El norte entre algodones Luis Aboites Aguilar,2013-10-30 Esta obra propone que a partir de 1930 el algodón hizo una gran contribución al poblamiento del norte mexicano, favoreció la formación de mercados de trabajo y de tierras, propició la movilidad social, impulsó la urbanización y dio lugar a un optimismo desbordado entre las oligarquías norteadas. También da cuenta de que el episodio algodonero, mayoritariamente norteado, obedeció sobre todo a la conexión con el mercado mundial.

Adhesion between polymers and concrete / Adhésion entre polymères et béton H. R. Sasse,Laboratoire central des ponts et chaussées,RILEM Tech. Comm. 52-Resin Adherence to Concrete,2013-11-27 Preface Adhesion is a phenomenon architects and civil engineers are not very familiar with. In other disciplines knowledge about surface properties and the background of bonding energies is also far from satisfactory; nevertheless there are many important applications in concrete engineering, where adhesion is necessary for success and durability. These include: - coating and painting - repair of concrete surfaces - bonding of fresh to old concrete - crack injection - glueing of precast elements - glueing of steel to concrete, etc. In 1981 RILEM established the technical committee 52-RAC 'Resin Adherence to Concrete'. The main aims of the committee's work were - to collect research results and practical experiences - to initiate and coordinate research programs - to develop, on a scientific base, test methods for field and for laboratory purposes. One of the results of the committee's work is a state-of-the-art report, which will be presented orally as a General Report at the International Symposium ISAP '86, and will be printed either in the RILEM journal Materials and Structures or separately. Several test recommendations have been elaborated and will be prepared as drafts for the participants of ISAP '86. These are: - direct tensile test - pull-off test - direct shear test - slant shear test - four-point bending test - dynamic loading test - thermal compatibility test (two versions) - injectibility test.

Les solidarités entre générations ,2013-03-06 L'ampleur des enjeux humains, économiques et sociaux posés par la question des solidarités entre générations a conduit l'International society of Family Law (ISFL) à choisir ce thème pour son XVe congrès mondial. Plus de 200 intervenants, venus de 50 pays, ont abordé ces questions sous l'angle juridique, mais aussi philosophique, économique et anthropologique. Cet ouvrage présente une partie de ces communications organisées autour de deux grands thèmes : l'enfant au cœur des solidarités familiales et la prise en charge des aînés par la famille. Des phénomènes tels que l'allongement de la durée de la vie, l'urbanisation des populations, la difficulté d'entrée sur le marché du travail ou encore l'éclatement des modèles familiaux traditionnels marquent notre monde contemporain et impliquent la disparition d'anciennes solidarités et l'apparition de nouvelles solidarités redessinant les relations entre générations, posant alors le problème du sort des personnes les plus fragiles : les enfants, les malades, les handicapés et, surtout, les personnes âgées. – Quel est alors le rôle de la famille et des collectivités dans la protection de ces personnes ? – Quels rapports entre solidarités publiques et solidarités privées ? – Quels sont les droits et libertés reconnus aux personnes que l'âge, la maladie ou le handicap, placent en situation de dépendances ? Telles sont les questions au cœur de cet ouvrage. The importance of the human, economic and social issues caused by the question of generations' solidarities led the International Society of Family Law to choose this theme for its XVIth World Congress (Lyon, July 19-23rd 2011). More than 200 speakers from 50 countries studied these questions from the legal angle, but also philosophic, economic and anthropological. This work collects a part of these papers about two great issues: the child, as the center of family solidarities; and the support for elders by family. Phenomena such as increasing life expectancy, population urbanization, labor-market entry barriers, decline of traditional family patterns, mark in depth our contemporary world and involve old solidarity disappearance and new solidarity emergence, reshaping relations between generations while bringing up the problem of the fate of the most vulnerable: children, the sick, disabled, and especially elderly people. – What then is the role of families and communities in protecting these people? – What is the relationship between public and private solidarity? – What are the rights and freedoms of people placed by age, illness or disability in a dependence situation? These are the issues addressed by the authors of this book.
