Last But Not Least Leslie Vermeer,2023-12-18 Systematic, practical, complete — an essential resource for anyone who works with words Proofreaders are like goalkeepers: the last line of defence against mistakes that slip past their hard-working teammates. While proofreading is obviously not the only important job in the writing process, it is a necessary one — last, but definitely not least. The best proofreaders know that efficient and precise proofreading requires more than grammatical and mechanical expertise. It requires focus, sensitivity, self-awareness, almost saintly patience, and — importantly — a thorough understanding of the core responsibilities and processes of the proofreader. To be a great proofreader, you need to learn to think like one. Last But Not Least takes you beyond the basics of punctuation and grammar and into the nuts and bolts of how proofreaders think and work. This combination reference and workbook is a go-to guide for novice proofreaders and seasoned professionals alike. Includes grammar and punctuation primers, as well as 25 exercises to sharpen your skills.

Supporting Research Writing Valerie Matarese, 2012-11-06 *Supporting Research Writing* explores the range of services designed to facilitate academic writing and publication in English by non-native English-speaking (NNES) authors. It analyses the realities of offering services such as education, translation, editing and writing, and then considers the challenges and benefits that result when these boundaries are consciously blurred. It thus provides an opportunity for readers to reflect on their professional roles and the services that will best serve their clients' needs. A recurring theme is, therefore, the interaction between language professional and client-author. The book offers insights into the opportunities and challenges presented by considering ourselves first and foremost as writing support professionals, differing in our primary approach (through teaching, translating, editing, writing, or a combination of those) but with a common goal. This view has major consequences for the training of professionals who support English-language publication by NNES academics and scientists. *Supporting Research Writing* will therefore be a stimulus to professional development for those who support English-language publication in real-life contexts and an important resource for those entering the profession. Takes a holistic approach to writing support and reveals how it is best conceived as a spectrum of overlapping and interrelated professional activities Stresses the importance of understanding the real-world needs of authors in their quest to publish Provides insights into the approaches used by experienced practitioners across Europe
