Marjorie Mack Dixon

Thunder Island Larry Johns,1980 “Do it now!” said Khan, his voice little more than a whisper. Nash connected the battery terminals. The green light glowed dully. He threw a switch and the light turned to red. Mouthing a silent prayer he pushed the button. The red light went out. No smoke or flames were visible but the sound of the distant explosions rumbled over the land scape like the approach of doom. Nash slid his right hand under his jacket and grasped his gun. Khan was talking excitedly, oblivious to what must happen next. Greed, intrigue and triple-cross; the component parts of disaster. Gilby Nash, demolition expert extraordinary, reaches for a glittering prize on a sun-soaked island where the bullet and the knife are never far away. Greed, intrigue and triple-cross, the component parts of disaster, follow him like a spectre.

But someone doesn’t want the lovers to reconnect. When murder rocks the island and Jennifer becomes the prime suspect, Kyle must clear her name before violence claims another victim. Rescue from Thunder Island Peter Jones,2020-02-07 This is a fast-moving action-packed mystery thriller set on the Island of Fort Nelson situated to the west of Penang island in Malaysia. The British government had sent a survey team to this island to see if they can discover any deposits of Matrix 7, a mineral discovered by Dr Peters of Cambridge University, an outstanding materials scientist. This additive when alloyed with steel, will produce a new lighter, stronger material that will dramatically reduce the cost of steel production and will sell at a much lower price. The economic benefits of this are huge for the first country that can find Matrix 7.However, the survey team goes missing without any warning and the Prime Minister immediately sends a rescue team to locate and bring the missing team home but the rescue team also goes missing. He is highly concerned that Britain would lose out heavily if they cannot mine Matrix 7 which would improve the British economy drastically. He is also very concerned about the safety of the two teams that are lost. Both of these issues have to be addressed immediately.He decides to appoint a very highly decorated ex-special forces soldier, Commander Alex Edwards, with an outstanding record to go to Fort Nelson at almost any cost to find Matrix 7 and the two lost British teams. He will have complete command over Operation Rainbow. A Combined Army, Navy and Airforce task force to find the missing teams and Matrix 7. However, this island holds some secrets that nobody is aware of that have to be dealt with which delays the Operation.Edwards is desperate to explore the dense jungle where he believes the two British teams are imprisoned and eventually manages to lead a combined ops team to explore likely targets with the help of friendly Indian guides. They find a mysterious radar anomaly and head for it as fast as they can before unidentified enemy forces can get there. What is so important that the enemy is racing to get there before the British at any cost? Edwards soon discovers the appalling truth.'
