Wolf Leslau

Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's Traite de langue amharique (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language.The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Fallen Idols, Risen Saints Beate Fricke,2015 This book investigates the origins and transformations of medieval image culture and its reflections in theology, hagiography, historiography and art. It deals with a remarkable phenomenon: the fact that, after a period of 500 years of absence, the tenth century sees a revival of monumental sculpture in the Latin West. Since the end of Antiquity and the pagan use of free-standing, life-size sculptures in public and private ritual, Christians were obedient to the Second Commandment forbidding the making and use of graven images. Contrary to the West, in Byzantium, such a revival never occurred: only relief sculpture - mostly integrated within an architectural context - was used. However, Eastern theologians are the authors of highly fascinating and outstanding original theoretical reflections about the nature and efficacy of images. How can this difference be explained? Why do we find the most fascinating theoretical concepts of images in a culture that sticks to two-dimensional icons often venerated as cult-images that are copied and repeated, but only randomly varied? And why does a groundbreaking change in the culture of images - the revival of monumental sculpture - happen in a context that provides more restrained theoretical reflections upon images in their immediate theological, liturgical and artistic contexts? These are some of the questions that this book seeks to answer.The analysis and contextualization of the revival of monumental sculpture includes reflections on liturgy, architecture, materiality of minor arts and reliquaries, medieval theories of perception, and gift exchange and its impact upon practices of image veneration, aesthetics and political participation. Drawing on the historical investigation of specific objects and texts between the ninth and the eleventh century, the book outlines an occidental history of image culture, visuality and fiction, claiming that only images possess modes of visualizing what in the discourse of medieval theology can never be addressed and revealed.

Galactic Pot-healer Philip K. Dick,1994 What could an omnipresent and seemingly omnipotent entity want with a humble pot-healer? Or with the dozens of other odd creatures it has lured to Plowman's Planet? And if the Glimmung is a god, are its ends positive or malign? Combining quixotic adventure, spine-chilling horror, and deliriously paranoid theology, Galactic Pot-Healer is a uniquely Dickian voyage to alternate worlds of the imagination.
