I Hope You Get This Message Farah Naz Rishi,2019-10-22

In this high concept YA novel debut that's *We All Looked Up* meets *The Sun Is Also a Star*, three teens must face down the mistakes of their past after they learn that life on Earth might end in less than a week. News stations across the country are reporting mysterious messages that Earth has been receiving from a planet—Alma—claiming to be its creator. If they're being interpreted correctly, in seven days Alma will hit the kill switch on their "colony" Earth. True or not, for teenagers Jesse Hewitt, Cate Collins, and Adeem Khan, the prospect of this ticking time bomb will change their lives forever. Jesse, who has been dealt one bad blow after another, wonders if it even matters what happens to the world. Cate, on the other hand, is desperate to use this time to find the father she never met. And Adeem, who hasn't spoken to his estranged sister in years, must find out if he has it in him to forgive her for leaving. With only a week to face their truths and right their wrongs, Jesse, Cate, and Adeem's paths collide as their worlds are pulled apart.

Roosevelt's Secret War Joseph E. Persico,2001-11-06 Despite all that has already been written on Franklin Delano Roosevelt, Joseph Persico has uncovered a hitherto overlooked dimension of FDR's wartime leadership: his involvement in intelligence and espionage operations. *Roosevelt's Secret War* is crowded with remarkable revelations: -FDR wanted to bomb Tokyo before Pearl Harbor -A defector from Hitler's inner circle reported directly to the Oval Office -Roosevelt knew before any other world leader of Hitler's plan to invade Russia -Roosevelt and Churchill concealed a disaster costing hundreds of British soldiers' lives in order to protect Ultra, the British codebreaking secret -An unwitting Japanese diplomat provided the President with a direct pipeline into Hitler's councils *Roosevelt's Secret War* also describes how much FDR had been told--before the Holocaust--about the coming fate of Europe's Jews. And Persico also provides a definitive answer

to the perennial question Did FDR know in advance about the attack on Pearl Harbor? By temperament and character, no American president was better suited for secret warfare than FDR. He manipulated, compartmentalized, dissembled, and misled, demonstrating a spymaster's talent for intrigue. He once remarked, I never let my right hand know what my left hand does. Not only did Roosevelt create America's first central intelligence agency, the OSS, under Wild Bill Donovan, but he ran spy rings directly from the Oval Office, enlisting well-placed socialite friends. FDR was also spied against. Roosevelt's Secret War presents evidence that the Soviet Union had a source inside the Roosevelt White House; that British agents fed FDR total fabrications to draw the United States into war; and that Roosevelt, by yielding to Churchill's demand that British scientists be allowed to work on the Manhattan Project, enabled the secrets of the bomb to be stolen. And these are only a few of the scores of revelations in this constantly surprising story of Roosevelt's hidden role in World War II.

The Vincentians: A General History of the Congregation of the Mission John E. Rybolt, The French Revolution nearly destroyed the Vincentians in France, and those in most other countries were isolated, persecuted in every degree from niggling regulations to imprisonment and martyrdom, and sometimes squeezed into oblivion. To these external miseries were added painful internal schisms: the Italians, abetted by other countries and the Holy See, pushed to center the Congregation in Rome; interdicts against communication with foreign superiors forced provinces in many countries to act autonomously; national pressures to swear loyalty and conform to compromising regulations created splits within the community and threatened to divide the Daughters and separate them from their brothers. Reduced membership and funding crippled the Vincentians' efforts as they emerged from the worst

of the state obstructions. Nevertheless, they began rebuilding and even made struggling beginnings in overseas missions, notably the United States, Brazil, the Ottoman Empire, the Middle East, and China, where the martyrdom of two missionaries galvanized interest in this distant and challenging mission.

Secret Confession-Vol.2-in the Eastern Orthodox Church

Alexander Ivanovich Almazov, "Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice.

