White Reconstruction Dylan Rodriguez, 2020-10-27

A “compelling study” of how the idea of white supremacy persists long after the Civil Rights Act—“as thoughtful as it is fierce” (David Roediger, author of *The Sinking Middle Class: A Political History*). We are in the fray of another signature moment in the long history of the United States as a project of anti Black and racial-colonial violence. Long before November 2016, white nationalism, white terrorism, and white fascist statecraft proliferated. Thinking across a variety of archival, testimonial, visual, and activist texts—from Freedmen’s Bureau documents and the “Join LAPD” hiring campaign to Barry Goldwater’s hidden tattoo and the Pelican Bay prison strike—Dylan Rodríguez counter-narrates the long “post-civil rights” half-century as a period of White Reconstruction, in which the struggle to reassemble the ascendancy of White Being permeates the political and institutional logics of diversity, inclusion, formal equality, and “multiculturalist white supremacy.” Throughout *White Reconstruction*, Rodríguez considers how the creative, imaginative, speculative collective labor of abolitionist praxis can displace and potentially destroy the ascendancy of White Being and Civilization in order to create possibilities for insurgent thriving.

Forced Passages Dylan Rodriguez, 2006-01 With the US having the highest incarceration rate in the world, prisons have become sites of radical

political discourse and resistance. Dylan Rodriguez examines the work of a number of imprisoned intellectuals, such as Angela Davis and Leonard Peltier, and looks at how imprisonment has shaped their writing.

Crime Control As Industry Nils

Christie, 2016-10-04 *Crime Control As Industry*, translated into many languages, is a modern classic of criminology and sociology. Nils Christie, one of the leading criminologists of his era, argues that crime control, rather than crime itself is the real danger for our future. Prison populations, especially in Russia and America, have grown at an increasingly rapid rate and show no signs of slowing. Christie argues that this vast and growing population is the equivalent of a modern gulag, run by a rapacious industry, both public and private, with vested interests in incarceration. Pain and confinement are products, like any other, with a potentially limitless supply of resources. Widely hailed as a classic account of crime and restorative justice *Crime Control As Industry's* prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system. This Routledge Classics edition includes a new foreword by David Garland.

The Revolutionary Imagination in the Americas and the Age of Development María Josefina Saldaña-Portillo, 2003-11-07 In *The Revolutionary Imagination in the Americas and the Age of Development*, María Josefina Saldaña-Portillo boldly argues that crucial twentieth-century revolutionary challenges to colonialism and

capitalism in the Americas have failed to resist—and in fact have been constitutively related to—the very developmentalist narratives that have justified and naturalized postwar capitalism. Saldaña-Portillo brings the critique of development discourse to bear on such exemplars of revolutionary and resistant political thought and practice as Ernesto “Che” Guevara, Malcolm X, the Sandinista government of Nicaragua, and the Guatemalan guerrilla resistance. She suggests that for each of these, developmentalist constructions frame the struggle as a heroic movement from unconsciousness to consciousness, from a childlike backwardness toward a disciplined and self-aware maturity. Reading governmental reports, memos, and policies, Saldaña-Portillo traces the arc of development narratives from its beginnings in the 1944 Bretton Woods conference through its apex during Robert S. McNamara's reign at the World Bank (1968–1981). She compares these narratives with models of subjectivity and agency embedded in the autobiographical texts of three revolutionary icons of the 1960s and 1970s—those of Che Guevara, Guatemalan insurgent Mario Payaras, and Malcolm X—and the agricultural policy of the Sandinista National Liberation Front (FSLN). Saldaña-Portillo highlights a shared paradigm of a masculinist transformation of the individual requiring the transcendence of ethnic particularity for the good of the nation. While she argues that this model of progress often alienated the very communities targeted by the revolutionaries, she shows how contemporary insurgents such as Rigoberta Menchú, the Zapatista movement, and queer Aztlán have

taken up the radicalism of their predecessors to retheorize revolutionary subjectivity for the twenty-first century.

