Transplant International Official Journal of the European Society for Organ Transplantation G. Opelz,W.A. Buurman,J.P. van Hooff,P. MacMaster,J. Wallwork,2013-11-11 This supplement to Transplant International contains the Proceedings of the successful 5th Congress of the European Society for Organ Transplantation held in Maastricht from 7-10 October 1991. Of 827 abstracts submitted to the congress, 548 were selected by the Scientific Committee for either oral or poster presentation. Of these 548 presentations, the guest editors selected 212 full papers for publication in this book. Two aspects are important where proceedings are concerned-the quality of the papers and the speed of publication. I thank our authors and guest editors, whose combined expertise has given us a guarantee of quality. I also thank our editorial and production teams for their tremendous efforts to hasten editing, proofreading, printing, and publication. In particular, I would like to express my gratitude to Maurits Booster, M.D., and Sylvia van Roosmalen for their assistance and support in seeing this supplement through to completion. As a concession to time, we have waived some of our stringent rules of style and limited our correspondence with authors by, for example, page proofs being reviewed and corrected in house only. This enables us to publish two months earlier but has the disadvantage that, given the allotted time, we have not been able to ensure that each and every article has an abstract, nor that every i has been dotted in the reference lists or in the addresses/institute affiliations of all the authors.

**The Developing Place of Portugal in the European Union** Josã© Marãa Magone, After decades of isolation and a turbulent transition to democracy, Portugal's integration into the European Union has given political, economic, social, and cultural stability to a country that had to overcome the trauma of losing an empire. This volume clearly is a major contribution to the study of how Portugal became part of the European Union as a political system and its development towards Europeanization and domestication. Magone first lays a theoretical framework for the study of Europeanization and discusses political parties, the political system, and Portuguese society in terms of Europeanization. He then examines public administration, how the European Union and the OECD impacted on the modernization agenda, and includes a discussion of the national EU policy coordination. Magone also considers the Portuguese Euro-elite and how they interacted with the Portuguese presidency and the processes of decision-making going on among the different levels of the governance system of the European Union. He highlights a case study of the Portuguese presidency of the European Union, which took place in the first half of 2003. In addition, Magone discusses the impact of the EU structural funds on Portugal, and scrutinizes Portuguese foreign and defense policies, in particular its reconstructed foreign policy, which was clearly instrumental in achieving the independence of East Timor. He reviews the growing integration of Portugal into the emerging structures of the Common Foreign and Security Policy (CFSP), concluding with the challenges that Portugal will face in the future in the education, health, and business sectors. An interesting finding is the growing alienation of the population from the political class, who clearly make all the decisions in relation to the European Union without proper consultation of the population through referenda. In sum, this book is vital to understand one of the oldest nation-states of the world. Josã© M. Magone is senior lecturer in European politics in the Department of Politics and International Studies, University of Hull. Among his publications are *The Changing Architecture of Iberian Politics*, *European Portugal: The Difficult Road to Sustainable Democracy*, and *Iberian Trade Unionism: Democratization Under the Impact of the European Union* (available from Transaction).

*The United States and NATO* Lawrence S. Kaplan,2015-01-13 The creation of the North Atlantic Treaty Organization was one of the most important accomplishments of American diplomacy in countering the Soviet threat during the early days of the Cold War. Why and how such a reversal of a 150-year nonalignment policy by the United States was brought about, and how the goals of the treaty became a reality, are questions addressed here by a leading scholar of NATO. The importance of restoring Europe to strength and stability in the post-World War II years was as obvious to America as to its allies, but the means of achieving that goal were far from clear. The problem for European statesmen was how to secure much-needed American economic and military aid without sacrificing political independence. For American policymakers, in contrast, a degree of American control was seen as an essential quid pro quo. As Mr. Kaplan shows, the lengthy negotiations of 1947 and 1948 were chiefly concerned with reconciling these opposing views. For the Truman administration, the difficulties of achieving a treaty acceptable to the allies were matched by those of winning its acceptance by Congress and the public. Many Americans saw such an entangling alliance as a threat not only to American security but to the viability of the United Nations. Mr. Kaplan demonstrates the tortuous course of the debate on the treaty and the pivotal role of the communist invasion of South Korea in its ultimate approval. This authoritative study offers a timely reevaluation of the origins of an alliance that continues to play a critical role in the balance of power and in the prospects for world peace.

