Human Factors in Computing and Informatics Andreas Holzinger,Martina Ziefle,Martin Hitz,Matjaz Debevc,2013-06-26 This book constitutes the refereed proceedings of the First International Conference on Human Factors in Computing and Informatics, SouthCHI 2013, held in Maribor, Slovenia, in July 2013. SouthCHI is the successor of the USAB Conference series and promotes all aspects of human-computer interaction. The 38 revised full papers presented together with 12 short papers, 4 posters and 3 doctoral thesis papers were carefully reviewed and selected from 169 submissions. The papers are organized in the following topical sections: measurement and usability evaluation; usability evaluation - medical environments; accessibility methodologies; game-based methodologies; Web-based systems and attribution research; virtual environments; design culture for ageing well: designing for situated elderliness; input devices; adaptive systems and intelligent agents; and assessing the state of HCI research and practice in South-Eastern Europe.

100 Activities for Teaching Research Methods Catherine Dawson,2016-08-08 A sourcebook of exercises, games, scenarios and role plays, this practical, user-friendly guide provides a complete and valuable resource for research methods tutors, teachers and lecturers. Developed to complement and enhance existing course materials, the 100 ready-to-use activities encourage innovative and engaging classroom practice in seven areas: finding and using sources of information planning a research project conducting research using and analyzing data disseminating results acting ethically developing deeper research skills. Each of the activities is divided into a section on tutor notes and student handouts. Tutor notes contain clear guidance about the purpose, level and type of activity, along with a range of discussion notes that signpost key issues and research insights. Important terms, related activities and further reading suggestions are also included. Not only does the A4 format make the student handouts easy to photocopy, they are also available to download and print directly from the book's companion website for easy distribution in class.

PACS and Imaging Informatics H. K. Huang,2010-01-12 The definitive guide to PACS – now with more clinically applicable material In recent years, the field of picture archiving and communications systems–PACS–and image informatics has advanced due to both conceptual and technological advancements. This edition of PACS and Imaging Informatics: Basic Principles and Applications addresses the latest in this exciting field. In contrast to the previous edition, this updated text uses the framework of image informatics, not physics or engineering principles, to explain PACS. It is the only resource that thoroughly covers the critical issues of hardware/software design and implementation in a systematic and easily comprehensible manner. To strengthen and update the book, the author: Emphasizes clinical applications of PACS and integrates clinical examples throughout the text Reflects the many changes in the field, with new chapters on Web-based PACS, security, integrating the healthcare enterprise, clinical management systems, and the electronic patient record Uses the framework of imaging informatics to explain PACS, making the book accessible to those without advanced knowledge of physics, engineering, math, or information technology Explains how PACS can improve workflow, therapy, and treatment With the most systematic and thorough coverage of practical applications available, this text is the complete guide for all those involved in designing, implementing, and using PACS. Professionals in medical and allied health imaging informatics; radiologists and their technical staff; surgeons and oncologists and their teams; medical and electronic engineers; medical informaticians; and fellows, graduate students, and advanced undergraduates will all benefit from this valuable resource. An excellent book for people involved in the design, implementation, or simply the operations of PACS and an appropriate textbook. –From a review of the previous edition in IEEE Engineering in Medicine and Biology The strength of the book lies in the vast experience of the author, who has implemented PACS at numerous institutions in the United States and abroad. –From a review of the previous edition in Radiology

Our Occulted History Jim Marrs,2013-02-12 Bestselling author Jim Marrs steps once again to the cutting-edge of research into conspiracies and hidden truths. In Our Occulted History, Marrs goes beyond the revelations of his classic Alien Agenda and illustrates how human civilization may have originated with non-humans who visited earth eons ago...and may still be here today Our Occulted History: Do the Global Elite Conceal Ancient Aliens? is an extensive survey that includes a mass of well-documented scientific and historical texts and sources. It will change the way you view the origins of mankind and the current state of society. No subject is too controversial for Marrs, an award-winning journalist whose other investigative works include Crossfire: The Plot That Killed Kennedy, the basis for the Oliver Stone film JFK; Rule by Secrecy; and The Trillion-Dollar Conspiracy.

