ride around the world truly defines what motorcycle adventure means.

God's Debris Scott Adams, 2004-09 In *God's Debris*, best-selling author and creator of Dilbert Scott Adams fashioned a thought-provoking exploration of life's great mysteries (everything from quantum physics and God to psychic phenomena and dating) that quickly captured the attention and imaginations of

readers everywhere. The intriguing story of a deliveryman who meets the world's smartest person and learns the secret of reality is threaded with a variety of hypnosis techniques that Adams, a certified hypnotist, used to induce a feeling of euphoric enlightenment in readers to mirror the main character's feelings as he discovers the true nature of the universe. Launched to coincide with the hardcover publication of its sequel, *The Religion War* (see opposite page), this first paperback edition of *God's Debris* will soon make the leap to a broader audience. As Adams designed it, the book will make your brain spin around inside your skull and drive readers toward *The Religion War* as they seek to confirm or deny the dizzying impressions and chaotic memories of reading *God's Debris*. The book provides one of the most compelling visions of reality ever experienced on the printed page. Along the way, readers will enjoy the Thought Experiment: Trying to discover what's wrong with the sage's explanation of reality. This is a book, as Adams says, to be shared and savored with smart friends.

Motorcycle Adventurer - on the Road Gregory W. Frazier, 2004-02-01 Four times around the world by motorcycle, professional motorcycle adventurer, magazine journalist and lecturer shares his insights on the world from atop everything from a Harley-Davidson to an Amazonas. Frazier is the King of the Round the World riders.

License to Pawn Rick Harrison, 2011 NON-FICTION -- Full of colorful characters and the fascinating wheeling and dealings of the pawn shop Rick

Harrison owns and runs with his father and his son, UNTITLED is a tie-in to Pawn Stars, one of the most popular shows on all of cable. It will take readers behind the scenes of Harrison's family-run pawn shop and bring its lovable cast to vivid life on the page. But it will also present Harrison's amazing personal story. While he registered a near-200 IQ at an early age, Rick developed a similarly uncanny ability to find ever-deepening trouble that nearly ruined his life. Yet the birth of his son and a reconnection with his father would bring Harrison peace at a time of desperation and, together, they would build the booming business where The Antiques Road Show meets American Chopper and millions of viewers--and potential readers--find they cannot get enough--
