P-40 Warhawk vs Ki-43 Oscar Carl Molesworth,2012-11-20 Known for the distinctive 'sharkmouth' decoration on their noses, P-40 fighters first saw combat in China during World War II. Their most common adversary was the Japanese Nakajima Ki-43, nicknamed 'Oscar.' Carl Molesworth describes and explains the design and development of these two foes, the products of two vastly different philosophies of fighter design. The P-40 was heavily armed and sturdy with armour protection and self-sealing fuel tanks, but paid for this with the loss of speed and a sluggish performance at altitude. The Ki-43 was a rapier to the battleaxe P-40 and the Ki-43 was immensely nimble, though with less firepower and durability. This book examines these two different fighters, and the pilots who flew them over China, with an action-packed text, rare photographs and digital artwork.

Human Rights in Europe Thomas Hammarberg,Council of Europe. Commissioner for Human Rights,2011-01-01 Political rhetoric on human rights in Europe is different from daily reality. Almost every politician is on record as favouring the protection of freedom and justice. Standards on human rights have been agreed at European and international level; many have been integrated into national law; but they are not consistently enforced. There is an implementation gap. it is this implementation gap that this book seeks to address. it is built on a compilation of separate viewpoints or articles which Thomas Hammarberg has written, and later updated, since beginning his mandate as Council of Europe Commissioner for Human Rights in April 2006. He has now visited almost all of the 47 member states of the Council of Europe. On each visit he has met victims of violations of human rights and their families, leading politicians, prosecutors, judges, ombudsmen, religious leaders, journalists and civil society representatives as well as inmates of prisons and other institutions, law enforcement personnel and others. The viewpoints written on the basis of these many visits summarise his reflections, conclusions and recommendations.

Parliamentary Assembly, Adopted Texts Conseil de l'Europe,,Council of Europe: Parliamentary Assembly,2010-01-01 The Parliamentary Assembly of the Council of Europe publishes a volume of adopted texts for each of its four part-sessions and Standing Committee meetings. The Assembly, or the Standing Committee on its behalf, can adopt three different types of texts: opinions, recommendations and resolutions. Opinions are mostly expressed by the Assembly on questions put to it by the Committee of Ministers, such as the admission of new member states to the Council of Europe, but also on draft conventions, or the budget. Recommendations contain proposals addressed to the Committee of Ministers, the implementation of which is within the competence of governments. Resolutions embody decisions by the Assembly on questions which it is empowered to put into effect or expressions of views for which it alone is responsible. They can also be addressed to national parliaments. References to committees: the Bureau of the Assembly decides whether communications, in particular from the Committee of Ministers and from the Secretary General, and motions for recommendations and resolutions should be referred to the appropriate committee for action, if any. Referrals are then ratified by the Parliamentary Assembly.
