Space Shuttle Missions Summary (NASA/TM-2011-216142) Robert D. Legler, Floyd V. Bennett, 2011-09-01 Full color publication. This document has been produced and updated over a 21-year period. It is intended to be a handy reference document, basically one page per flight, and care has been exercised to make it as error-free as possible. This document is basically as flown data and has been compiled from many sources including flight logs, flight rules, flight anomaly logs, mod flight descent summary, post flight analysis of mps propellants, FDRD, FRD, SODB, and the MER shuttle flight data and inflight anomaly list. Orbit distance traveled is taken from the PAO mission statistics.

Childhood Acute Lymphoblastic Leukemia Ajay Vora, 2017-04-21 This book provides a comprehensive and up-to-date review of all aspects of childhood Acute Lymphoblastic Leukemia, from basic biology to supportive care. It offers new insights into the genetic pre-disposition to the condition and discusses how response to early therapy and its basic biology are utilized to develop new prognostic stratification systems and target therapy. Readers will learn about current treatment and outcomes, such as immunotherapy and targeted therapy approaches. Supportive care and management of the condition in resource poor countries are also discussed in detail. This is an indispensable guide for research and laboratory scientists, pediatric hematologists as well as specialist nurses involved in the care of childhood leukemia.

DEC Is Dead, Long Live DEC Edgar H. Schein, Paul J. Kampas, Peter S. DeLisi, Michael M. Sonduck, 2004-08-15 From an insider, the forty-year saga of the rise and fall of Digital Equipment Corporation, one of the pioneering companies of the computer age. Digital Equipment Corporation created the minicomputer, networking, the concept of distributed computing, speech recognition, and

other major innovations. It was the number-two computer maker behind IBM. Yet it ultimately failed as a business and was sold to Compaq Corporation. What happened? Edgar Schein consulted to DEC throughout its history and so had unparalleled access to all the major players, and an inside view of all the major events. He shows how the unique organizational culture established by DEC's founder, Ken Olsen, gave the company important competitive advantages in its early years, but later became a hindrance and ultimately led to its downfall. Coauthors Schein, Kampas, DeLisi, and Sonduck explain in detail how a particular culture can become so embedded that an organization is unable to adapt to changing circumstances even though it sees the need very clearly. The essential elements of DEC's culture are still visible in many other organizations today, and most former employees are so positive about their days at DEC that they attempt to reproduce its culture in their current work situations. In the era of post-dotcom meltdown, raging debate about companies "built to last" vs. "built to sell," and more entrepreneurial startups than ever, the rise and fall of DEC is the ultimate case study.

The Story of the Seer of Patmos Stephen N. Haskell, 1993-05 The book of Revelation pronounces a blessing upon everyone who reads or even hears it read. Yet, many treat it as a mysterious book that should not be read and cannot be understood. S. N. Haskell has opened the book of Revelation up in an easily read style that explains it and its relation to our day. This facsimile, originally printed in 1905, makes an excellent study book for young and old.

Handbook on Personalized Learning for States, Districts, and Schools Marilyn Murphy, Sam Redding, Janet Twyman, 2016-07-01 The recent passage of the Every Student Succeeds Act (ESSA) presents new opportunities and greater flexibility in efforts to personalize learning for all children. The Handbook on Personalized Learning for States, Districts, and Schools provides insight and guidance on maximizing that new flexibility. Produced by the Center on Innovations in Learning (CIL), one of seven national content centers funded by the U.S. Department of Education, this volume suggests how teachers can enhance personalized learning by cultivating relationships with students and their families to better understand a child's learning and motivation. Personalized learning also encourages the development of students' metacognitive, social, and emotional competencies, thereby fostering students' self-direction in their own education, one aimed at mastery of knowledge and skills and readiness for career and college. Chapters address topics across the landscape of personalized learning, including co-designing instruction and learning pathways with students; variation in the time, place, and pace of learning, including flipped and blended classrooms; and using technology to manage and analyze the learning process. The Handbook's chapters include Action Principles to guide states, districts, and schools in personalizing learning.

The German Chemical Industry in the Twentieth Century John E. Lesch,2013-04-17 In the twentieth century, dyes, pharmaceuticals, photographic products, explosives, insecticides, fertilizers, synthetic rubber, fuels, and fibers, plastics, and other products have flowed out of the chemical industry and into the consumer economies, war machines, farms, and medical practices of industrial societies. The German chemical industry has been a major site for the development and application of the science-based technologies that gave rise to these products, and has had an important role as exemplar, stimulus, and competitor in the international chemical industry. This volume explores the German chemical industry's scientific and technological dimension, its international connections, and its development after 1945. The authors relate scientific and technological change in the industry to evolving German political and economic circumstances, including two world wars, the rise and fall of National Socialism, the post-war division of Germany, and the emergence of a global economy. This book will be of interest to historians of modern Germany, to historians of science and technology, and to business and economic historians.

Bash Cookbook Carl Albing,JP Vossen,Cameron Newham,2007-05-24 The key to mastering any Unix system, especially Linux and Mac OS X, is a thorough knowledge of shell scripting. Scripting is a way to harness and customize the power of any Unix system, and it's an essential skill for any Unix users, including system administrators and professional OS X developers. But beneath this simple promise lies a treacherous ocean of variations in Unix commands and standards. bash Cookbook teaches shell scripting the way Unix masters practice the craft. It presents a variety of recipes and tricks for all levels of shell programmers so that anyone can become a proficient user of the most common Unix shell -- the bash shell -- and cygwin or other popular Unix emulation packages. Packed full of useful scripts, along with examples that explain how to create better scripts, this new cookbook gives professionals and power users everything they need to automate routine tasks and enable them to truly manage their systems -- rather than have their systems manage them.

Information Literacy and Workplace Performance Tom W. Goad,2002-01-30 Today's workplace demands skills for a knowledgeable, productive use of information. Success, both personal and organizational, comes from finding what is essential and optimizing its effectiveness. Goad teaches readers how to swim in a potentially overwhelming sea of data. Information literacy—the ability to recognize the need for information, to locate, access, select, and apply it—was once an academic matter. Nowadays, this critical array of skills concerns anyone working in a knowledge-based environment. This easy-to-read, lucid guide attends to basic skills, thinking and decision-making, creativity enhancement, innovation and risk taking, computer literacy, subject matter literacy, learning how to learn, and securement of on-the-job help. As a special bonus, Goad discusses an unusual but highly relevant topic: how do we place work into the framework of our lives, and how can information literacy help? Both public and private sectors will find this an important resource for people at all organizational levels, making it a must have for anyone whose world is built on information.
