ScreenFlow Concepts Jose John,2013-05-25 Do you want to create video tutorials and screencasts on Mac OS X? ScreenFlow is a popular video editor for Mac OS X that provides elegant tools for screen capture, for video editing and for publishing to video-hosting websites such as YouTube. This short ebook will simplify the complexity in this powerful application to help you create screencasts with confidence. When you master 5 key concepts, you will be well on your way to mastering ScreenFlow: Concept #1: Before you start your screen capture, take a moment to plan the final output and save a lot of editing time down the road. Concept #2: ScreenFlow places clips on a timeline, and there are many types of clips. If you understand video clips, you've got them all figured out. Concept #3: A polished screencast has helpful animations such as zoom-and-pan effects which are accomplished using video actions in ScreenFlow. And if you understand video actions, you got audio under control too. Concept #4: Selectively and judiciously emphasize the mouse & keys pressed during a recording. Concept #5: Use Callouts to draw attention to a region of the screen capture. The ebook also provides a step-by-step workflow to guide you from screen capture through to video editing to publishing your screencast. The workflow has been sequenced to maximize editing efficiency and save you time during video editing.

Michael Allen's 2012 e-Learning Annual Michael W. Allen,2011-07-26 The field of e-learning continues to experience dramatic and turbulent growth. Over time, as technology has improved and the method's real capabilities have emerged, e-learning has gained widespread acceptance and is now the fastest growing sector of corporate learning. As in years past, Michael Allen's Annual offers a diverse and important collection that contains some of the most current insights and best practices that will help both educators and workplace learning leaders address issues of design and implementation, as well as strategy and

culture. In addition, this new volume offers a diverse mix of content that spans the full spectrum of technology-based learning. Year after year, the Annual discusses emerging trends in social media; showcases e-learning innovation; presents contemporary- and best-practices; tackles big-picture, strategic issues; and provides a host of useful tips and techniques. Additional content is also available online. Praise for Michael Allen's 2012 e-Learning Annual Michael Allen's Annual really is annual. I found new examples and provocative ideas—just what I was looking for. —Allison Rossett, professor of educational technology, San Diego State University Just another academic anthology? Hardly! Michael Allen has convinced e-learning's super-heroes to join forces to crush complacency, demolish dogma, rewrite rules, streamline strategies, and light a brighter future for e-learning. Warning: The accumulated wisdom and original thinking of this elite team of designers, practitioners, consultants, and researchers will leave you dissatisfied with your current e-learning efforts and aching to put their ideas into play. —William Horton, author, e-Learning by Design and consultant, William Horton Consulting The real learning at conferences takes place in the hallways. This wonderful book is like eavesdropping on those conversations, except that Michael has put the top thinkers in our field in the hall for you. —Jay Cross, chairman, Internet Time Alliance Nabeel Ahmad Clark Aldrich Bobbe Baggio Tony Bingham Julia Bulkowski Bryan Chapman Phil Cowcill Allan Henderson Peter Isackson Cheryl Johnson Cathy King Leslie Kirshaw Tina Kunshier David Metcalf Corinne Miller Craig Montgomerie Frank Nguyen Maria Plakhotnik Tonette Rocco Anita Rosen Patti Shank Clive Shepherd Martyn Sloman Belinda Smith Susan Smith Nash Ken Spero Carla Torgerson Thomas Toth Reuben Tozman Marc Weinstein

   Learning, Problem Solving, and Mindtools J. Michael Spector,Barbara B. Lockee,Sharon Smaldino,Mary Herring,2013-04-12 Learning, Problem Solving, and Mindtools is inspired by the substantial body of learning research by David H. Jonassen in the areas of mind tools and problem solving. The focus of the volume is on educational technology, especially with regard to how new technologies have facilitated and supported problem

solving and critical thinking. Each chapter focuses on a particular aspect of learning with technology and elaborates the implications for the design and implementation of learning environments and activities aimed at improving the conceptualization of problems, reasoning and higher-order thinking, and solving challenging problems. This collection of scholarly essays provides a highly engaging treatment of using tools and technologies to improve problem solving; multiple perspectives on integrating educational technology to support learning in complex and challenging problem solving domains; guidance for the design of instruction to support problem solving; a systemic account of the relationships between mental models, instructional models, and assessment models; and a look into the future of educational technology research and practice.

Digital Tools for Teachers - Trainers' Edition V.2 Nik Peachey, In this second version of the Trainers' Edition of Digital Tools for Teachers, I have built on the original volume of Digital Tools for Teachers by updating and extending many of the original chapters and also by adding seven additional new chapters. In this book, the first four chapters are provided as a guide for teachers who want to use the book for teacher training and development.

Contents

Using the tools, tips and activities provided in these first chapters a teacher with some basic experience of using technology in the classroom should be able to create motivating hands-on edtech training for their peers or for pre-service trainee teachers. The fifth additional chapter is dedicated to providing a range of links to ready-made computer games that can be used for language acquisition and development. The sixth additional chapter focuses on virtual reality and provides links to a range of tools and resources that can enable teachers to exploit this area of technology within their classroom practice. The seventh additional chapter looks at the area of e-safety and the things that we can do to protect our students, ourselves and our computers from some of the potential threats that we can encounter online. The remainder of the book, like the first edition, is a collection of more than 100 links to tools and resources that have been chosen and organised to enable teachers to easily find ways of applying technology to the activities they do with their students. I sincerely hope you find this book useful and that it helps you to enhance your teaching and training and helps to make your students' learning experience richer and more engaging.

Collaboration Meets Interactive Spaces Craig Anslow,Pedro Campos,Joaquim Jorge,2017-01-09 This book explores the technological advances and social interactions between interactive spaces, surfaces and devices, aiming to provide new insights into emerging social protocols that arise from the experimentation and long-term usage of interactive surfaces. This edited volume brings together researchers from around the world who investigate interactive surfaces and interaction techniques within large displays, wearable devices, software development, security and emergency management. Providing both theory and practical case studies, the authors look at current developments and challenges

into 3D visualization, large surfaces, the interplay of mobile phone devices and large displays, wearable systems and head mounted displays (HMD'S), remote proxemics and interactive wall displays and how these can be employed throughout the home and work spaces. Collaboration Meets Interactive Spaces is both for researchers and industry practitioners, providing readers with a coherent narrative into the current state-of-the-art within interactive surfaces and pervasive display technology, providing necessary tools and techniques as interactive media increasingly permeates everyday contexts.
