*The Emotional Shopper* Leonard Lee, 2015-05-29 *The Emotional Shopper: Assessing the Effectiveness of Retail Therapy* examines the question to what extent retail therapy really works. The monograph reviews the extant literature on shopping behavior and emotions, and adopts a tripartite approach to provide a more systematic and holistic treatment of this subject. The author assesses whether retail therapy works according to three perspectives: (1) motivational, (2) behavioral, and (3) emotional. Shopping is seen as a hedonic experience that triggers a variety of emotions. The incidence (or lack) of these specific emotions when consumers shop is examined. *The Emotional Shopper: Assessing the Effectiveness of Retail Therapy* first reviews some conceptual foundations of the notion of retail therapy, including its definition and scope as well as the scales that researchers have developed to measure it. Next, it delves into the three aforementioned perspectives, assessing the effectiveness of retail therapy from each perspective by discussing and analyzing relevant work that has adopted the particular perspective. Finally, the author concludes with a general discussion of the main findings as well as some questions and directions for future research.

Still, violent death is inescapable—even here, in the apparent sanctuary of the Literary and Historical Society, where one obsessive academic's quest for answers will lead Gamache down a dark path. . . . Meanwhile, Gamache is receiving disturbing news from his hometown village. Beloved bistro owner Olivier was recently convicted of murder but everyone—including Gamache—believes that he is innocent. Who is behind this sinister plot? Now it's up to Gamache to solve this killer case. . . .and relive a terrible event from his own past before he can begin to bury his dead. "Few writers in any genre can match Penny's ability to combine heartbreak and hope."—Publishers Weekly (starred review)
