Here was a virginal world, rich and ripe, free and unspoiled. A perfect world--or so it seemed in those first dizzying moments of discovery. . . How could they know what lay ahead? Vagabond, bon vivant, debt-dodger, and writer of history books nobody buys, Orion Treet is astounded to be invited to accompany a top-secret mission. Sprawling mega-corporation Cynetics offers him 8 million dollars and the chance of a lifetime: observe and document an extra-terrestrial colony on a newly discovered planet: Empyrion. Rethinc T T Ram Mohan,2016-07-27 Corporations are crucial to society's well-being. Yet, not many have chosen to adapt themselves to the expectations of employees and the society at large. Prof. Ram Mohan identifies the three main problems that ail companies and illustrates the ways in which these can be combated. Most companies are still run from the top and make very little attempt to involve employees at the lower levels in decision-making. Executive compensation has spiralled steeply in recent years because the process of determining it is seriously flawed. Boards of directors are ineffective and have abetted the cult of the charismatic CEO who is expected to work wonders. Rethinc contends that the solution lies in the near-total dismantling of hierarchy or the creation of a 'bossless' organization. In such an organization, the structure is flat, employees operate through self-driven teams, there is peer review, power rests on one's contribution and not one's title and the organizational purpose goes beyond the making of profit, and several other features. Once all this is done we will have an achieving organization that is also a humane organization—in which the employees are raring to get to work every day.
