Agile Readiness Thomas P. Wise, Reuben Daniel, 2016-03-16 Agile Readiness is designed to provide guidance to the manager or business leader in establishing a successful environment to enable fast moving agile and lean project methods focused on business systems transformation. Agile and lean offer huge potential as methods for reducing risk and costs, delivering early benefits and ensuring IT projects genuinely deliver the business transformation benefits that they promise at the outset. The conundrum for many organizations is that without a change of organizational culture, agile and lean methods are very unlikely to be adopted successfully in traditional organizations. Thus, the struggle that many (if not most) managers and executives face is not in how agile or lean development works, but in how to make agile and lean methods successful when working beyond software development. Thomas P. Wise and Reuben Daniel provide a clear view of the struggles and remedies. Their text uses simple ground floor experiences to illustrate the practices and behaviors necessary to create highly successful and effective agile and lean business systems transformation teams. In this book the reader will discover organizational strategies that build strong teams, an environment of trust, and project selection and planning strategies to create an environment of enablement in which agile and lean teams thrive.

Successful Management of Mergers & Acquisitions: Development of a Synergy Tracking Tool for the Post Merger Integration Vincent Schade, 2014-02-01 In Business Development, Mergers & Acquisitions (M&A) have become an increasingly attractive growth opportunity among companies over a long period of time. Nowadays, there is hardly a day where current developments of ongoing M&A transactions or speculations about presumed M&A deals cannot be followed in the daily press. It is proved that a huge number of M&A did not deliver on their promises. The majority of failed M&A are a result of mismanagement during the Post Merger Integration (PMI) when processes have to be adjusted, personnel need to be teamed up and corporate cultures have to be reconciled. This study deals predominantly with aspects of synergy management whereby the main focus is on synergy tracking as a support function of the synergy management. An emphasis is on the analysis of realization efforts that need to be done by the management during the PMI. To provide a solution and ease the aforementioned issues of synergy realization, a synergy tracking tool, which serves as an effective support instrument during the PMI is developed.

Family Child Care Record-Keeping Guide, Ninth Edition Tom

Copeland, 2014-10-06 For home-based family child care (daycare) providers, taking care of the children is only half of the job. The other half is taking care of the business—tracking expenses, being profitable, filing taxes, and meeting government requirements. This resource covers everything family child care providers need to keep accurate business records. If a family child care provider pays close attention to the recommendations in this book, he or she will be able to claim the maximum allowable deductions and pay the lowest possible federal taxes. Since the previous edition of Family Child Care Record-Keeping Guide, Congress and the IRS have made many changes to tax rules that affect family child care providers. There have been changes in depreciation rules, adjustments to food and mileage rates, and clarifications on how to calculate the Time-Space percentage. Author Tom Copeland has been involved in many IRS audits and represented providers in several Tax Court cases that have also clarified numerous rules. Further necessitating this ninth edition, the IRS issued two significant new rules in 2013. These updates, new rules, and clarifications are detailed in this book; all of the information is applicable to child care providers in every state, regardless of local regulations. Tom Copeland, is a writer, trainer, lawyer, and consultant focusing on family child care business issues. He has conducted record-keeping, tax preparation, and business workshops for family child care providers across the country since 1981.
