Dintage Games 2.0 Matt Barton, 2019-05-08 Super Mario Bros. Doom. Minecraft. It's hard to imagine what life would be like today without video games, a creative industry that now towers over Hollywood in terms of both financial and cultural impact. The video game industry caters to everyone, with games in every genre for every conceivable electronic device--from dedicated PC gaming rigs and consoles to handhelds, mobile phones, and tablets. Successful games are produced by mega-corporations, independent studios, and even lone developers working with nothing but free tools. Some may still believe that video games are mere diversions for children, but today's games offer sophisticated and wondrously immersive experiences that no other media can hope to match. Vintage Games 2.0 tells the story of the ultimate storytelling medium, from early examples such as Spacewar! and Pong to the mind blowing console and PC titles of today. Written in a smart and engaging style, this updated 2nd edition is far more than just a survey of the classics. Informed by hundreds of in-depth personal interviews with designers, publishers, marketers, and artists--not to mention the author's own lifelong experience as a gamer--Vintage Games 2.0 uncovers the remarkable feats of intellectual genius, but also the inspiring personal struggles of the world's most brilliant and celebrated game designers--figures like Shigeru Miyamoto, Will Wright, and Roberta Williams. Ideal for both beginners and professionals, Vintage Games 2.0 offers an entertaining and inspiring account of video game's history and meteoric rise from niche market to global phenomenon. Plaster of the Universe Snowqueens Icedragon, 2013-08-08 Bella Swan is drafted in to interview the reclusive enigmatic Edward Cullen, multi-millionaire CEO of his company. It's an encounter that will change her life irrevocably, leading her to dark realms of desire. The piece featured characters named after Stephenie Meyer's characters in Twilight, Edward Cullen and Bella Swan.

Derders of Battle Marko Kloos, 2020-12 The battle against the Lankies has been won. Earth seems safe. Peacetime military? Not on your life. It's been four years since Earth threw its full military prowess against the Lanky incursion. Humanity has been yanked back from the abyss of extinction. The solar system is at peace. For now. The future for Major Andrew Grayson of the Commonwealth Defense Corps and his wife, Halley? Flying desk duty on the front. No more nightmares of monstrous things. No more traumas to the mind and body. But when an offer comes down from above, Andrew has to make a choice: continue pushing papers into retirement, or jump right back into the fight? What's a podhead to do? The remaining Lankies may have retreated in fear, but the threat isn't over. They need to be wiped out for good before they strike again. That'll take a new offensive deployment. Aboard an Avenger warship, Andrew and the special tactics team under his command embark on the ultimate search-and-destroy mission. This time, it'll be on Lanky turf. No big heroics. No unnecessary risks. Just a swift hit-and-run raid in the hostile Capella system. Blow the alien seed ships into oblivion and get the hell back to Earth. At least, that's the objective. But when does anything in war go according to plan?