**Peasant Economy, Culture, and Politics of European Russia, 1800-1921** Esther Kingston-Mann,Timothy Mixter,2014-07-14 This collection of original essays provides a rare in-depth look at peasant life in nineteenth- and early twentieth-century European Russia. It is the first English-language text to deal extensively with peasant women and patriarchy; the role of magic, healing, and medicine in village life; communal economic innovation; rural poverty and labor migration from the village perspective; the agricultural hiring market as workers' turf; and the regional components of the late nineteenth-century agrarian crisis. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Gold Coins of the World - 9th edition Arthur L. Friedberg,Ira S. Friedberg,Robert Friedberg,2017-01-05 A unique and indispensable reference work Unsurpassed in content and scope When the first edition of Gold Coins of the World made its debut in 1958, it forever changed the way gold coins were collected, cataloged, traded, and priced. For the first time, one book provided a reliable guide for a subject which previously required an often expensive investment in multiple volumes of literature, some of it rare and antique, and much of it badly out-of-date. With the publication of this pioneering work, Robert Friedberg (1912-1963) established himself as an international icon in the field of numismatic literature. This book, and the 'Friedberg Numbering System' he developed became then, and is still today, the internationally-recognized standard for systematically identifying any gold coin ever made. From just 384 pages in 1958, Gold Coins of the World has expanded to the extent that it now contains more than triple the information of its ancestor. It still stands alone as the first and only book to describe, catalog and price two millennia of gold, platinum, and palladium coin issues from across the globe. From the first coins of the ancient Greeks to the most recently-issued modern commemoratives, they are all here, an astonishing compilation of more than 21,000 individual coin listings accompanied by over 8,000 actual-size photographs. The prices have been completely updated, for the most part raised substantially, to reflect the current market. Entire sections have been expanded, many illustrations have

been added or improved, and hundreds of new discoveries and recent issues have been included for the first time. Arthur Friedberg, president of the International Association of Professional Numismatists from 2001 to 2007 and now its Honorary President, and Ira Friedberg, have completely revised and expanded their late father's work. They have had the valuable assistance and cooperation of a who's who of the leading numismatists on every continent in bringing this edition to fruition. For the numismatist, banker, economist, historian, institution of higher learning, or a fancier of the noble metal in all its forms, Gold Coins of the World is a book for every library, public and private.

**Market Services and European Integration** Pierre-André Buigues,1993 Numero especial editado conjuntamente por European Economy y Social Europe sobre el mercado interior de servicios. Incluye trabajos sobre transporte y comunicaciones, distribucion, hosteleria, servicios empresariales y servicios financieros. P. Buigues y A. Sapir estudian el mercado de servicios y la integracion europea y, respecto a los servicios financieros, J. Gual y D. Neven analizan el sector bancario y G. Dickinson el de seguros. Incluye un anexo estadistico comun con datos de intercambios de servicios intra y extra comunitarios e indicadores sectoriales y macroeconomicos. Este estudio, junto con el que editaron estas mismas revistas en 1990 sobre la industria manufacturera, forma parte de los trabajos que la Comision realiza, como consecuencia del informe Cecchini (El coste de la noÖEuropa), para analizar el mercado interior en sus aspectos sectoriales y nacionales. **Growth Trends in European Forests** Heinrich Spiecker,Kari Mielikäinen,Michael Köhl,Jens P. Skovsgaard,2012-12-06 The European Forest Institute (EFI) has five Research and Development priority ar eas: forest sustainability, forestry and possible climate change, structural changes in markets for forest products and services, policy analysis, and forest sector informa tion services and research methodology. In the area of forest sustainability our most important activity has been the project Growth trends of European forests, the re sults of which are presented in this book. The project was started in August 1993 under the leadership of Prof. Dr. Heinrich Spiecker from the University of Freiburg, Germany, and it is one of the first EFI's research projects after its establishment in 1993. The main purpose of the project was to analyse whether site productivity has changed in European forests during the last decades. While several forest growth studies have been published at local, re gional and national levels, this project has aimed at stimulating a joint effort in iden tifying and quantifying possible growth trends and their spatial and temporal extent at the European level. Debate on forest decline and possible climate change, as well as considerations re lated to the long term supply of wood underline the importance of this project, both from environmental and industrial points of view. Knowledge on possible changes in growth trends is vital for the sustainable management of forest ecosystems.

**Migration Law, Policy and Human Rights** Rachael Dickson,2022-04-28 Migration is one of the greatest societal challenges of our time. It has many facets, from mass movements to escape war, climate, or human rights abuses to the search for economic opportunity and prosperity. Illicit industries facilitate border crossings at the expense of safety, and governments face problems of processing and integrating new arrivals. These challenges have had a profound impact in Europe, calling into question central values of solidarity and human rights. This book analyses the law and policy of migration in the European Union (EU) and its relationship to understandings of the EU as an international human rights actor. It examines the role crisis plays in determining the priorities of migration policy and the impact political exigencies have on the rights of migrants. This book problematises the EU Area of Freedom, Security, and Justice as a ‘home.’ Taking a governmentality approach to critique discourse, the idea of a holistic approach is deconstructed to explore notions of wellness, resilience, responsabilisation and externalisaton. The EU’s pursuit of a holistic approach to managing migration in crisis indicates problems with EU solidarity, and the tactics employed to bring the crisis under control reveal security concerns that provoke questions about the EU as an international human rights actor. Both this framework for analysis and the empirical findings make a significant contribution to how the migration crisis can be theorised using adaptable conceptual tools. Under this form of governance, migration becomes a phenomenon to be treated so that its symptoms are ameliorated. This book will be of interest to students and scholars of the EU, migration, and human rights as well as policymakers, commentators, and activists in these areas.
