Rivals Geoff Harvey, Vanessa Strowger, 2004-06 Rivals is both the ultimate directory of football derbies and a collection of the stats that 'really matter' for the English League Clubs. Forget the dry and oft-quoted football facts, 'Rivals' arms the reader with a completely new set of fan-based stats. Find out which club has the highest 'nutter rating' (arrests per 1,000 attendance), or the worst 'Your ground's too big for you' ranking! Which club offers their supporters the worst 'Fans' value-for-money' (admission price as a ratio of 5 year league position!) There are many intriguing, often funny, stories behind the web of little publicised, though frequently intense, rivalries between clubs and fans. With many contributions from supporters, the book examines the extraordinary cult of British Football Derbies, looking at the inter-town and regional biases, stereotypes, and opinions that fans have about their footballing rivals. At 240pp, Rivals is a light-hearted collection of statistics, fans' testimony and boundless trivia. It has a clear format pulling together diverse facts. Attractively designed with information given under headings allowing the reader to compare various facts on a club-to-club basis, the text can be read from cover to cover or dipped into.

A Current Survey of Injuries Sustained by Professional UK Championship Rugby League Players Patrick Daniel Dissmann,2015-09-18 Master's Thesis from the year 2010 in the subject Medicine - Surgery, Sports Medicine, grade: 2.0, University of Bath (School of Health), language: English, abstract: Research into the incidence of injury in rugby league is very limited with a wide variation in injury rates for the same game even over comparable time periods. This may be explained by differences in the methodology of these studies and the fact that virtually all UK rugby league injury surveillance studies have been conducted pre-2000, whereas studies from the southern hemisphere mostly tend to date from post-2000. During the 2009 season, data was collected on all injuries incurred during competitive games and rugby training sessions, for a first team squad of a British Championship rugby league club. Data analysis was limited to injury incidence rates and relative sub-category frequencies for injury causation and acuity, contact versus

non-contact, nature, location and severity with transient versus time-loss as well as the influence that rugby session type and main playing position may have on these. This study was the first to trial rugby league injury data collection according to recently published IRB standards and revealed higher than usual overall and overuse training injury rates, a larger proportion of time-loss and contact injuries as well as different relative distribution of injury severities when compared to the existing literature. This may represent new injury trends in rugby league, which need to be further examined. Therefore a multi-team, multi-season rugby league injury surveillance study should be performed, ideally at Super League and Championship level.

End of the Terraces Anthony King,2002-04-30 This book analyzes the transformation of English football in the 1990s. In so doing, it provides a comprehensive account of football culture in contemporary Britain that not only contributes to the study of the sport but also sheds wider light on recent transformations in British society.Although the author draws on past writings on football, the scope and analytic focus of the book are original. Starting with a theoretical and historical framework, Anthony King goes on to examine the organic political and economic developments of the last

thirty years which put the big city clubs in a position to effect a division from the rest of the league. By the mid-1980s football faced both economic and crowd control crises which began to affect the consumption of the game. The End of the Terraces looks at those who implemented the changes, the new business class, and those who have been most affected—the fans.

Love of the Game Ricky Hill,2021-03-15 Ricky Hill grew up beneath the shadow of Wembley Stadium, where he sold programmes at England games as a boy. When he was seven, he was told by a teacher that only two in every hundred boys could possibly make it as a professional footballer. Ricky told her he would be one of the two. Ten years later, this gifted midfielder scored on his debut for Luton Town. Ricky stayed with Luton for 14 years, made 508 appearances and became a club legend. Emerging at a time when racism was rife, he was only the fourth black player to represent England. Later, as a coach, he had to fight to smash down barriers holding back black managers, and devised an equivalent of the NFL's 'Rooney Rule' to help BAME applicants secure senior coaching jobs in English football. While Ricky has won trophies and awards overseas, he has been overlooked in this country. In Love of the Game, he tells the shocking story behind his short spell in charge of Luton, and reveals just how much the football decision-makers in England have ignored him and other black coaches.

Women's Football in the UK Jayne Caudwell,2013-10-18 This book examines the complex ways in which girls and women experience football cultures in Britain. It extends current debate surrounding women and football (namely, how gender has functioned to shape women's experiences of playing the game), by focusing on organisational, administrative and coaching practices, alongside the particular issues surrounding sexuality, ethnicity and disability (not only gender). The book analyses football and gender to reveal the subtle forms of discrimination that persist. It is important to highlight the many challenges and transformations made by girls and women but more importantly to consider the ways power continues to operate to devalue and undermine girls and women involved in the game. The UK-based authors make use of their recent research findings to offer critical debate on girls' and women's current experiences of British football cultures. Overall the book reveals the present day complexities of marginalisation and exclusion. This book was published as a special issue of Sport and Society.

The Game of Our Lives David Goldblatt,2014 History of British sport.

Sir Walter Winterbottom - The Father of Modern English Football Graham Morse,2013-03-04 Sir Walter Winterbottom was arguably the most influential man in modern English football. He is known as the first England team manager, but more than that he was an innovator of modern coaching, sports administrator and a man ahead of his time; a man who had a profound effect on English football and who laid the foundations for England's success in 1966. Walter managed them all, from Lawton to Charlton, and inspired many to become coaches: Ron Greenwood, Bill Nicholson, Jimmy Hill and Bobby Robson were amongst his disciples and took his gospel to the clubs they managed. Born in 1913, Winterbottom started out as a teacher and physical education instructor, playing amateur football in his spare time. He was soon signed up by Manchester United, playing his first game 1936 and winning promotion to the First Division in 1938. A spinal ailment curtailed his career, but during World War II he served as an officer in the Royal Air Force before the FA appointed him as national director of coaching and England team manager in 1946. He remains the only manager to have taken the national side to more than two World Cup finals and was created an OBE in 1963 and a CBE in 1972 before being knighted in 1978. Walter died in 2002 but his legacy continues to inspire many in football today, especially with the opening of the new St George's Park football academy. With interviews and insight from top football names, this book - written by Winterbottom's son-in-law - also draws on personal diaries,

photographs and letters. However, this is more than just a biography of one man - it's the story of how modern football came about.

The Beautiful Game? David Conn, 2004 Football has never been richer, more hyped, more central to Britain's culture than today. Yet never has it been in greater turmoil. Once, football was about passion, community, beauty. The game celebrated and honoured its past, striving to uphold the values that had made it great. Today, football is about money. Its richest club, Manchester United, earned -146 million last year; yet since 1992 34 of the Football League's 72 clubs have been insolvent. The game is in danger of losing its lifeblood - and its soul. David Conn, the game's premier investigative journalist, sets out on a journey through the heart of English football, exploring how our national sport has failed - and who is to blame. Travelling from Highbury's art deco stands to provincial non-league outposts, Conn interviews players, managers, agents, chairmen and fans, building up a picture of a game mired in crisis, from the casino that is today's Premiership all the way down to the lowest leagues. For every all-conquering Manchester United or 'Chelski', there are ten clubs in desperate straits, ready to implode. Many of these stories have never been told before; many of them are shocking. Along the way, there are new revelations on the Hillsborough tragedy of 1989, where 96 people died because of failures which football has never fully addressed; on the decline and fall of Sheffield Wednesday; and on the formation of the Premier League itself, born from an influx of TV money, bitterly divisive and bitterly regretted. Yet, at its heart, football is a game deeply loved by millions. This is a book for those who keep the faith, who believe that the sport itself, stripped of the greed and self-interest blighting its organisation, still has values, and can still be beautiful.
