168 Hours Laura Vanderkam, 2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

Information Efficiency and Anomalies in Asian Equity Markets Qaiser Munir, Sook Ching Kok, 2016-10-04 The efficient market hypothesis (EMH) maintains that all relevant information is fully and immediately reflected in stock prices and that investors will obtain an equilibrium rate of return. The EMH has far reaching implications for capital allocation, stock price prediction, and the effectiveness of specific trading strategies. Equity market anomalies reflect that the market is inefficient and hence, contradicts the EMH. This book gathers both theoretical and practical perspectives, by including research issues, methodological approaches, practical case studies, uses of new policy and other points of view related to equity market efficiency to help address the future challenges facing the global equity markets and economies. *Information Efficiency and Anomalies in Asian Equity Markets: Theories and evidence* is an insightful resource that will be useful for students, academics and professionals alike.

The Efficiency of China's Stock Market Shiguang Ma, 2017-11-30 By investigating the efficiency of China's stock market in accordance with the theoretical framework of the Efficient Market Hypothesis, this book focuses on weak form and semi-strong form market efficiency. Empirical tests have been intensively conducted on the random walk hypothesis, the presence of market seasonality and the price reaction to publicly released information. In addition *The Efficiency of China's Stock Market* provides a comparative analysis between China's stock market and other countries' stock markets.

Your 168 Harry M. Kraemer, Jr.,2020-04-17 Put your values first and focus on what matters most. Despite our good intentions, many of us experience a chronic imbalance between the desire to live our values and the distractions and never-ending to-do lists that can get in the way. In *Your 168: Finding Purpose and Satisfaction in a Values-Based Life*, readers learn how to pursue a values-based life by identifying and committing to their values and priorities. The book is written by bestselling author Harry Kraemer, former Chairman and CEO of Baxter International and currently a professor of management and strategy at Northwestern University's Kellogg School of Management, where he was a Professor of the Year. Kraemer uses personal stories and insights from others to help readers discover the dissonance between what they say is most important and where they actually devote their time. This is an eye-opener for most people, uncovering the obstacles to leading a value-based life. In *Your 168*, you will learn how to make changes and build new habits that put your values first by: ● Using self-reflection to identify what matters most and become more aware of how you spend your time ● Re-evaluating priorities such as career, family, health, recreation, spirituality, and making a difference ● Avoiding unpleasant “surprises” and “hitting the brick wall” ● Experiencing better balance in real time amid shifting priorities—personally and professionally. Fans of Kraemer's previous books on values-based leadership will embrace this new release - *Your 168: Finding Purpose and Satisfaction in a Values-Based Life*. The book provides actionable

advice, filled with tips on how to live a life of meaning and experience a greater sense of purpose. Everyone will feel inspired to make lasting change. All of Harry's proceeds from the book sales are donated to the One Acre Fund in Africa.

Governance of Integrated Product Policy Dirk Scheer,Frieder Rubik,2017-09-08 European policy patterns are in a state of transformation. New governance models are shifting power away from states and toward the involvement of all stakeholders and the idea of shared responsibility. It's a move from command and control to push and pull. What's in this new approach for the environment? This book provides a detailed analysis of the example of integrated product policy (IPP) which aims to improve the environmental performance of products and services through their life-cycle. All products cause environmental degradation in some way, whether from their manufacturing, use or disposal. The life-cycle of a product is often long and complicated. It covers all the areas from the extraction of natural resources, through their design, manufacture, assembly, marketing, distribution, sale and use to their eventual disposal as waste. At the same time it also involves many different actors such as designers, manufacturers, marketers, retailers and consumers. IPP attempts to systematically stimulate each phase of this complicated

chain to improve its environmental performance. With the involvement of so many different products and actors there cannot be one simple policy measure for everything. Instead, IPP employs a whole variety of tools – both voluntary and mandatory – which are used to achieve identified objectives. These include economic instruments, the phase-out of dangerous materials, voluntary agreements, eco-labelling and product design guidelines. IPP is still in relative infancy and can be seen as an ongoing process hugely dependent on effective governance measures to ensure its continued success. This book presents a plethora of perspectives from policy-makers, researchers and consultancies, representatives from business, environmental and consumer associations on how to effectively conceptualise, institutionalise and implement IPP. The book is divided into four parts. First, the approach to the governance of IPP is examined in relation to other approaches to sustainable production and consumption. Second, the widely differing approaches to environmental product policy in practice at national, supranational and global level are analysed. Third, the book explores the challenge of designing a coherent policy mix to support the integration of sustainable consumption and production patterns by sector and theme. Finally, the book concentrates on the key issue of how to involve stakeholders in IPP in order to encourage continuous innovations for sustainability throughout the value chain. Governance of Integrated Product Policy aims to fill a clear gap in work to date on sustainable production and consumption by providing researchers and practitioners from politics, business and civil society new insights into modern environmental governance in practice.

Raising the Bar Claude Fussler,Aron Cramer,Sebastian van der Vegt,2017-09-08 This book, produced by a unique team of business experts and UN agencies, is designed to fill a critical void-between the support of more than 1,000 organisations for the globally recognised Principles of the United Nations Global Compact and the need for this support to be translated into the day-to-day running of business to create value and improve performance. The ten Global Compact Principles cover human rights, labour standards, environmental responsibility and anti-corruption. But what does it mean to implement the Compact and its principles? How can the broad brush strokes of the Principles form the basis of management change? And how should companies establish benchmarks and performance indicators for implementation? For many companies, the journey is just starting. How can they ensure that they align with the Global Compact in ways that continue to reward their other business objectives? How should they embrace and capitalise on the Global Compact's potential for bringing together business, the public sector, trade unions and civil society in new partnerships? The aim of this book is to answer these questions by providing a performance model clearly grounded on the total quality management approach to assist businesses in putting the Global Compact into practice. Raising the Bar collects together and categorises a wealth of corporate responsibility tools, good practice and case studies in a structure familiar to anyone aware of business excellence models

and demonstrates that values create value-leadership commitment to the Global Compact can impact both the boardroom and the shop floor, public image and balance sheet. Full of graphics and designed with accessibility in mind, the book will be a goldmine for managers looking for inspiration on how their businesses can be good corporate citizens and real proof that good business is also good for the bottom line.

Carving Out a Living on the Land Emmet Van Driesche,2019 When he first envisioned becoming a farmer, author Emmet Van Driesche never imagined his main crop would be Christmas trees, nor that such a tree farm could be more of a managed forest than the conventional grid of perfectly sheared trees. *Carving Out a Living on the Land* tells the story of how Van Driesche navigated changing life circumstances, took advantage of unexpected opportunities, and leveraged new and old skills to piece together an economically viable living, while at the same time respecting the land's complex ecological relationships. From spoon carving to scything, coppicing to wreath-making, *Carving Out a Living on the Land* proves that you don't need acres of expensive bottomland to start your land-based venture, but rather the creativity and vision to see what might be done with that rocky section or ditch or patch of trees too small to log. You can lease instead of buy; build flexible, temporary structures rather than sink money into permanent ones; and take over an existing operation rather than start from scratch. What matters are your unique circumstances, talents, and interests, which when combined with what the land is capable of producing, can create a fulfilling and meaningful farming life.
