*Prime Time Animation* Carol Stabile,2013-09-13 In September 1960 a television show emerged from the mists of prehistoric time to take its place as the mother of all animated sitcoms. The Flintstones spawned dozens of imitations, just as, two decades later, The Simpsons sparked a renaissance of primetime animation. This fascinating book explores the landscape of television animation, from Bedrock to Springfield, and beyond. The contributors critically examine the key issues and questions, including: How do we explain the animation explosion of the 1960s? Why did it take nearly twenty years following the cancellation of The Flintstones for animation to find its feet again as primetime fare? In addressing these questions, as well as many others, essays examine the relation between earlier, made-for-cinema animated production (such as the Warner Looney Toons shorts) and television-based animation; the role of animation in the economies of broadcast and cable television; and the links between animation production and brand image. Contributors also examine specific programmes like The Powerpuff Girls, Daria, Ren and Stimpy and South Park from the perspective of fans, exploring fan cybercommunities, investigating how ideas of 'class' and 'taste' apply to recent TV animation, and addressing themes such as irony, alienation, and representations of the family.

*Tidal Shift* Dora Heldt,2013 To Christine, her Aunt Inge and Uncle Walter are reliable fixtures in the family, dependable and destined to be together forever. So when she spies Inge in the company of a man who is most certainly not her husband, life as Christine knows it takes a turn for the unexpected. Suddenly, what began as a blissful

vacation with her gorgeous boyfriend on her native island of Sylt has morphed into a family drama of epic proportions-- and a rude wake-up call for Christine. Because compared to the newfound passion with which sixtysomething Inge is tackling each day, Christine's supposedly fabulous life seems downright dull. Christine decides it's time to make some drastic changes...but will she ruin the great life she already has in the process?

### Creating Meaning Through Literature and the Arts

New American Stories Ben Marcus, 2015-07-21 In *New American Stories*, the beautiful, the strange, the melancholy, and the sublime all come together to show the vast range of the American short story. In this remarkable anthology, Ben Marcus has corralled a vital and artistically singular crowd of contemporary fiction writers. Collected here are practitioners of deep realism, mind-blowing experimentalism, and every hybrid in between. Luminaries and cult authors stand side by side with the most compelling new literary voices. Nothing less than the American short story renaissance distilled down to its most relevant, daring, and unforgettable works, *New American Stories* puts on wide display the true art of an American idiom.

**Television and American Culture** Jason Mittell, 2010 *Television and American Culture: An Overview* introduces students to the study of television by looking at American television from a cultural perspective. The book is written for intermediate undergraduate and beginning graduate students for a range of television studies courses.

Specifically, Mittell discusses television within the following contexts: the economics of the television industry, television's role within American democracy, the formal attributes of a variety of television genres, television as a site of gender and racial identity formation, television's role in everyday life, and the medium's technological and social impacts. The topical arrangement and comprehensive scope of the book differs from other television textbooks, arguing that we must incorporate a range of economic, political, aesthetic, and sociological perspectives to fully comprehend the medium of television.
