Objects: USA 2020 Glenn Adamson,2020-10-27 **Objects: USA 2020** hails a new generation of artist-craftspeople by revisiting a groundbreaking event that redefined American art. In 1969, an exhibition opened at the Smithsonian Institution that redefined American art. **Objects: USA** united a cohort of artists inventing new approaches to art-making by way of craft media. Subsequently touring to twenty-two museums across the country, where it was viewed by over half a million Americans, and then to eleven cities in Europe, the exhibition canonized such artists as Anni Albers, Sheila Hicks, Wharton Esherick, Wendell Castle, and George Nakashima, and introduced others who would go on to achieve widespread art-world acclaim, including Dale Chihuly, Michele Oka Doner, J. B. Blunk, and Ron Nagle. **Objects: USA 2020** revisits this revolutionary exhibition and its accompanying catalog--which has become a bible of sorts to curators, gallerists, dealers, craftspeople, and artists--by pairing fifty participants from the original exhibition with fifty contemporary artists representing the next generation of practitioners to use--and upend--the traditional methods and materials of craft to create new forms of art. Published to coincide with an exhibition of the same title at the renowned gallery R & Company, and featuring essays by some of the foremost authorities on craft at the intersection of art, including Glenn Adamson, curator and former director of the Museum of Arts & Design; James Zemaitis, curator and former head of twentieth-century design at Sotheby's; and Lena Vigna, curator of exhibitions at the Racine Art Museum; an interview with Paul J. Smith, the cocurator of **Objects: USA**; archival photographs of the original exhibition and important historical works; and lush full-color images of contemporary works, **Objects: USA 2020** is an essential art historical reference that traces how craft was elevated to the status of museum-quality art, and sets its trajectory forward.

SuperDesign Maria Cristina Didero, 2017-10-31 SuperDesign charts the Italian Radicals' bold experimentation in modern design from its birth through its continued influence on design today. Radical Design was launched by art, architecture, and design students in Italy in the mid-1960s. What started as a youthful rally against the establishment and a rejection of design norms became a movement that brought together some of the most dynamic and avant-garde thinkers and makers across the country. Through enigmatic, confrontational, and clever furniture and objects—such as the iconic lip-shaped Bocca sofa, or the Cactus coat-rack in green foam—as well as more public innovations including discotheque interiors and subversive performances, the Radicals projected design's new era as equal parts Pop Art, play, Surrealism, and futurism. Told through exclusive interviews, unreleased photographs, original drawings and artwork unearthed from personal archives, and newly commissioned photography of rarely seen works, SuperDesign explores this fervent period of design that played out against the era's social and political turmoil. Featured designers include Archizoom Associati, Lapo Binazzi (UFO), Pietro Derossi (Gruppo Strum), Piero Gilardi, Ugo La Pietra, Gaetano Pesce, Gianni Pettena, Studio65, and Superstudio. The culmination of a decade of collecting and researching original examples of some of the most important and iconic works of the period, SuperDesign offers a unique new introduction to the legacy of the Italian Radicals.

Me Elton John, 2019-10-15 In his first and only official autobiography, music icon Elton John reveals the truth about his extraordinary life. Me is the joyously funny, honest and moving story of the most enduringly successful singer/songwriter of all time. The Sunday Times bestseller with a new chapter bringing the story up to date. 'The rock memoir of the decade' – Daily Mail 'The rock star's gloriously entertaining and candid memoir is a gift to the reader' – Sunday Times _____ Christened Reginald Dwight was a shy boy with Buddy Holly glasses who grew up in the London suburb of Pinner and dreamed of becoming a pop star. By the age of twenty-three, he was performing his first gig in America, facing an astonished audience in his bright yellow dungarees, a star-spangled T-shirt and boots with wings. Elton John had arrived and the music world would never be the same again. His life has been full of drama, from the early rejection of his work with songwriting partner Bernie Taupin to spinning out of control as a chart-topping superstar; from half-heartedly trying to drown himself in his LA swimming pool to disco-dancing with the Queen; from friendships with John Lennon, Freddie Mercury and George Michael to setting up his AIDS Foundation. All the while, Elton was hiding a drug addiction that would grip him for over a decade. In Me Elton also writes powerfully about getting clean and changing his life, about finding love with David Furnish and becoming a father. In a voice that is warm, humble and open, this is Elton on his music and his relationships, his passions and his mistakes. This is a story that will stay with you, by a living legend. _____ 'Self-deprecating, funny . . . You cannot help but enjoy his company throughout, temper tantrums and all' – The Times 'Racy, pacy and crammed with scurrilous anecdotes - what more could you ask from the rocket man' – Guardian (Book of the Week) 'Chatty, gossipy, amusing and at times brutally candid' – Telegraph

Period Power Nadya Okamoto, 2018-10-16 PERIOD founder and Harvard College student Nadya Okamoto offers a manifesto on menstruation and why we can no longer silence those who bleed—and how to engage in youth activism. Throughout history, periods have been hidden from the public.

They're taboo. They're embarrassing. They're gross. And due to a crumbling or nonexistent national sex ed program, they are misunderstood. Because of these stigmas, a status quo has been established to exclude people who menstruate from the seat at the decision-making table, creating discriminations like the tampon tax, medicines that favor male biology, and more. Period Power aims to explain what menstruation is, shed light on the stigmas and resulting biases, and create a strategy to end the silence and prompt conversation about periods.

Legal Emblems and the Art of Law Peter Goodrich,2014 The emblem book was invented by the humanist lawyer Andrea Alciato in 1531. The preponderance of juridical and normative themes, of images of rule and infraction, of obedience and error in the emblem books is critical to their purpose and interest. This book outlines the history of the emblem tradition as a juridical genre, along with the concept of, and training in, obiter dicta, in things seen along the way to judgment. It argues that these books depict norms and abuses in classically derived forms that become the visual standards of governance. Despite the plethora of vivid figures and virtual symbols that define and transmit law, contemporary lawyers are not trained in the critical apprehension of the visible. This book is the first to reconstruct the history of the emblem tradition, evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed, made present and viewed.