<https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-d-jambov-talmach.html> In Russian ecclesiastical practical literature there are no studies deliberately devoted to the question of the history of secret confession. True, in recent times we have received separate publications that are closely and even directly in contact with this subject; but all of them are due not to a deliberate undertaking, but to the call of incidental circumstances. Meanwhile, in the sphere of the history of church institutions in general, the history of secret confession, in any case, is a question full of deep interest. We think that the publication of the work now proposed is sufficiently justified by both. It is not our intention to present a comprehensive history of confession; bypassing its internal, dogmatic side, we deal only with the external side, i.e., we offer a historical review of the charter of confession and church-civil resolutions related to confession. Thus, the present work is actually a ritual-canonical study. The connection here of two points of view on the subject is motivated both by a complete presentation of the external side of the confession, and by the peculiarity of the sources for studying its history. Speaking of the latter, we understand the well-known fact that the canonical and liturgical monuments for the history of confession in the Orthodox Eastern Church from time immemorial and until very recently have always been in an inseparable, genetic connection. Setting our task as a review of the actual external historical fate of confession, we then deal with this subject mainly - on the basis of handwritten sources. This is equally applicable to both the ritual and the

canonical element in our study. In accordance with such a predominant nature of the sources of the proposed work, the latter embraces in the history of confession the period proper from the tenth to the sixteenth century. - Nevertheless, bearing in mind that a clear idea of the subject of our study in the period from the X century. is possible only if it is presented for the previous time, and that in some particular questions relating to the external historical fate of confession, there must certainly be data delivered from the ancient period of the Church - we found it necessary to touch somewhat on the history of confession - and in the period before 10th century In view of this, to all our research we preface, in the sense of introductory, a brief outline of the external historical fate of confession before the 10th century; Similarly, in particular questions regarding confession discussed in the proposed work, we consider it necessary to communicate with information on them that remained from the time before the 10th century. On the other hand, bearing in mind the indisputable fact that handwritten sources in the practice of confession throughout the Orthodox East did not lose their significance even with the release of printed official church-practical publications on the subject of confession and did not lose until the very latest time - we found it necessary to present in our study the information supplied by the publications just mentioned - from the original ones to the modern ones. - In accordance with both, - this edition offers an experience of the history of secret confession, from the side outlined by us, for the entire time of its existence, and only the main preference is given to information delivered in this case by handwritten monuments. Exploring the ritual side of the subject, we took the latter in the widest possible volume. In accordance with this, in addition to the history of the charter of making confession proper, we found it obligatory for ourselves to present historical sketches and all those charters and ritual elements that are either only in close connection with confession, or owe its origin. In parallel with this, and in a canonical sense, we

have set ourselves the task of investigating, as far as possible, the full cycle of questions related to this. Reviewing the subject of research within such limits prompted us to touch upon an abundance of private questions that are in contact with confession. All this led us to the publication of the work, which, in view of its volume, we are compelled to divide into two books, while publishing separate appendices to one and the other of them. - The first of these books is devoted to reviewing the general statute of confession; the second one introduces special statutes and individual elements of prayer related to confession, as well as ecclesiastical and civil regulations regarding the object and subject of confession. The handwritten documents that served as sources for our work, with the exception of three or four, are neither in our country nor in Western literature: they have not yet been published 1 . In view of this, we had to get acquainted with them in Greek and Slavic-Russian originals. Taking into account the large number of such documents, and in particular their remarkable diversity, we were forced, in order to properly elucidate the subject we have touched upon, to get acquainted with the manuscripts as widely as possible. The latter was achieved to some extent by us, since we had the opportunity to study the handwritten codices related to our subject in the most important Russian libraries, in three Western European and three in Eastern Europe. - - - In the present book, as is made clear in the preliminary remarks to Volume I, reviews are offered, on the one hand, of special statutes and separate prayer elements, and on the other, of ecclesiastical and civil decrees related to confession. In the first respect, we report here information about the charters of confession in exceptional cases, about special charters that only come into contact with confession, and, finally, about individual prayers, which were often included in the content of general confessional charters, but in general were placed separately in manuscript monuments, when designating them as prayers associated with confession. - In the second respect, our study

introduces in this book the ecclesiastical-civil decrees, directed only to the object of confession, taken in relation to the latter in all positions that may be here.

