ULTRA Powerful Pest and Disease Control Solution Make all-Natural

Pesticide. Farm at \$100 per acre a year. Everything you need to know to: Go completely organic Boost quality and yield Save huge, huge, HUGE costs Make all-natural fertilizer, pesticide, and microorganism inputs yourself. JADAM's ultimate objective is to bring farming back to farmers. Through JADAM's method, farming can become ultra-low-cost, completely organic, and farmers can once again become the masters of farming. Farmers will possess the knowledge, method, and technology of farming. When organic farming becomes easy, effective, and inexpensive, it can finally become a practical alternative. Farmers, consumers, and Mother Nature will all rejoice in this splendid new world we wish to open. You will learn many useful new methods including increasing microbial diversity and population, boosting soil minerals, tackling soil compaction, reducing salt levels, raising soil fertility, and more. This book also shows you how to make natural pesticides that can replace chemical ones. He started organic farming and raised animals himself from 1991 in Asan, Chungnam province. He went on to establish Jadam Organic Farming and started to promote this farming system through books and website ([www.jadam.kr](http://www.jadam.kr)). He established Jadam Natural Pesticide Institute in 2002 from where he continued his research while integrating knowledge from many experienced farmers which led to the completion of the system of ultra-low-cost Jadam organic farming. He invented and developed many technologies for a natural pesticide which he voluntarily did not patent but rather shared through books and website. His Natural Pesticide Workshops teaches the essence of ultra-low-cost JADAM organic farming. Lectures, too, are disclosed on JADAM website([en.jadam.kr](http://en.jadam.kr)).
