Vetting and Monitoring Employees Gillian Howard,2017-11-22 Most employers will at some time need to monitor, record and read e-mails sent and received by their staff, or check on their employees' use of the telephone and internet, or access business correspondence received at work but addressed to a member of staff. There may also be clear cases where covert surveillance either by video camera or private investigators is considered as a means to collect evidence of criminal activity on site. The law in this area is complex and, in some cases, contradictory. Gillian Howard aims to set out the law clearly and give practical guidance, both to employers as to their legal rights, and to employees as to what safeguards to their privacy the law gives them. She provides precedents and useful examples of policies and procedures for monitoring employees at work. Vetting staff before taking them into employment can be equally fraught with legal issues. The Data Protection Act 1998 requires employers to obtain explicit consent from an employee before seeking and using certain sensitive information. This book gives guidance in this difficult area of employment law with practical advice, precedents and policies, and details of legal interpretations of the law by the Courts and Employment Tribunals.

**Saving Time** Jenny Odell,2024-01-02 NEW YORK TIMES BESTSELLER • “The visionary author of *How to Do Nothing* returns to challenge the notion that ‘time is money.’ . . . Expect to feel changed by this radical way of seeing.”—Esquire “One of the most important books I’ve read in my life.” —Ed Yong, author of *An Immense World* A BEST BOOK OF THE YEAR: Harper’s Bazaar, Esquire, Chicago Public Library In her first book, *How to Do Nothing*, Jenny Odell wrote about the importance of disconnecting from the “attention economy” to spend time in quiet contemplation. But what if you don’t have time to spend? In order to answer this seemingly simple question, Odell took a deep dive into the fundamental structure of our society and found that the clock we live by was built for profit, not people. This is why our lives, even in leisure, have come to seem like a series of moments to be bought, sold, and processed ever more efficiently. Odell shows us how our painful relationship to time is inextricably connected not only to persisting social inequities but to the climate crisis, existential dread, and a lethal fatalism. This dazzling, subversive, and deeply hopeful book offers us different ways to experience time—inspired by pre-industrial cultures, ecological cues, and geological timescales—that can bring within reach a more humane, responsive way of living. As planet-bound animals, we live inside shortening and lengthening days alongside gardens growing, birds migrating, and cliffs eroding; the stretchy quality of waiting and desire; the way the present may suddenly feel marbled with childhood memory; the slow but sure procession of a pregnancy; the time it takes to heal from injuries. Odell urges us to become stewards of these different rhythms of life in which time is not reducible to standardized units and instead forms the very medium of possibility. *Saving Time* tugs at the seams of reality as we know it—the way we experience time itself—and rearranges it, imagining a world not centered on work, the office clock, or the profit motive. If we can “save” time by imagining a life, identity, and source of meaning outside these things, time might also save us.

*Using Oracle 11i* Jim Crum,BOSS Corporation,2002 Annotation The must-have reference for users and implementers of Oracle Release 11i. This book provides the critical information required to configure and operate the Release11i applications in one book. Several readers have told us they saved tens of thousands of dollars after reading the previous edition of this book. Special Edition Using Oracle 11i has about 40% new content over the previous version including a new projects chapter, a new order management chapter, screen shots, tips, and, Release11i specific material. This book is the most complete reference available for the latest release of the Oracle financial, manufacturing, HRMS, and projects applications. Part 1 introduces the Oracle ERP applications and Release11i concepts. Part 2 educates the reader on proven techniques for implementing these complex and integrated systems. Part 3 discusses configuration and usage of each of the financial, distribution, manufacturing, HRMS, and project applications. Part 4 discusses working with Oracle Support, consulting firms, and compatible software vendors. The appendixes review the employment market, consulting opportunities,

and provide the reader with an implementation checklist. All of Release11i's new features are covered in-depth and in practical terms. Not only will readers understand Oracle's new capabilities, they will be able to apply them right away. The authors are highly respected consultants from BOSS Corporation. They have worked with the Oracle Applications for over eight years since Release 9. Each chapter is written and edited by an expert consultant on that topic. The authors have published many white papers and newsletters about the Oracle Applications. BOSS Corporation is an active sponsor of the Oracle Applications User Group (OAUG). The authors have attended the last 14 national conferences, presented more than a dozen white papers at OAUG conferences, participated in the vendor exhibit hall, identified key words for white paper classification, and edited articles that are included in OAUG publications.
