The United Nations Convention on the Rights of Persons with Disabilities Valentina Della Fina,Rachele Cera,Giuseppe Palmisano,2017-01-20 This Commentary provides the first comprehensive legal article-by-article analysis of the provisions of the Convention on the Rights of Persons with Disabilities (CRPD). The Convention is the key international human rights instrument exclusively devoted to persons with disabilities and the centerpiece of international efforts to address inequalities and barriers they encounter to the full enjoyment of human rights. The book discusses the Convention's position within existing international human rights law and within the framework of the United Nations measures to protect the rights of people with disabilities. Starting with the background of all the Convention's articles, including the travaux préparatoires, this Commentary examines each provision's substance and interpretation, and explores the significance of each right, its legal scope and relationship with other international legal norms and principles. A unique contribution also analyzes the Optional Protocol to the Convention. In addition to enriching academic studies of international human rights law, the book provides insights into the practical operation of the Convention's provisions by assessing the practice of the CRPD Committee, the activities of relevant international and regional human rights bodies in enforcing the rights of persons with disabilities and the contracting parties' implementation practices. Relevant European Court of Human Rights, the Court of Justice of the European Union and, if appropriate, other regional jurisdictions' case law, as well as the jurisprudence of domestic courts, are taken into consideration. Contributions from leading scholars and international experts make this book an indispensable resource for lawyers, academics, students, journalists, international organizations, NGOs and other stakeholders wanting to better understand the rights of people with disabilities. Furthermore, it makes a valuable contribution to appraising the impact of the Convention in the legal orders of contracting parties and to charting the way forward in the protection of the rights of persons with disabilities.

Reflections on the UN Declaration on the Rights of Indigenous Peoples Stephen Allen,Alexandra Xanthaki,2011-01-12 The adoption of the Declaration on the Rights of Indigenous Peoples by the United Nations General Assembly on 13 September 2007 was acclaimed as a major success for the United Nations system given the extent to which it consolidates and develops the international corpus of indigenous rights. This is the first in-depth academic analysis of this far-reaching instrument. Indigenous representatives have argued that the rights contained in the Declaration, and the processes by which it was formulated, obligate affected States to accept the validity of its provisions and its interpretation of contested concepts (such as 'culture', 'land', 'ownership' and 'self-determination'). This edited collection contains essays written by the main protagonists in the development of the Declaration; indigenous representatives; and field-leading academics. It offers a comprehensive institutional, thematic and regional analysis of the Declaration. In particular, it explores the Declaration's normative resonance for international law and considers the ways in which this international instrument could catalyse institutional action and influence the development of national laws and policies on indigenous issues.

A Modern History of the Kurds David McDowall,2021-03-25 David McDowall's ground-breaking history of the Kurds from the 19th century to the present day documents the

underlying dynamics of the Kurdish question. The division of the Kurdish people among the modern nation states of Iraq, Turkey, Syria and Iran and their struggle for national rights continues to influence the politics of the Middle East. Drawing extensively on primary sources - including documents from The National Archive and interviews with prominent Kurds - the book examines the interplay of old and new aspects of the struggle, the importance of local rivalries and leadership within Kurdish society, and the failure of modern states to respond to the challenge of Kurdish nationalism. In this new and revised edition, McDowall also analyses the momentous transformations affecting Kurdish socio-politics in the last 20 years. With updates throughout and substantial new material included, this fourth edition of the book reflects the developments in the field and the areas which have gained importance and understanding. This includes new analysis of the Kurdish experience in Syria; the role of political Islam in Kurdish society and Kurds' involvement in Islamist Jihad; and issues surrounding women and gender that were previously overlooked, from the impact of the women's equality movement to how patriarchal practices within the Kurdish community still limit its progress. The foundation text for Kurdish Studies, this book highlights in detail the changing situation of the Kurds across the Middle East.

Environmental Rights Stephen J. Turner, Dinah L. Shelton, Jona Razzaque, Owen McIntyre, James R. May, 2019-05-23 Environmental rights, also known as the human rights or constitutional rights that are used for the protection of the environment, have proliferated over the last forty-five years. However, the precise levels of protection that they represent has since been a major question associated with this phenomenon. *Environmental Rights: The Development of Standards* systematically investigates this question by analyzing the emerging standards of environmental protection that are associated with such rights and the way that those associations are becoming formalized. It covers all of the relevant human rights treaties to illustrate how environmental rights standards are emerging in this dynamic area. Bringing together an elite group of scholars, this book discusses significant new insights into the way that environmental rights are developing, the standards of protection that they confer, and the way that standards in the field of environmental rights can potentially be further developed in the future.

Monitoring State Compliance with the UN Convention on the Rights of the Child Ziba Vaghri, Jean Zermatten, Gerison Lansdown, Roberta Ruggiero, 2022-01-03 This open access book presents a discussion on human rights-based attributes for each article pertinent to the substantive rights of children, as defined in the United Nations Convention on the Rights of the Child (UNCRC). It provides the reader with a unique and clear overview of the scope and core content of the articles, together with an analysis of the latest jurisprudence of the UN Committee on the Rights of the Child. For each article of the UNCRC, the authors explore the nature and scope of corresponding State obligations, and identify the main features that need to be taken into consideration when assessing a State's progressive implementation of the UNCRC. This analysis considers which aspects of a given right are most important to track, in order to monitor States' implementation of any given right, and whether there is any resultant change in the lives of children. This approach transforms the narrative of legal international standards concerning a given right into a set of characteristics that ensure no aspect of said right is overlooked. The book develops a clear and comprehensive understanding of the UNCRC that can be used as an introduction to the rights and principles it contains, and to identify directions for future policy and strategy development in compliance with the UNCRC. As such, it offers an invaluable reference guide for researchers and students in the field of childhood and children's rights studies, as well as a wide range of professionals and organisations concerned with the subject.

The Irish Yearbook of International Law, Volumes 4-5, 2009-10 Fiona de Londras, Siobhán Mullally, 2012-05-28 The Irish Yearbook of International Law is intended to stimulate further research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law. On an annual basis, the Yearbook presents peer-reviewed academic articles and book reviews on general issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international fora and the European Union, and the practice of joint North-South implementation bodies in Ireland. In addition, the Yearbook reproduces documents that reflect Irish practice on contemporary issues of international law. Publication of the Irish Yearbook of International Law makes Irish practice and *opinio juris* more readily available to Governments, academics and international bodies when determining the content of international law. In providing a forum for the documentation and

analysis of North-South relations the Yearbook also make an important contribution to post-conflict and transitional justice studies internationally. As a matter of editorial policy, the Yearbook seeks to promote a multilateral approach to international affairs, reflecting and reinforcing Ireland's long-standing commitment to multilateralism as a core element of foreign policy.

Protecting the right to freedom of expression under the European Convention on Human Rights Bychawska-Siniarska, Dominika,2017-08-04 European Convention on Human Rights – Article 10 – Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.
