The Industrial Laser Handbook David Belforte,Morris Levitt,2012-12-06 Manufacturing with lasers is becoming increasingly important in modern industry. This is a unique, most comprehensive handbook of laser applications to all modern branches of industry. It includes, along with the theoretical background, updates of the most recent research results, practical issues and even the most complete company and product directory and supplier's list of industrial laser and system manufacturers. Such important applications of lasers in manufacturing as welding, cutting, drilling, heat treating, surface treatment, marking, engraving, etc. are addressed in detail, from the practical point of view. A list of specific companies dealing with manufacturing aspects with lasers is given.

Culture-Meaning-Architecture Keith Diaz Moore,2019-07-17 This title was first pulished in 2000: This collection of essays provides an excellent integrated source for the latest thinking in multiple disciplines on the issue of culture and its relationship with built form and hence, human environmental experience. Whether one is primarily interested in how culture-built environment inquiry affects: theoretical issues, research approaches, research findings, practical applications, or has implications for teaching, this book provides an engaging dialogue in regard to each of these perspectives. As important, the book's introduction provides a conceptual framework for integrating the various contributions in a meaningful and systemic fashion. Contributors come from disciplines including anthropology, architecture, human ecology, psychology and urban planning.

Cybertecture James Law,2012-03-26 A defining moment in James Law's architectural career occurred in 2000 when he was invited to design of both architecture and technology of the Dickson Cyber Express Shopping Mall - the world's first Bricks and Clicks retail complex in Hong Kong. This led to James coining the term Cybertecture, to symbolize a new kind of design which merges technology and architecture as a future design that brings people Live The Future. With growing reputation, James became an active advocate in the issues of future technology and design. As a dual design concept, Cybertecture is a broadspectrum design philosophy that can be applied to an infinite number of different types of projects and scenarios. The ultimate goal is to create a better world, where endeavours, processes and events take place in spaces that introduce people to a new level of comprehension and wisdom.
