Employment Relations under Coalition Government
Steve Williams, Peter Scott, 2016-06-10 Drawing on a wide range of up-to-date research, *Employment Relations under Coalition Government* critically examines developments in UK employment relations during the period of Conservative-

Liberal Democrat government between 2010 and 2015, against the background of the 2007-08 financial crisis, subsequent economic recession and in the context of the primacy accorded to neo-liberal austerity. Contributions cover a series of important and relevant topics in a rigorous, yet accessible manner: labour market change and the rise of zero-hours contracts and other forms of precarious employment; policy development relating to young people's employment; the coalition's welfare-to-work agenda; its programme of employment law reform and its approach to workplace equality and health and safety; labour migration; the experience of the trade unions under the coalition and their responses; and developments in employment relations in the public services. This book addresses the broader issues relating to the coalition period, such as the implications of political and regulatory change for employment relations, including the greater devolution of powers to Scotland and Wales, and locates UK developments in comparative perspective. The book concludes with an assessment of the prospects for employment relations in the aftermath of the May 2015 Conservatives election victory.

Disabling Mission, Enabling Witness Benjamin T. Conner, 2018-07-03 In recent decades churches have accommodated people with disabilities in various ways. Through access ramps and elevators and sign language, disabled persons are invited in to worship. But are they actually enfolded into the church's mission? Have the able-bodied come to recognize and appreciate the potential contributions of people with disabilities in the ministry and witness of the church? Benjamin Conner wants to stimulate a new conversation between disability studies and Christian theology and missiology. How can we shape a new vision of the entire body of Christ sharing in the witness of the church? How would it look if we disabled Christian theology, discipleship, and theological education? Conner argues that it would in fact enable congregational witness. He has seen it happen and he shows us how. Imagine a church that fully incorporates persons with disabilities into its mission and witness. In this vision, people with disabilities contribute to the church's pluriform witness, and the congregation embodies a robust hermeneutic of the gospel. Picture the entire body of Christ functioning beyond distinctions of dis/ability, promoting mutual flourishing and growing into fullness. Here is an enlargement of the church's witness as a sign, agent, and foretaste of the kingdom of God. Here is a fresh and inspiring look at the mission of the church when

it enfold people with disabilities as full members. Missiological Engagements charts interdisciplinary and innovative trajectories in the history, theology, and practice of Christian mission, featuring contributions by leading thinkers from both the Euro-American West and the majority world whose missiological scholarship bridges church, academy, and society.

Enabling Acts Lennard J. Davis, 2015-07-14 The first significant book on the history and impact of the ADA—the “eyes on the prize” moment for disability rights The Americans with Disabilities Act (ADA) is the widest-ranging and most comprehensive piece of civil rights legislation ever passed in the United States, and it has become the model for disability-based laws around the world. Yet the surprising story behind how the bill came to be is little known. In this riveting account, acclaimed disability scholar Lennard J. Davis delivers the first behind-the-scenes and on-the-ground narrative of how a band of leftist Berkeley hippies managed to make an alliance with upper-crust, conservative Republicans to bring about a truly bipartisan bill. Based on extensive interviews with all the major

players involved including legislators and activists, Davis recreates the dramatic tension of a story that is anything but a dry account of bills and speeches. Rather, it's filled with one indefatigable character after another, culminating in explosive moments when the hidden army of the disability community stages scenes like the iconic "Capitol Crawl" or an event some describe as "deaf Selma," when students stormed Gallaudet University demanding a "Deaf President Now!" From inside the offices of newly formed disability groups to secret breakfast meetings surreptitiously held outside the White House grounds, here we meet countless unsung characters, including political heavyweights and disability advocates on the front lines. "You want to fight?" an angered Ted Kennedy would shout in an upstairs room at the Capitol while negotiating the final details of the ADA. Congressman Tony Coelho, whose parents once thought him to be possessed by the devil because of his epilepsy, later became the bill's primary sponsor. There's Justin Dart, adorned in disability power buttons and his signature cowboy hat, who took to the road canvassing fifty states, and people like Patrisha Wright, also known as "The General," Arlene Myerson or "the brains," "architect" Bob Funk, and visionary Mary Lou Breslin, who left the hippie highlands of the West to pursue equal rights in the marble halls of DC. Published for the twenty-fifth anniversary of the ADA, *Enabling Acts* promises to ignite readers in a discussion of disability rights by documenting this "eyes on the prize" moment for tens of millions of American citizens.
