Correspondence Chess in America Bryce D. Avery, 2012-10-16 This is an historical overview and detailed analysis of American correspondence chess from the 1840s to about 1999. Particular attention is paid to the Correspondence Chess League of America (CCLA), the oldest correspondence chess organization in America and the second oldest in the world. Also included are comparisons of American postal chess play to that of other nations; discussions of the United States Postal Chess Federation, which runs the national championship and encompasses most major American clubs; and biographies of America's two World Correspondence Chess Champions. Over 200 illustrative games are included with diagrams. Appendices cover the CCLA rating system, adjudication, the Russian system, and winners of selected tournaments. A bibliography provides opportunities for further research and indexes cover players, game openings, and general topics.

Chess Developments: The Sicilian Najdorf 6 Bg5 Kevin Ming, Chess Developments is a series which provides state-of-the-art openings coverage. Chess Developments focuses on the current trends - concentrating on critical lines, theoretical novelties and powerful new ideas. It offers players of all levels the opportunity to keep up-to-date with current opening theory whilst also expanding and improving their repertoires. The Sicilian Najdorf is undoubtedly one of the most

popular chess openings. It was played with great success by world champions Bobby Fischer and Garry Kasparov and today it remains a favourite defence at all levels from grandmaster to beginner. 6 Bg5 is widely acknowledged as a critical test of the Sicilian Najdorf. It leads to razor-sharp positions and hotly debated lines such as the fascinating Poisoned Pawn, where one small slip by either side can be fatal. In this book, International Master Kevin Goh Wei Ming examines the most theoretically important and instructive games in recent years, highlighting the main developments and novelties for both sides. Whether playing White or Black, this book provides you with essential knowledge of an important opening. Essential coverage of a popular openingWritten by a Sicilian Najdorf 6 Bg5 expertPacked with new ideas and critical analysis

Red Letters Sergeĭ I[A]kovlevich Grodzenskĭĭ,T. D. Harding,2003 This is an important work for chess history and also will be of great practical interest as numerous previously unknown or forgotten master chess games are made available in the West for the first time. The Correspondence Chess Championships of the Soviet Union were a series of high-level postal chess events held continuously from 1947 onwards and involving many leading masters and grandmasters of chess from the USSR. Many players who then or later were famous as professional grandmasters or opening theoreticians competed in these events at one time or another. On the break-up of the USSR in the 1990s, the preliminaries of the last two championships had begun and these were completed by the Russian federation with players from other nations of the former USSR. The final of the last championship was due to end in December 2001, about 10 years after the break-up of the Soviet

Union; the quarter-final stages had just begun ten years earlier. Sergey Grodzensky profiles the champions and other leading personalities and presents the best games from the events. The games were collected by Tim Harding with assistance from his co-author and from German journalist and correspondence chess gr

ChessBase Complete Jon Edwards, 2019-10-04 Updating a Classic! Five years ago, when ChessBase Complete was released, it was an instant sensation. For the first time ever, a comprehensive manual for one of the most popular chess programs was available. It covered ChessBase through version 12. Since then, ChessBase has introduced three new versions and a remarkable (and free) suite of online tools for the world wide web. Many new and powerful functions have been added, all with an eye towards ease-of-use. This Supplement updates the original ChessBase Complete, and once again gives the chess community the opportunity to make the most of this remarkable software. Searches are much more powerful, analysis has been automated, and we can now take full advantage of storing and sharing our data in a “chess cloud.” While this Supplement should be helpful to all ChessBase users, it builds upon the original edition. If you do not already have the first edition, you may wish to consider getting it. ChessBase Complete and this Supplement should make your chess time much more productive and enjoyable and, with the software at hand, vastly accelerate your chess improvement. About the Author: Jon Edwards recently qualified for the World Correspondence Chess Championship final round. He won the 10th United States Correspondence Championship in 1997 and the 8th North American Invitational Correspondence Chess Championship in 1999. He is a four-time winner of the APCT (American

Postal Chess Tournaments) Championship and has been awarded the APCT Game of the Year Award twice. He received his correspondence International Master (IM) in 1997, his Senior International Master (SIM) in 1999. He is currently fighting for his final grandmaster norm in the prestigious ICCF Spanish Masters. He has competed on the United States Correspondence Chess Olympiad team competing, reaching the final round. His correspondence ICCF rating places him the top 100 correspondence chess players worldwide. In addition to the extremely popular ChessBase Complete, Jon has written more than a dozen chess books, including *The Chess Analyst* (Thinkers Press 1999) which chronicles the success in the US championship; *Teach Yourself Visually: Chess* (Wiley 2006); a photographically based chess primer; and *Sacking the Citadel: The History, Theory, and Practice of the Classic Bishop Sacrifice* (Russell Enterprises 2011). He also writes a regular column on Chess Technology for the American Chess Magazine.

50 Golden Chess Games Tim Harding, Friedrich Baumbach, 2004-06 Following his acclaimed '64 Great Chess Games', Senior International Master Tim Harding presents another 50 exciting and varied games played by post in the 19th and 20th centuries, or in recent years on the Internet. innovations in the majority of games as well as sacrificial combinations and instructive endgames. wins by Alekhine and Euwe, together with CC world champions Baumbach, Estrin, Hamarat, O'Kelly, Sanakoev, Timmerman and Umansky, plus games by other leading players and amateur chess players. players and the circumstances in which the games were played. correspondence chess has contributed many new ideas to the theory and practice of the game of chess.
