Punk 57 Penelope Douglas,2023-12-05 Secrets, deception, and passion consume two pen pals in the TikTok sensation from New York Times bestselling author Penelope Douglas, now with exclusive bonus material! They were perfect together. Until they met. In fifth grade, Misha’s teacher set him and his classmates up with pen pals from a different school. For the next seven years, Ryen was his everything. She kept Misha on track and accepted him as he is. They only had three rules: No social media, no phone numbers, no pictures. There was no reason to ruin the good thing they had going...until Misha runs across a photo of a girl online named Ryen. He knows he has to meet her. But he didn’t expect to hate what he finds. Ryen has gone three months without a letter from Misha. Did he die? Get arrested? Knowing Misha like she does, neither would be a stretch. She needs to know someone is listening to her. But really, Ryen knows this is her own fault. She should’ve gotten his phone number, or picture, or something. As a mysterious vandal leaves messages in Ryen’s school, she’s possessed by the handsome new student who knows just how to hurt and heal her. But she can’t stop thinking of Misha. He could be gone forever. Or right under her nose, and she wouldn’t even know it...

Dr. Strange Beard Penny Reid,2018 Everyone in Green Valley, Tennessee knows that the six bearded Winston brothers have been imbued with an unfair share of charm and charisma... and are prone to mischief. Dr. Strange Beard, the fifth book in the Winston Brothers series, from USA TODAY bestselling author Penny Reid publishes in July 2018!

Henry V William Shakespeare,1918

Sonic Universe #59 Ian Flynn,2013-12-18 Shadow Fall - Part 1 - Brand New Story Arc! Jump aboard the action as we begin the 'Shadow Fall' saga! Team Dark is sent into the deep, dark depths of space to stop the approach of the Black Comet! It hasn't even been fifty years! The Black Comet is home to an evil, violent race of aliens known as The Black Arms, but the Black Arms were defeated months ago - so who are these new alien invaders inhabiting the comet sent to consume the earth? And what sinister new villain awaits Shadow in its depths? You cannot miss this gritty, alien-blasting new storyline with art from Jamal Peppers, and cover art from Tracy Yardley!

Ontological Semantics Sergei Nirenburg,Victor Raskin,2004 A comprehensive theory-based approach to the treatment of text meaning in natural language processing applications.

The Hacker's Dictionary Eric S. Raymond,2017-06-19 This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

Educational Materials Catalog National Heart, Lung, and Blood Institute,1994

The Film Handbook Geoff Andrew,1990 The Film Handbook examines the current status of filmmaking, how film is produced and distributed and its relation with today's digital and web-based climate.

Crossword Lists Anne Stibbs,2005

The Lysenko Affair David Joravsky,2010-12-15 The Lysenko affair was perhaps the most bizarre chapter in the history of modern science. For thirty years, until 1965, Soviet genetics was dominated by a fanatical agronomist who achieved dictatorial power over genetics and plant science as well as agronomy. A standard source both for Soviet specialists and for sociologists of science.—American Journal of Sociology Joravsky has produced . . . the most detailed and authoritative treatment of Lysenko and his view on genetics.—New York Times Book Review

The Australian Official Journal of Trademarks ,1906

The Rough Guide to Film Rough Guides,2008-05-01 Get the lowdown on the best fiction ever written. Over 230 of the world’s greatest novels are covered, from Quixote (1614) to Orhan Pamuk’s Snow (2002), with fascinating information about their plots and their authors – and suggestions for what to read next. The guide comes complete with recommendations of the best editions and translations for every genre from the most enticing crime and punishment to love, sex, heroes and anti-heroes, not to mention all the classics of comedy and satire, horror and mystery and many other literary genres. With feature boxes on experimental novels, female novelists, short reviews of interesting film and TV adaptations, and information on how the novel began, this guide will point you to all the classic literature you’ll ever need.

