The Single Girl's Calendar Erin Green,2018-01-01 A task a day to cure a broken heart. Esmé Peel is approaching thirty with some trepidation, but hope in her heart. If she can just get her long-term boyfriend Andrew to propose, she will have ticked everything off her 'things to do by the time you're 30' list. She didn't reckon on finding another woman's earring in her bed however, and soon she finds herself single, homeless and in need of a new plan. Her best friend Carys gives her the perfect present – The Single Girl's Calendar – which has a different cure for heartbreak every day: Day 1: Look and feel fabulous with a new hair style. Day 2: Step out of your comfort zone and try something new. Day 3: Reconnect with friends and enjoy! Despite thinking it's a bit of a gimmick, Esmé hasn't got any better ideas, so she puts the plan into action. By the end of week one she has four new male housemates, and despite a broken heart she is determined to show Andrew she can do more than survive, she can thrive.

Natural Language Processing and Information Systems Andrés Montoyo,Rafael Munoz,Elisabeth Métais,2005-06-01 NLDB 2005, the 10th International Conference on Applications of Natural Language to Information Systems, was held on June 15–17, 2005 at the University of Alicante, Spain. Since the first NLDB conference in 1995 the main goal has been to provide a forum to discuss and disseminate research on the integration of natural language resources in information system engineering. The development and convergence of computing, telecommunications and information systems has already led to a revolution in the way that we work, communicate with each other, buy goods and use services, and even in the way that we entertain and educate ourselves. The revolution continues, and one of its results is that large volumes of information will increasingly be held in a form which is more natural for users than the data presentation formats typical of computer systems of the past. Natural language processing (NLP) is crucial in solving these problems, and language technologies will make an indispensable contribution to the success of information systems. We hope that NLDB 2005 was a modest contribution to this goal. NLDB 2005 contributed to advancing the goals and the high international standing of these conferences, largely due to its Program Committee, composed of renowned researchers in the field of natural language processing and information system engineering. Papers were reviewed by three reviewers from the Program Committee. This clearly contributed to the significant number of papers submitted (95). Twenty-nine were accepted as regular papers, while 18 were accepted as short papers.

The Return of the Son of Man Michael Collins,2013-01-11 For over 2,000 years after the physical death of Jesus Christ on the Cross, mankind has been asking serious questions about the purpose of life here on earth due to religious confusion, premature deaths, diseases, poverty, famine, illnesses, natural disasters, wars, terrorism, climate change, broken marriages, drought, corruptions, greed, depression, recessions, slavery, addiction, accidents, deformities, immorality, selfishness, repression, etc. Life has been so difficult for most inhabitants of this planet, especially people in poor and underdeveloped parts of the world. Many people have lost faith in God, and some do not even believe that He exists. This book explains my true life story, the story leading up to the external voice of God to me, the reason for the world's problems, and also the ultimate solutions to the world's unending problems. God's anointed single worldwide leader is the only person who can take everyone around the globe forward to everlasting unity, peace, and stability. I am back and ready to put things right once and for all here on planet earth, and I want leaders of this present world to seriously consider my claim as the ultimate leader of the entire world. This book is primarily directed to every soul on this planet, especially believers of the existence of the Almighty God, mostly Judaism, Christianity, Islam, and all other religious establishments that exist. We must all now stand up together for what we believe to be true and move the people of this planet to the promised world. Almighty God will richly bless you as you read this book with an open mind. When the world has lifted up the Son of Man, then you will know that I am He, and that I do nothing of myself, but as My Father taught and directs Me, I speak these things. The purpose of life here on earth is to honour and obey God's words, worship Him by faith, in truth and in spirit, to work hard and help each

other and then enjoy the beauty and majesty of this planet in unity, peace, love and harmony and also the planets our Father is about to reveal to mankind. The ultimate purpose of life is to become gods and to lead an everlasting life.

Identity and Pragmatic Language Use Yoko Nogami,2020-06-22 ELF (English as a lingua franca) research counters the monocentric view of English based on norms of native speakers of English, and supports any usages reflecting sociopragmatic and pragmalinguistic reality of ELF communication. Such an approach empowers any speakers of English to contemplate their own varieties of English as legitimate, providing them greater options for positive self-identification. Based on qualitative and interpretive methodology, this book illustrates how Japanese L2 English users establish identities related to L2 English as part of their multiple identities, and how they explore new identity options through ELF. Moreover, the author demonstrates how power relations relating to English language are constructed through the participants' experiences in ELF interactions. Also, analysis of the data reveals that to what degree the Japanese L2 English users wish to affiliate with particular groups in ELF interactions with people from diverse cultural background. Because of the multidisciplinary nature of the study, this book will appeal to a broad audience such as scholars and students who are interested in further understanding of identity and sociocultural issues involved in intercultural communication.

8 1/2 Stone Liz Jones,2021-07-14 When I am 8 1/2 Stone; I will be able to shop in Topshop. I will be able to go swimming and not displace all the water and create a tsunami. I will fit in changing rooms without banging my elbows or exposing the moon of my arse through the curtain when I bend over. I will be able to fit behind the narrow benches at Ronnie Scott's to listen to jazz instead of being offered a chair at the end of the row I'll be able to see my toes, which I haven't seen since 1996 without the aid of a selfie stick. I will be promoted and not have my desk moved to inside the stationery cupboard for being off-brand. I started writing this book five years ago. I was going through a really hard time - I lost my home and everything I owned - and the only way I got through it was by writing, and making myself laugh. I have always self-medicated with funny books, and wanted to write something that made women who might be miserable or cheated on or broke or feeling woefully unsuccessful feel a little better. The book is rooted in my reality: I always felt my life would start and I'd be happy once I reached my target weight. Then I got thin, and life was still rubbish

and I still hated my body. I realised true happiness only comes with self-acceptance. So here it is. And I hope it at least makes you smile. And reach for that doughnut.
