The First Man in Rome Colleen McCullough,2020-04-07 With extraordinary narrative power, New York Times bestselling author Colleen McCullough sweeps the reader into a whirlpool of pageantry and passion, bringing to vivid life the most glorious epoch in human history. When the world cowered before the legions of Rome, two extraordinary men dreamed of personal glory: the military genius and wealthy rural upstart Marius, and Sulla, penniless and debauched but of aristocratic birth. Men of exceptional vision, courage, cunning, and ruthless ambition, separately they faced the insurmountable opposition of powerful, vindictive foes. Yet allied they could answer the treachery of rivals, lovers, enemy generals, and senatorial vipers with intricate and merciless machinations of their own—to achieve in the end a bloody and splendid foretold destiny . . . and win the most coveted honor the Republic could bestow.

The Lepidoptera of Europe Ole Karsholt,Józef Razowski,2023-11-13 The first list to cover the entire European fauna of butterflies and moths since the famous Staudinger-Rebel Catalogue which was published as long ago as in 1901. A large number of European specialists have been working on the family/subfamily treatments, and the list has been checked by leading experts in the national faunas. The higher classification used in the checklist is in accordance with the most recent research as presented in the treatment of Lepidoptera in the series Handbook of Zoology. Hopefully the list will lead to uniformity in the systematics and nomenclature used in European lepidopterology. Besides being a checklist, The Lepidoptera of Europe also indicates in table form, in which of the European countries each species has been recorded. The occurrence is indicated for the following countries/regions: Albania, Austria, Belgium, Bulgaria, Corsica, Czech Republic, Denmark, Estonia, Finland, France, Germany, Great Britain, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, the Netherlands, Norway, Poland, Portugal, Romania, Sardinia, Sicily, the European part of the former Soviet Union (apart from Estonia, Latvia and Lithuania), Spain, Sweden, Switzerland, the European part of Turkey, and the former Yugoslavia. As the checklist has been under preparation since the mid 1980's, some of the recent changes of the European borders could not be taken into account. The Lepidoptera of Europe contains more than 8,300 species known to occur in Europe and the distributional tables have approximately 74,000 records. The Lepidoptera of Europe will be an indispensable tool for anyone working with the European fauna of any group of Lepidoptera. The book is published in a limited edition of only 800 copies.
