Email Marketing in a Digital World Richard C. Hanna, Scott D. Swain, Jason Smith, 2015-12-18 Despite annual predictions of its demise, email marketing remains one of the most important tools for businesses and other organizations. The reason is simple. Other communication tools, including social and digital media channels, cannot duplicate or recreate the unique capabilities of email marketing. This book is for those who wish to learn more about how email marketing works, whether as students, teachers, or practitioners. The authors recap the history of email and email marketing and explain how it informs email today. They cover the fundamentals of email marketing, including types of emails, the elements of an email, email metrics, best practices for email for improving performance, list development, and the benefits of segmenting an email list. Also addressed are special topics in email strategy, including the psychology of email recipients, AB testing for optimizing email elements, integrating email with social media, and aligning email with big data sources.

Email Marketing Razaq Adekunle, 2021-02-17 Email marketing's power is matched only by how incredibly

misunderstood it is. In this Email Marketing, digital marketing expert reveals the strategies and techniques that top email marketers are currently using to build large mailing lists, write compelling copy that converts and generate millions in revenue using their email lists. Business fads come and go, but Email Marketing has consistently outperformed all other marketing strategies. Inside the book you'll discover: Understanding What Email Marketing Is- It is very common for people to use email for communication nowadays. As a matter of fact, there are people who will have a few email addresses. As a result, some people will start use emails as a mean to promote products. How Email Marketing Works- Email marketing is a form of direct marketing that uses electronic mail as a method of advertising. Technically, email marketing is an all-encompassing term. It can refer to any commercial or fundraising message. Email Marketing Tricks To Make Money- The game is called email marketing and in order to be an internet success story you must learn the rules, follow them, and succeed at this game. We will be talking about how to create email marketing campaigns that make money and this subject is geared towards those of us that actually build our own list instead of buying or renting a list. Email Marketing: Do You Want to Triple Your Return On Investment- One of the biggest mistakes most marketers do nowadays, is think email marketing is dead. Many marketers today drop the email marketing scheme to go with social media. Come to think of it, social media look much sexier than email. But, is a social media post as effective as an email? Before we answer that question, let's state a well-known fact. It is easier to send a friend request on Facebook than to collect an email online. But believe me, email marketing is thrice as worth it as social media marketing. So, what is email marketing? How to Do Bulk

Email Marketing- You might be one of those who believe that bulk email marketing is no longer useful on driving web traffic. You are very wrong. Email marketing is a kind of advertising that directly appeals to the prospect buyers; thus, it commands attention and will drive sales. 300 Email Marketing Tips Meera Kothand,2019-05-20 Does any of this sound familiar to you? 1. You sit down every week staring at that blinking cursor wondering what to send your email list, and then a week becomes two or more, and you can't remember when the last time you emailed them was. 2. You have an opt-in incentive or lead magnet that's pretty much doing nothing for you or your business. 3. You have a haphazardly thrown together email sequence that doesn't bring you sales or engagement. 4. You silently cringe every month as you pay out your email service provider because you're not using any of their features. 5. You're pretty much winging it with email. If you're nodding yes, 300 Email Marketing Tips will give you more than a bare-bones framework to put in place an email marketing strategy for your business. The premise of this book isn't about growing a big fat email list. Email marketing is NOT list building alone. You need a coherent, holistic strategy to be successful at it. Here's what's packed in this how-to guide: What branding has to do with email marketing and the #1 thing most solopreneurs ignore when it comes to their email list 7 things your welcome email must do (but probably doesn't!) Why your

lead magnet has to address THESE two critical points 3 ways to plan your email editorial calendar Answers to the questions and more - I have thirty thousand page views a month but get only forty-two subscribers for an month. What am I doing wrong? (See section 3 for the answer.) - My email sequence gets a lot of engagement and opens. Everyone says they love my stuff, but I still get no sales for my e-book. Why? (See section 5 for the answer.) - I have a sequence of emails set up in my evergreen funnel, but I'm not getting any sales. Is my product terrible? Should I just scrap it altogether? (See section 7 for the answer.) Rather than flit from week to week wondering what to email your list... Imagine creating an email strategy that enables you to take the weekend off and still see your list grow, rake in testimonials, and make sales. Imagine having endless email content ideas... Imagine creating an opt-in offer with all the right ingredients that has readers clamoring to get their hands on it... Imagine sending emails with confidence knowing exactly the impact that particular email will have on your subscribers... That's the power of an email marketing strategy! If you think email marketing is complicated and something you can't do, my goal with this book is to change that opinion. If you're struggling with any particular aspect of email marketing, this book will give you a fresh perspective on how you can tackle it too. Intrigued yet?
