Simon P. Keefe

Mozart in Vienna Simon P. Keefe,2017-09-21 Mozart's greatest works were written in Vienna in the decade before his death (1781–1791). This biography focuses on Mozart's dual roles as a performer and composer and reveals how his compositional processes are affected by performance-related concerns. It traces consistencies and changes in Mozart's professional persona and his *modus operandi* and sheds light on other prominent musicians, audience expectations, publishing, and concert and dramatic practices and traditions. Giving particular prominence to primary sources, Simon P. Keefe offers new biographical and critical perspectives on the man and his music, highlighting his extraordinary ability to engage with the competing demands of singers and instrumentalists, publishing and public performance, and concerts and dramatic productions in the course of a hectic, diverse and financially uncertain freelance career. This comprehensive and accessible volume is essential for Mozart lovers and scholars alike, exploring his Viennese masterpieces and the people and environments that shaped them.

The Hidden Lamp Zenshin Florence Caplow,Reigetsu Susan Moon,2013-10-21 The Hidden Lamp is a collection of one hundred koans and stories of Buddhist women from the time of the Buddha to the present day. This revolutionary book brings together many teaching stories that were hidden for centuries, unknown until this volume. These stories are extraordinary expressions of freedom and fearlessness, relevant for men and women of any time or place. In these pages we meet nuns, laywomen practicing with their families, famous teachers honored by emperors, and old women selling tea on the side of the road. Each story is accompanied by a reflection by a contemporary woman teacher--personal responses that help bring the old stories alive for readers today--and concluded by a final meditation for the reader, a question from the editors meant to spark further rumination and inquiry. These are the voices of the women ancestors of every contemporary Buddhist.

**Bhutan** International Monetary Fund. Asia and Pacific Dept,2018-10-30 This 2018 Article IV Consultation highlights that Bhutan continued to make strides in raising per capita incomes and reducing poverty as it concluded the 11th Five Year Plan in 2018. Notably, poverty declined from 12 percent in 2012 to 8.2 percent, and extreme poverty fell to just 1.5 percent. The country is poised to transition to middle-income status, with per capita incomes at nearly US\$3,600 in 2018, up from US\$1,100 in 2004. Growth has remained robust, averaging 6 percent over the 11th Plan. In FY2018, growth is expected to slow to 5.8 percent from 7.4 percent in FY2017, reflecting slowing construction activity of hydropower projects set to come on stream in 2018 and beyond.

*The 22nd Golden Age of Science Fiction MEGAPACK ®: Robert Moore Williams* Robert Moore Williams,2015-08-26 Robert Moore Williams (1907–1977) was an American writer, primarily of science fiction. He wrote not only under his own name, but as John S. Browning, H. H. Hermon, Russell Storm and E. K. Jarvis (a house name shared with other writers). Rereading his work in preparation for assembling this volume, we were impressed by how well much of his fiction holds up today. His writing style is smooth and crisp, and he avoids scientific lectures, preferring to let the plots speak for himself. Included in this volume are: PLANET OF THE GODS THE NEXT TIME WE DIE SINISTER PARADISE THOMPSON'S CAT PUBLICITY STUNT MARTIAN ADVENTURE BRIDGE OF LIFE BE IT EVER THUS THE LOST WARSHIP THE ACCIDENTAL MURDERS If you enjoy this ebook, don't forget to search your favorite ebook store for Wildside Press Megapack to see more of the 250+ volumes in this series, covering adventure, historical fiction, mysteries, westerns, ghost stories, science fiction -- and much, much more!

*Linguistic Relativities* John Leavitt,2010-12-23 There are more than six thousand human languages, each one unique. For the last five hundred years, people have argued about how important language differences are. This book traces that history and shows how language differences have generally been treated either as of no importance or as all-important, depending on broader approaches taken to human life and knowledge. It was only in the twentieth century, in the work of Franz Boas and his students, that an attempt was made to engage seriously with the reality of language specificities. Since the 1950s, this work has been largely presented as yet another claim that language differences are all-important by cognitive scientists and philosophers who believe that such differences are of no importance. This book seeks to correct this misrepresentation and point to the new directions taken by the Boasians, directions now being recovered in the most recent work in psychology and linguistics.

*Context Blindness* Eva Berger,2022-03-30 This book shows that since we have delegated the ability to read context to contextual technologies (social media, location, and sensors), we have become context blind. **The Accidental Countess** Valerie Bowman,2014-10-28 Returning home from the war and to an unwanted arranged marriage, Captain Julian Swift finds himself falling for Lady Cassandra Monroe, his fiancée's cousin who, unbeknownst to him, has been in love with him for years. Original.

Adventures of Pi Tyrone Williams,2011 Poetry. African American Studies. These poems are at once a road trip of a new type and a tour of the little-known icons of our urban landscape, where brand-name objects and what might be called 'literary' symbols get all mixed together in these verses that consider

space, love and lovers, small rooms, and even smaller cars. In ADVENTURES OF PI, Williams holds a mirror up to our own world, where everyday life moves along 'like traffic / accidents observed from helicopters // that fail to finger the finger / that / popped / up / just before the pile-up.'
