Personality Howard S. Friedman,Miriam W. Schustack,2003 [This] introductory textbook examines theories of personality, starting from the viewpoint that there are eight basic aspects to personality: psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and interactionist. Later chapters apply these aspects to individual differences such as those of gender and culture. Summaries after each chapter encapsulate key theorists and concepts discussed. - <http://www.bn.com>.

Cybertecture James Law,2012-03-26 A defining moment in James Law's architectural career occurred in 2000 when he was invited to design of both architecture and technology of the Dickson Cyber Express Shopping Mall - the world's first Bricks and Clicks retail complex in Hong Kong. This led to James coining the term Cybertecture, to symbolize a new kind of design which merges technology and architecture as a future design that brings people Live The Future. With growing reputation, James became an active advocate in the issues of future technology and design. As a dual design concept, Cybertecture is a broadspectrum design philosophy that can be applied to an infinite number of different types of projects and scenarios. The ultimate goal is to create a better world, where endeavours, processes and events take place in spaces that introduce people to a new level of comprehension and wisdom.

**Waite Long - the Story Teller** Grace E. Kliever,2005-07-05 The life of Waite Long is mostly

seen as a recluse person who is promoting fear for those around him. This kind of life is creating many emotions with questions and also disbelief. Lifestyle becomes fear, leaving no answers. At least it seemed. The response of others living in the same neighborhood brings gossip and fear. Nothing is related to time, and so the daily life becomes a life of questions with many challenges. Then the answers come! When we allow changes then we know love conquers all with many surprises. The time it takes in changing for the good is like conquering mountains! It's very exhilarating and stimulating. Waite's life was like an open investigation full of excitement - but mostly the feeling of being alone. There are a lot of crossroads in life and many storms for some people, both physically and mentally. Plus the many times of loneliness for each of us. We all need to learn. Not all of life is negative, although being able to rest in loneliness, feeling peaceful among strife or danger or loving in spite of hatred or misconception. Puzzles become roadmaps! Trails are to climb and also come down! Everything is there to conquer and to use patience. Challenge promotes growth. We have to remember it's only when the end comes that we can relax. Getting there requires adjustments - surprises - endurance - even when questions keep coming. We can conquer all, then the life becomes triumphant and happiness and the strength to go on - and on to even better things! We feel better inside in spite of the ways of others. Please look at things in life kindly, how it affects others and how it makes others react. That is my wish and purpose.
