Financial Management Sudhindra Bhat, 2008 Financial Management Principles and Practice, second edition is fundamentally designed to serve as an introduction to the study of Financial Management for students, Financial professionals, teachers and managers. The developments in the capital market and the new avenues available to tackle the traditional financial constraints have placed the present day finance manager in a situation to learn new skills and constantly update knowledge to take financial decision in a competitive environment, develop a familiarity with the analytical techniques and understand the theories of modern finance. Financial Management Principles and Practice is designed as a comprehensive and analytical treatise to fill the gaps. The book seeks to build and develop familiarity with the analytical techniques in financial decision making in the competitive world. This book covers the requirement for discussion to help Practitioners, managers, Financial professionals, academicians and students reason out Financial Management issues for themselves and thus be better prepared when making real-world investment decisions. The book is structured in such a way that it can be used in both semester as well as trimester patterns of various MBA, M.Com, PGDM, PGP, PG Courses of all major universities, CA, CS, CFA, CWA, CPA of Professional and autonomous institutions. It provides complete clarity in a simple style, which will help the students in easy understanding. Discussion as well as mind stretching questions at the end of each chapter to stimulate financial decision making. Concepts are explained with a number of illustrations and diagrams for clear understanding of subject matter. The strong point of the book is its easy readability and clear explanation as well as extensive use of Case Study's and Project Works (more than 27 cases) which have been included in many chapters for Class discussion, EDP and FDP. **DISTINCTIVE FEATURES OF THIS EDITION:** Provides complete clarity in a simple style v 628 Solved Problems v 259 Unsolved Problems v Seven new chapters included v 399 Review questions (theoretical questions) v 212 Fill in the blanks with answers v 101 True or false questions with answers v 26 case study's for class discussion v Discussion as well as mind stretching questions at the end of each chapter to stimulate financial decision making

Illustrated Guide to Business Valuation B D Chatterjee, 2021-05-30 **ABOUT THE BOOK AND KEY FEATURES** In the complex world of business today, valuation has become an integral part of every sphere of day to day business activities. The term “fair value” is frequently used (and often misused) in every business transaction we enter into. The concept of “business valuation” in its various forms like historical cost, replacement value, net realisable value and present value are being used and interpreted to meet the requirements of varied and complex business transactions. On top of this, the onset of the pandemic (COVID-19) has thrown the business entities around the world into a whirlwind of uncertainties and challenges and has pushed the business valuation exercise into uncharted territories. Keeping this in view, this body of work explains and interprets the following in reader-friendly and lucid form: All the concepts revolving around business valuation, Extensive illustrations and case studies related to various methods of business valuation, Application of Ind AS, AS, IFRS and ICDS with respect to fair value measurement, Valuation of tangible assets, intangible assets and goodwill, Valuation of liabilities and provisions, Valuation of shares, valuation of brands and business which are used as basic ingredient to corporate restructuring, Concept of Economic Value Added (EVA), Valuation in Merger & Acquisitions, Salient features of the Valuation Standards issued by ICAI and International Valuation Standards issued by the International Valuation Standards Council, Significant judicial pronouncements related to business valuation, Possible impact of the pandemic on the business valuation of a target organization.