The Routledge International Companion to Multicultural Education James A. Banks,2009-09-10 This volume is the first authoritative reference work to provide a truly comprehensive international description and analysis of multicultural education around the world. It is organized around key concepts and uses case studies from various nations in different parts of the world to exemplify and illustrate the concepts. Case studies are from many nations, including the United States, the United Kingdom, Canada, Australia, France, Germany, Spain, Norway, Bulgaria, Russia, South Africa, Japan, China, India, New Zealand, Malaysia, Singapore, Indonesia, Brazil, and Mexico. Two chapters focus on regions – Latin America and the French-speaking nations in Africa. The book is divided into ten sections, covering theory and research pertaining to curriculum reform, immigration and citizenship, language, religion, and the education of ethnic and cultural minority groups among other topics. With fortynewly commissioned pieces written by a prestigious group of internationally renowned scholars, *The Routledge International Companion to Multicultural Education* provides the definitive statement on the state of multicultural education and on its possibilities for the future.

The Hidden Origins of Islam Karl-Heinz Ohlig,Gerd-R. Puin,2010 Based on the premise that reliable history can only be written on the basis of sources that are contemporary with the events described, the contributors to this in-depth investigation present research that reveals the obscure origins of Islam in a completely new light.

Linux in a Nutshell Ellen Siever,Aaron Weber,Stephen Figgins,Robert Love,Arnold Robbins,2005 Over the last few years, Linux has grown both as an operating system and a tool for personal and business use. Simultaneously becoming more user friendly and more powerful as a back-end system, Linux has achieved new plateaus: the newer filesystems have solidified, new commands and tools have appeared and become standard, and the desktop--including new desktop environments--have proved to be viable, stable, and readily accessible to even those who don't consider themselves computer gurus. Whether you're using Linux for personal software projects, for a small office or home office (often termed the SOHO environment), to provide services to a small group of colleagues, or to administer a site responsible for millions of email and web connections each day, you need quick access to information on a wide range of tools. This book covers all aspects of administering and making effective use of Linux systems. Among its topics are booting, package management, and revision control. But foremost in *Linux in a Nutshell* are the utilities and commands that make Linux one of the most powerful and flexible systems available. Now in its fifth edition, *Linux in a Nutshell* brings users up-to-date with the current state of Linux. Considered by many to be the most complete and authoritative command reference for Linux available, the book covers all substantial user, programming, administration, and networking commands for the most common Linux distributions. Comprehensive but concise, the fifth edition has been updated to cover new features of major Linux distributions. Configuration information for the rapidly growing commercial network services and community update services is one of the subjects covered for the first time. But that's just the beginning. The book covers editors, shells, and LILO and GRUB boot options. There's also coverage of Apache, Samba, Postfix, sendmail, CVS, Subversion, Emacs, vi, sed, gawk, and much more. Everything that system administrators, developers, and power users need to know about Linux is referenced here, and they will turn to this book again and again.

Invertebrates Richard C. Brusca,Wendy Moore,Gonzalo Giribet,2022-05 For each of the thirty-two currently recognized phyla, *Invertebrates* presents detailed classifications, revised taxonomic synopses, updated information on general biology and anatomy, and current phylogenetic hypotheses, organized with boxes and tables, and illustrated with abundant line drawings and new color photos. The chapters are organized around the new animal phylogeny, while introductory chapters provide basic background information on the general biology of invertebrates. Two new coauthors have been added to the writing team, and twenty-two additional invertebrate zoologists have contributed to chapter revisions. This benchmark volume on our modern views of invertebrate biology should be in every zoologist's library--

Scars, Marks & Tattoos Jacqueline Caruso,2021-03-31 I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to catch my breath and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.
