Colour Atlas of Clinical Rheumatology N. Bellamy,2012-12-06 Patients with rheumatic diseases frequently exhibit a multiplicity of clinical and radiographic signs. The ability to correctly interpret these clues to diagnosis is an invaluable clinical skill, and an essential component of diagnostic decision making. This book is designed as a pictorial guide to clinical rheumatology and illustrates the principal clinical and radiographic signs of many musculoskeletal disorders. It is intended to supplement the more factual types of information found in standard textbooks and to provide the reader with a visual experience equivalent to that of

several years in clinical practice. The two initial chapters on history and physical examination are incorporated to provide a construct within which the relevance of subsequent sections can be viewed. The disease-oriented chapters which form the majority of the text illustrate many of the more complex problems encountered in routine rheumatologic practice. Descriptions of several rare and unusual conditions, of particular clinical importance, have been included in the final chapter. It is the author's hope that this atlas will appeal to family practitioners, trainees in both rheumatology and general medicine, and senior medical students, as well as serve as a teaching resource for the general physician and specialty rheumatologist. Whether read chapter by chapter or used purely as a reference text it is intended to be kept on hand both in the clinic and on the ward.

Josie's best friend Justin has always been there for her, and when she finds out she's pregnant again she turns to him for support. She loves George, but it's just such hard work, especially as Josie takes much of the strain. Finn is suspicious. What does Justin want in return for his help? And just how close are they really?

Fits, Faints and Falls in Old age M.S. Kataria, 2012-12-06

Events in anyone day of the aged consist of the functions of daily living modified or enhanced for each individual according to his or her capability. It is the constant aim of the medical professions to enhance the individual's quality of life and to try to avoid what is preventable. Among some of the hazards of the geriatric day are fits, faints and falls. It is the fall which often highlights the first two and the consequences may be serious for an old person. Perhaps one day an easy way to circumvent the 'forces of gravity' or drugs to counteract impaired sensory input will be found. The importance of the study of gait has been increasingly recognized by physicians working in this field of medicine for the elderly; writings by geriatricians on the subject are numerous. Bernard Isaacs in his gait research laboratory in Birmingham is studying the subject. In this book the experience of the contributors is brought together, inevitably with some overlap, which has in the main been avoided by restructuring, modification and crosschecking of articles.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui, 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their

culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of

Daw Suu Kyi and failure of Burma's orange revolution.
