Outcome-Based Marketing John D. Leavy, 2011-04-29 Market. Succeed. Repeat. Can you measure the progress of your online campaigns in finite numbers? What percentage of your website traffic is converted into sales? What is your cost-per-conversion rate? If you don't already know the answers to these questions, don't worry—you will. Internet strategist John D. Leavy challenges you to take a new approach to your online marketing—shifting from doing more, to doing more of what works. Using Leavy's outcome-based strategies, learn how to create dynamic marketing campaigns integrating metrics and milestones for continuous success. Leavy invites you to uncover the absolutes behind building massive online awareness, attracting your target audience, and capturing online sales. "John Leavy's masterful Outcome-Based Marketing is the most complete and accurate guide I've ever read about succeeding on the Internet without making silly and common errors. I simply cannot imagine finding the pot of gold offered online without John's superb information serving as your compass and guide." —Jay Conrad Levinson, The Father of Guerrilla Marketing, Author, Guerrilla Marketing series "By the time you get down to chapters 20-ish through 25 or so, you'll have to cancel your cable subscription. Leavy has you doing a ton of stuff that is going to blow your business up, whether you're still working for The Man, or whether you're going to do this for yourself." —Chris Brogan, President of Human Business Works and co-author of New York Times bestseller Trust Agents "Outcome-Based Marketing is the breakthrough book on how to sell more, faster and easier, on the internet, against any competition." —Brian Tracy, Author, The Psychology Of Selling "It's not often you read a book that is focused on results. Too often, marketing, communication, and everything in between is seen as an expense. But John Leavy's tools help you take your efforts from the expense line on your P&L to the investment line on your balance sheet. It's a must-read for anyone using the web to grow their business." —Gini Dietrich, Chief Executive Officer of Arment Dietrich, Inc., and author, Spin Sucks John D. Leavy is the founder of InPlainSite Marketing, www.inplainsitemarketing.com, a leading internet presence management firm, where he specializes in developing strategies related to strategic marketing, pay-per-click advertising, social media, web design, and search engine optimization. Permission Marketing of Informediaries in M-Commerce Advertising Ali-Reza Moshtaghi, 2002-03-12 Inhaltsangabe: Abstract: The expectations for M-Commerce are very high. The mobile user seeks for facilitation of his daily habits and companies anticipate generating high revenue stream through new mobile applications. After telecommunication companies have paid high prices for the UMTS licenses in Europe M-Commerce has started to be the new hype. In those countries which did not have auctions but beauty contests M-Commerce has been also shifted into the spotlight. Although M-Commerce is still in its infancy, it predicts to have a huge impact on many ways of people's lives. New buzz words like anywhere and anytime have evolved in order to describe the great potential of M-Commerce. Growth opportunities in terms of new arising mobile business models seem promising but only the future will be able to answer the question of success. Mobile devices offer a broad range of opportunities from entertainment service e.g. music, games or video up to transactions e.g. banking, shopping, auctions. It is still unclear if all the emerging opportunities can be commercialized successfully. Nevertheless, many scenarios of how the world could be like in the future have been made. Below an excerpt of the daily routine of a future mobile user is presented: Nancy D'Amato prepares to leave her office just before five o'clock. She uses her mobile phone for a quick check of the local weather forecast, sees that fine conditions are expected for the

evening, and decides to leave her umbrella by her desk. Nancy is due to meet her boyfriend Peter at seven o'clock, so she has two hours in town to waste. As soon as the clock reaches five, she receives a text message telling her that the bar across the street has a happy hour when drinks are cheaper. Nancy deletes the message almost without reading it. She has given her mobile service provider permission to send her unsolicited local promotional messages after five - otherwise she would have to pay a higher subscription rates - but that does not mean she actually has to read the message, does it? Five minutes later another message arrives, with a coupon offering a discount at the local branch of her favorite coffee bar. She shows the coffee-shop attendant the numbered message on her phone's screen, and he keys in the number on the till when charging for the coffee. Now comfortably seated with her cappuccino, Nancy begins to plan her evening. She uses her mobile to check which movies are showing nearby after seven [...]

Mobile Messaging Technologies and Services Gwenaél Le Bodic, 2005-07-08 Building on the success of the first edition, Mobile Messaging Technologies and Services offers extensive new and revised material based upon the latest research and industry developments. While early implementations targeted person-to-person messaging, MMS has now evolved to facilitate such requirements as the mass delivery of time-sensitive messages for content-to-person messaging. This Second Edition exploits the technical maturity of MMS as it is poised to generate a wealth of new business opportunities across the mobile communications sector. The author provides the fundamental technical background required for SMS, EMS and MMS, and supports this with industry cutting-edge developments. ● Contains a revised section on the fundamentals of MMS, including an updated section on GPRS to explain current commercial implementations such as GRX applications. ● Presents the latest developments in MMS standardization, including the design of synchronized multimedia integration language (SMIL) presentations, Digital Rights Management (DRM), transcoding techniques, postcard service and support of advanced multimedia formats. ● Describes the processes for standardizing telecommunications services and technologies (3GPP, OMA, GSM Association, IETF and W3C). ● Provides updated sections on SMS, EMS and heavily revised coverage of the developments in MMS, including MMS interworking and the forthcoming MMS version 1.3. This resource will be invaluable for application developers, manufacturers, operators and content providers involved in the design and deployment of messaging services. It will also be of interest to practitioners involved in the process of standardizing telecommunications services and technologies. Postgraduate students and researchers will benefit from having access to state-of-the-art findings backed by numerous illustrative real-world examples. Includes a companion website featuring information on relevant standards, available phones and developers' resources.