Communicating Science in Times of Crisis H. Dan O'Hair,Mary John O'Hair,2021-04-29 Learn more about how people communicate during crises with this insightful collection of resources In *Communicating Science in Times of Crisis: COVID-19 Pandemic*, distinguished academics and editors H. Dan O'Hair and Mary John O'Hair have delivered an insightful collection of resources designed to shed light on the implications of attempting to communicate science to the public in times of crisis. Using the recent and ongoing coronavirus outbreak as a case study, the authors explain how to balance scientific findings with social and cultural issues, the ability of media to facilitate science and mitigate the impact of adverse events, and the ethical repercussions of communication during unpredictable, ongoing events. The first volume in a set of two, *Communicating Science in Times of Crisis: COVID-19 Pandemic* isolates a particular issue or concern in each chapter and exposes the difficult choices and processes facing communicators in times of crisis or upheaval. The book connects scientific issues with public policy and creates a coherent fabric across several communication studies and disciplines. The subjects addressed include: A detailed background discussion of historical medical crises and how they were handled by the scientific and political communities of the time Cognitive and emotional responses to communications during a crisis Social media communication during a crisis, and the use of social media by authority figures during crises Communications about health care-related subjects Data strategies undertaken by people in authority during the coronavirus crisis Perfect for communication

scholars and researchers who focus on media and communication, *Communicating Science in Times of Crisis: COVID-19 Pandemic* also has a place on the bookshelves of those who specialize in particular aspects of the contexts raised in each of the chapters: social media communication, public policy, and health care.

BizTalk Unleashed Susie Adams, 2002 Annotation BizTalk is an integral part of the Microsoft .NET. The administrator and developer both will find this book a comprehensive source to help them understand, and problem solve wherever they are exploring BizTalk. Two high profile BizTalk spokespersons--John Matranga and Microsoft's BizTalk trainer Susie Adams. Explanations of what every portion of BizTalk is, what it does and how it fits together. Includes multiple examples then moves to debugging and troubleshooting. The authors spend significant time on tackling the gotchas (the things that can inevitably go wrong with any complex new, cutting-edge technology). Real-world scenarios, code examples and simulations for every major topic area. BizTalk Unleashed explains systems, terms and interactions, give code examples and business scenarios and regular de-bugging tips and troubleshooting schema for each chapter and section. Part One: Structure of the book--a pyramid book organization beginning at the base. Part Two: Purposes, goals and major components of BizTalk--the fundamental BizTalk markup technologies are covered: XML, Soap and the BizTalk Framework. Part Three: BizTalk Administration--installation, hardware requirements, scalability, security, team management issues, Backup. Part Four: Modeling Business Documents--Using the BizTalk Editor and the BizTalk Mapper. Part Five: BizTalk Messaging--the engine and understanding how BizTalk Messaging routes messages; using the

BizTalk Messaging Manager; document tracking and activity monitoring; performance analysis. Part Six: BizTalk Process Orchestration--Using the BizTalk Designer; XLANG orchestration engine; interaction of BizTalk messaging and orchestration. Part Seven: Extending BizTalk Server 2000--application interaction components; types and when to use them; custom serializers, parsers and functors; the administration object model. Part Eight: Integrating the BizTalk Server and Commerce Server. Part Nine: Appendices. John Matranga Chief Technology Officer, Omicron, has been with Omicron for 11 years. Omicron is a vendor for Microsoft and has been very involved in the creation of the BizTalk Orchestration as XML experts. He is a frequent conference speaker on XML, Web Services and Microsoft .NET. Susie Adams, Senior Technology Specialist, Microsoft Corporation, has been with Microsoft and the BizTalk product for two years (since the BizTalk alpha). She has taught on the BizTalk product at Microsoft Tech Ed 2000, Dev Days, Microsoft technology briefings and leads ongoing internal BizTalk trainings for other MS consultants.

