**Introduction to Webhosting** Juno David,2018-07-03 You may have seen documents and books on Webhosting and Hosting Support pass your desk before, but I have done my best to ensure this one is a little different. This quick guide will enable you with all the basic knowledge that you require about Webhosting and the hosting support industry. A web hosting service is a type of Internet hosting service that allows individuals and organizations to make their website accessible via the World Wide Web. Web hosts are companies that provide space on a traditional server or any IT infrastructure such as virtual machines, cloud, containers etc; they own or lease for use by their clients as well as providing Internet access, typically in a controlled environment. Web hosts can also provide data center space and connectivity to the Internet for servers they do not own to be located in their data center, called colocation or Housing.

Web Hosting Carl Burnham,2001 This is a hands-on introductory resource for effectively serving as a corporate Web host. Shows how to implement the essential technology--running servers, operating software, network resources, and database-management applications--needed to offer customers high-quality service.
