Improving Your Home Security: the Kickstart Guide to Keeping Your Family Safe Lynne

Parcell, 2012-03-07 When the topic of home security springs to mind, most people seem to think of burglar alarms and little to nothing else. Alarms can be a great way to protect your home, although they are only a small part of what makes up an

effective home security system. Burglar alarms are a key to protecting your home - although there are other things you'll need as well. There are many places which are vulnerable to attack from an intruder to your home, and therefore you must set up a routine which will then provide them with less opportunities of attempting to break in. In this book, we will look at what are considered to be some of the weak areas in your home security routine which could help to prevent any kind of break in from occurring. Discover:

- * The importance of home security
- * How to improve your home security
- * How to prevent burglary
- * And more

Home Security Calvin Beckford, Heather

Alston, 2005 Home security is an essential part of owning a home. We all need to feel safe while we're at home as well as confident when we go out that burglars cannot get in. However, many homes are surprisingly easy to break into and in many cases burglars don't even have to use force. There is a huge amount that householders could do to keep their homes secure. This highly informative and practical book shows you how to protect your home and possessions without having to spend a fortune on elaborate security systems. The book starts with a chapter on what makes crime happen and the principles of crime prevention. The chapters that follow deal with boundaries, access, door and window security, garden security, lighting for both house and garden and electronic systems. A chapter on defensive plants explains how planting a dense, thorny hedge is a good way to deter intruders.

Home Security Owen Jones,2022-09-27 I hope that you will find the information helpful, useful and profitable. The issues in this ebook concern various aspects of protecting your family and home and related ideas is organised into 15 chapters of about 500-600 words each. I hope that it will interest those who are concerned about their safety. There has always been an unacceptable amount of burglary. It is such a harrowing experience to be burgled. People are forced to accept that they are not safe even in their own homes. In the days of larger families, it was not easy for the burglar. There was always someone at home, and usually several people. Burglars would be detected and easily overpowered. Nowadays, on the other hand, many people live alone, and many of those are elderly baby-boomers. It can induce a permanent state of worry and anxiety. One way around this, is to implement a home security system. They are actually quiet affordable now too. A decent home security system, coupled with friendly neighbours, is an affordable solution. As an added bonus, I am granting you permission to

use the content on your own website or in your own blogs and newsletter, although it is better if you rewrite them in your own words first.