British Spies and Irish Rebels Paul McMahon, 2008 One of the Irish Times' Books of the Year, 2008 Rebellion, partition and a messy peace settlement ensured that Ireland was a constant thorn in Britain's side after 1916. Britain was confronted by the bombs and bullets of militant republicans, the clandestine intrigues of foreign powers and the strategic dangers of Ireland's wartime neutrality - a final, irrevocable step in the country's difficult transition to independence. Using newly-opened archives, this book reveals for the first time how the British intelligence system responded to these threats. It lifts the lid on the underground activities of Britain's secret agencies - MI5, MI6/SIS and the Special Branch. It puts secret intelligence in the context of the government's other sources of information and explores how deep-rooted cultural stereotypes distorted intelligence and shaped perceptions. And it shows how, for decades, British intelligence struggled to cope with Ireland but then rose to the challenge after

1940, largely because the Dublin government began to share its secrets. The author casts light on characters long kept in the shadows - IRA gunrunners, Bolshevik agitators, Nazi agents, Irish loyalists who acted as British spies. His compelling book fills a gap in the history of the British intelligence community and helps explain the twists and turns of Anglo-Irish relations during a time of momentous change. PAUL MCMAHON gained his PhD from Cambridge University.

The Collapse of the German War Economy, 1944-1945 Alfred C. Mierzejewski, 2017-10-10 In this book Alfred Mierzejewski describes how the German economy collapsed under Allied bombing in the last year of World War II. He presents a broad-based, original study of German wartime industry and transportation, and of Allied air force planning and intelligence, including the first complete analysis in English of the German National Railway. The German industrial economy was extraordinarily dependent on the timely, adequate distribution of coal by railroad and inland waterway. The German National Railway in particular was the pivot of the finely balanced armaments production and distribution system created by Albert Speer. But Allied strategists did not immediately recognize this. Only in late 1944, when Deputy Supreme Allied Commander Sir Arthur Tedder built a new strategic consensus, was this vital coal/transport nexus severed. The result was the rapid paralysis of the Nazi war economy. Mierzejewski measures the economic consequences of the bombing by considering broad indices such as armaments and coal production, railway performance, and weapons deliveries to the armed forces. In addition, he shows how individual companies in each of Germany's major economic regions fared. By drawing on previously unexamined files of private German manufacturing companies, the Reich Transportation Ministry, and Allied air intelligence agencies, Mierzejewski creates a rare combination of economic analysis and military history that provides new perspectives on the German war

economy and Allied air intelligence.

America's Secret War against Bolshevism David S.

Foglesong,2014-02-01 From the Russian revolutions of 1917 to the end of the Civil War in 1920, Woodrow Wilson's administration sought to oppose the Bolsheviks in a variety of covert ways.

Drawing on previously unavailable American and Russian archival material, David Foglesong chronicles both sides of this secret war and reveals a new dimension to the first years of the U.S.-Soviet rivalry. Foglesong explores the evolution of Wilson's ambivalent attitudes toward socialism and revolution before 1917 and analyzes the social and cultural origins of American anti-Bolshevism. Constrained by his espousal of the principle of self-determination, by idealistic public sentiment, and by congressional restrictions, Wilson had to rely on secretive methods to affect the course of the Russian Civil War. The administration provided covert financial and military aid to anti-Bolshevik forces, established clandestine spy networks, concealed the purposes of limited military expeditions to northern Russia and Siberia, and delivered ostensibly humanitarian assistance to soldiers fighting to overthrow the Soviet government. In turn, the Soviets developed and secretly funded a propaganda campaign in the United States designed to mobilize public opposition to anti-Bolshevik activity, promote American-Soviet economic ties, and win diplomatic recognition from Washington.
