Studies in the Text of the Old Testament Dominique Barthélemy,2012-11-01 Studies in the Text of the Old Testament offers to the English-speaking world the combined introductions to the first three volumes of Dominique Barthélemy's Critique Textuelle de l'Ancien Testament. CTAT was the culmination of the Hebrew Old Testament Text Project, launched by the United Bible Societies in 1969 and carried out by an international team of Old Testament textual critics under the leadership of Eugene Nida. As Emanuel Tov has stated, these introductions form "an almost complete introduction" to the textual criticism of the Hebrew Bible. They hold an important place in Old Testament textual criticism and can stand alone, apart from the detailed discussions of the textual problems found in the volumes. Part one surveys the history of OT textual criticism "from its origins to J. D. Michaelis" and presents the Hebrew Old Testament Text Project and its goals. Part two describes in detail the background of the modern versions that the HOTTP took into account in its work. Part three, the most extensive section, discusses the textual witnesses—the different forms of the Hebrew text and the contribution of the ancient versions. As his concluding program for a critical edition makes clear, the groundbreaking work of Barthélemy and the HOTTP served as the basis for the new Biblia Hebraica Quinta, which began publication in 2004. UBS undertook the HOTTP to offer Bible translators help in applying the results of textual criticism to their work, but there is no doubt that many others will benefit from this work, as well as the other volumes in the series "Textual Criticism and the Translator."

Neutrality and Collaboration in South China Helena F. S. Lopes,2023-06-15 The South China enclave of Macau was the first and last European colonial settlement in East Asia and a territory at the crossroads of different empires. In this highly original study, Helena F. S. Lopes analyses the layers of collaboration that developed from neutrality in Macau during the Second World War. Exploring the intersections of local, regional and global dynamics, she unpacks the connections between a plurality of actors with competing and collaborative interests, including Chinese Nationalists, Communists and collaborators with Japan, Portuguese colonial authorities and British and Japanese representatives. Lopes argues that neutrality eased the movement of refugees of different nationalities who sought shelter in Macau during the war and that it helped to guarantee the maintenance of two remnants of European colonialism – Macau and Hong Kong. Drawing on extensive research from multilingual archival material from Asia, Europe, Australasia and America, this book brings to light the multiple global connections framing the experiences of neutrality and collaboration in the Portuguese-administered enclave of Macau.

Feeding the City Richard Graham,2010-09-24 On the eastern coast of Brazil, facing westward across a wide magnificent bay, lies Salvador, a major city in the Americas at the end of the eighteenth century. Those who distributed and sold food, from the poorest street vendors to the most prosperous traders—black and white, male and female, slave and free, Brazilian, Portuguese, and African—were connected in tangled ways to each other and to practically everyone else in the city, and are the subjects of this book. Food traders formed the city's most dynamic social component during the late eighteenth and early nineteenth centuries, constantly negotiating their social place. The boatmen who brought food to the city from across the bay decisively influenced the outcome of the war for Brazilian independence from Portugal by supplying the insurgents and not the colonial army. Richard Graham here shows for the first time that, far from being a city sharply and principally divided into two groups—the rich and powerful or the hapless poor or enslaved—Salvador had a population that included a great many who lived in between and moved up and down. The day-to-day behavior of those engaged in food marketing leads to questions about the government's role in regulating the economy and thus to notions of justice and equity, questions that directly affected both food traders and the wider consuming public. Their voices significantly shaped the debate still going on between those who support economic liberalization and those who resist it.

The Costs of the Gig Economy Falina Enriquez,2022-09-13 Institutions in Recife, Brazil, have restructured subsidies in favor of encouraging musicians to become more entrepreneurial. Falina Enriquez explores how contemporary and traditional musicians in the fabled musical city have negotiated these intensified neoliberal cultural policies and economic uncertainties. Drawing on years of fieldwork, Enriquez shows how forcing artists to adopt “neutral” market solutions reinforces, and generates, overlapping racial and class-based inequalities. Lacking the social and financial resources of their middle-class peers, working-class musicians find it difficult to uphold institutional goals of connecting the city’s cultural roots to global markets and consumers. Enriquez also links the artists’ situation to that of cultural and creative workers around the world. As she shows, musical sponsorship in Recife and the contemporary gig economy elsewhere employ processes that, far from being neutral, uphold governmental and corporate ideologies that produce social stratification. Rich and vibrant, The Costs of the Gig Economy offers a rare English-language portrait of the changing musical culture in Recife.