Engaging Contradictions Charles R. Hale, 2008-05-07 Scholars in many fields increasingly find themselves caught between the academy, with its demands for rigor and objectivity, and direct engagement in social activism. Some advocate on behalf of the communities they study; others incorporate the knowledge and leadership of their informants directly into the process of knowledge production. What ethical, political, and practical tensions arise in the course of such work? In this wide-ranging and multidisciplinary volume, leading scholar-activists map the terrain on which political engagement and academic rigor meet. Contributors: Ruth Wilson Gilmore, Edmund T. Gordon, Davydd Greenwood, Joy James, Peter Nien-chu Kiang, George Lipsitz, Samuel Martínez, Jennifer Bickham Mendez, Dani Nabudere, Jessica Gordon Nembhard, Jemima Pierre, Laura Pulido, Shannon Speed, Shirley Suet-ling Tang, João Vargas

All the King's Men Robert Penn Warren, 2007 Set in the 1930s, this Pulitzer Prize-winning novel traces the rise and fall of Willie Stark, who resembles the real life Huey Kingfish Long of Louisiana.

Race and Intelligence Jefferson M. Fish, 2013-05-13 In recent years, reported racial disparities in IQ scores have been the subject of

raging debates in the behavioral and social sciences and education. What can be made of these test results in the context of current scientific knowledge about human evolution and cognition? Unfortunately, discussion of these issues has tended to generate more heat than light. Now, the distinguished authors of this book offer powerful new illumination. Representing a range of disciplines--psychology, anthropology, biology, economics, history, philosophy, sociology, and statistics--the authors review the concept of race and then the concept of intelligence. Presenting a wide range of findings, they put the experience of the United States--so frequently the only focus of attention--in global perspective. They also show that the human species has no races in the biological sense (though cultures have a variety of folk concepts of race), that there is no single form of intelligence, and that formal education helps individuals to develop a variety of cognitive abilities. *Race and Intelligence* offers the most comprehensive and definitive response thus far to claims of innate differences in intelligence among races.

The Terms of Order Cedric J. Robinson, 2016-03-09
Do we live in basically orderly societies that occasionally erupt into violent conflict, or do we fail to perceive the constancy of violence and disorder in our societies? In this classic book, originally published in 1980, Cedric J. Robinson contends that our perception of political order is an illusion, maintained in part by Western political and social theorists who depend on the idea of leadership as a basis for describing and

prescribing social order. Using a variety of critical approaches in his analysis, Robinson synthesizes elements of psychoanalysis, structuralism, Marxism, classical and neoclassical political philosophy, and cultural anthropology in order to argue that Western thought on leadership is mythological rather than rational. He then presents examples of historically developed stateless societies with social organizations that suggest conceptual alternatives to the ways political order has been conceived in the West. Examining Western thought from the vantage point of a people only marginally integrated into Western institutions and intellectual traditions, Robinson's perspective radically critiques fundamental ideas of leadership and order.

Racial Fault Lines Tomás Almaguer, 1994 An excellent summary and interpretation of race relations in nineteenth-century California. Empirically rich and theoretically sophisticated, it is the last and best word on the historical origins of the racial hierarchy that contemporary multiculturalists are struggling to overcome.-- George Fredrickson, Stanford University Sometime soon in the 21st century, all of California's peoples will belong to minorities, and Almaguer's pathbreaking comparative history is indispensable for understanding how and why this society became so racially diverse. His study expands the borders of multicultural scholarship.--Ronald Takaki, University of California, Berkeley Evocatively written and theoretically compelling, *Racial Fault Lines* represents a benchmark in the writing of U.S. history. Almaguer blends sociological

paradigms with rich historical narratives in his perspicacious examination of racial and class formation among nineteenth-century Californians. Me

D.v. Diana Vreeland, 1997-08-21 Here she tells how Buffalo Bill taught her to ride, describes how she redefined the standards of attractiveness with the quirky models she brought to Vogue in the sixties, disparages her own looks, relates her search for the perfect red, and discourses on the nature of elegance. Whatever her subject, from backaches to nostalgia, from Paris to New York, from marriage to dinner parties, from Clark Gable to Swifty Lazar, you never want her to stop. For D.

Critical Ethnic Studies Critical Ethnic Studies Editorial Collective, 2016-05-13 Building on the intellectual and political momentum that established the Critical Ethnic Studies Association, this Reader inaugurates a radical response to the appropriations of liberal multiculturalism while building on the possibilities enlivened by the historical work of Ethnic Studies. It does not attempt to circumscribe the boundaries of Critical Ethnic Studies; rather, it offers a space to promote open

dialogue, discussion, and debate regarding the field's expansive, politically complex, and intellectually rich concerns. Covering a wide range of topics, from multiculturalism, the neoliberal university, and the exploitation of bodies to empire, the militarized security state, and decolonialism, these twenty-five essays call attention to the urgency of articulating a Critical Ethnic Studies for the twenty-first century.
