China's Evolving Surface Fleet Peter Dutton,Ryan D. Martinson,2017 Over the past fifteen years, the People's Liberation Army Navy's (PLAN's) missile fast-attack craft and amphibious fleets have been significantly modernized. While these two types of vessels have not increased in numbers, their capabilities have increased exponentially. This publication examines the People's Liberation Army's (PLA's) doctrine and training strategy in order to analyze present and predict future missions by these military vessels. China's deterrence posture is improved greatly by these ships and boats, which aid coastal water defense, and threaten Taiwanese attempts to gain independence. In addition, these two fleets improve China's long-range sealift capabilities, and help with the PLA's traditional, and new, nontraditional security practices. These fleets allow the PLAN to continue offshore operations, and begin blue-water, or far-seas operations,

helping the United States to predict the future nature of Chinese maritime missions. Defending Air Bases in an Age of Insurgency Shannon Caudill, Air University Press, 2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

Air Power and Maneuver Warfare Martin van Creveld, Kenneth Brower, Steven Canby, 2012-08-01 An essential part of the Air War College curriculum consists of the study of military history and specific campaigns. Part 1 of this manuscript presents an attempt to clarify the relationship between air power and maneuver warfare since 1939, a subject that derives its importance from the fact that maneuver warfare has been the U.S. Army's official doctrine since the early eighties and remains so to the present day. Part 2 contains the collective wisdom of the military doctrine analysis of the Air University on the same subjects, as well as the way in which we have presented them.

Hooked on the Game C. M. Owens, 2014-10-11 Everyone has secrets that define them, a past that has shaped them, and a game they play - whether they know it or not. Despite the fact they live next door to each other, Kade and Raya have never made an effort to speak, until a wild party, four frat boys, and... a bulldozer. Sterling Shore was supposed to be a new start for eighteen-year-old Raya Capperton. Everything was working out perfectly until her two roommates were expelled for a prank, leaving Raya with the house she couldn't afford on her own. Fate intervenes before she has the chance to find a new home, but she struggles to decide if it's divine luck or the devil's cruel sense of humor. Twenty-one-year-old Kade Colton has his life planned out, and everything he does is an elaborate game to aid him with his future endeavors. Coming from money has made Kade's life easy, but he wants to build his own name - his own future. The thing he doesn't realize... when you only put forth superficial effort, you only acquire superficial friends. Raya is torn between being amused or disturbed by Kade and his philosophy, but the drive behind his determination isn't what Raya expected. Little by little, her hatred fades and is replaced by emotions she never would have believed she could have for the rich jerk she desperately doesn't want to care about. Too bad you can't force yourself not to care. The problem is... Kade's shiny name can't be tarnished, and Raya has a jaded tie she can't cut loose. Nothing about them can work, nothing

about them makes sense, but nothing can seem to stop them from trying. *Not suitable for anyone under the age of eighteen **No cliffhanger **New Adult Contemporary Romance **Descriptive sex **Language

Myth and Mentality Anna-Leena Siikala,2019-01-10 The recent fascination in Finnish folklore studies with popular thought and the values and emotions encoded in oral tradition began with the realisation that the vast collections of the Finnish folklore archives still have much to offer the modern-day researcher. These archive materials were not only collected by scholars, but also by the ordinary rural populace interested in their own traditions, by performers and their audiences. With its myriad voices, this body of source material thus provides new avenues for the researcher seeking to penetrate popular thought. What does oral tradition tell us about the way its performers think and feel? What sorts of beliefs and ideas are transmitted in traditional songs and narratives? Perspectives from the study of mentalities and cultural cognition research provide a framework for investigating these issues. This collection of articles works from the premise that the cultural models which shape mentalities give rise to manifest expressions of culture, including folklore. These models also become embedded in the representations appearing in folklore, and are handed down from one generation to the next. The topics of the book cover age-old myths and world views, concepts of witchcraft and the Devil stretching back to the Middle Ages, and the values and collective emotions of Finnish and Hungarian agrarian communities.