Floating Islands Richard J. Heggen,2021-01-01 Floating Islands in science, history, the arts and any number of sightings elsewhere

The fire in the flint Walter White,2023-07-10 The fire in the flint by Walter White. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Pragmatic Programmer Andrew Hunt,David Thomas,1999-10-20 What others in the trenches say about The Pragmatic Programmer... “The cool thing about this book is that it’s great for keeping the programming process fresh. The book helps you to continue to grow and clearly comes from people who have been there.” — Kent Beck, author of Extreme Programming Explained: Embrace Change “I found this book to be a great mix of solid advice and wonderful analogies!” — Martin Fowler, author of Refactoring and UML Distilled “I would buy a copy, read it twice, then tell all my colleagues to run out and grab a copy. This is a book I would never loan because I would worry about it being lost.” — Kevin Ruland, Management Science, MSG-Logistics “The wisdom and practical experience of the authors is obvious. The topics presented are relevant and useful.... By far its greatest strength for me has been the outstanding analogies—tracer bullets, broken windows, and the fabulous helicopter-based explanation of the need for orthogonality, especially in a crisis situation. I have little doubt that this book will eventually become an excellent source of useful information for journeymen programmers and expert mentors alike.” — John Lakos, author of Large-Scale C++ Software Design “This is the sort of book I will buy a dozen copies of when it comes out so I can give it to my clients.” — Eric Vought, Software Engineer “Most modern books on software development fail to cover the basics of what makes a great software developer, instead spending their time on syntax or technology where in reality the greatest leverage possible for any software team is in having talented developers who really know their craft well. An excellent book.” — Pete McBreen, Independent Consultant “Since reading this book, I have implemented many of the practical suggestions and tips it contains. Across the board, they have saved my company time and money while helping me get my job done quicker! This should be a desktop reference for everyone who works with code for a living.” — Jared Richardson, Senior Software Developer, iRenaissance, Inc. “I would like to see this issued to every new employee at my company....” — Chris Cleeland, Senior Software Engineer, Object Computing, Inc. “If I’m putting together a project, it’s the authors of this book that I want. . . . And failing that I’d settle for people who’ve read their book.” — Ward Cunningham Straight from the programming trenches, The Pragmatic Programmer cuts through the increasing specialization and technicalities of modern software development to examine the core process--taking a requirement and producing working, maintainable code that delights its users. It covers topics ranging from personal responsibility and career development to architectural techniques for keeping your code flexible and easy to adapt and reuse. Read this book, and you'll learn how to Fight software rot; Avoid the trap of duplicating knowledge; Write flexible, dynamic, and adaptable code; Avoid programming by coincidence; Bullet-proof your code with contracts, assertions, and exceptions; Capture real requirements; Test ruthlessly and effectively; Delight your users; Build teams of pragmatic programmers; and Make your developments more precise with automation. Written as a series of self-contained sections and filled with entertaining anecdotes, thoughtful examples, and interesting analogies, The Pragmatic Programmer illustrates the best practices and major pitfalls of many different aspects of software development. Whether you're a new coder, an experienced programmer, or a manager responsible for software projects, use these lessons daily, and you'll quickly see improvements in personal productivity, accuracy, and job satisfaction. You'll learn skills and develop habits and attitudes that form the foundation for long-term success in your career. You'll become a Pragmatic Programmer.

The Case of the Midwife Toad Arthur Koestler,2016-01-08 On September 23, 1926, and Austrian experimental biologist named Dr. Paul Kammerer blew his brains out on a footpath in the Austrian mountains. His suicide was the climax of a great evolutionary controversy which his experiments had aroused. The battle was between the followers of Lamarck, who maintained that acquired characteristics could be inherited, and the neo-Darwinists, who upheld the theory of chance mutations preserved by natural selection. Dr. Kammerer's experiments with various amphibians, including salamanders and the midwife toad (*Alytes obstetricans*), lent much weight to the Lamarckian argument and drew upon him the full fury of the orthodox neo-Darwinists. Arthur Koestler had known about Dr. Kammerer's work when he himself was a student in Vienna, and he has always been interested in this tragic story. He gives a fascinating description of the venomous atmosphere in which the battle was fought and of the lengths to which apparently respectable scholars would go to discredit their opponents. Heading the attack on Kammerer was a British scientist, William Bateson, who hinted that the Viennese's experiments were fakes, but who failed to examine the evidence, including the so-called nuptial pads of Kammerer's last remaining specimen of the midwife toad. It was a young American scientist who delivered the coup de grace; on a visit to Vienna, he discovered that the discoloration of the nuptial pads was due not to natural causes but to the injection Indian ink. When his findings were published, Kammerer shot himself. Mr. Koestler, whose recent writings, in books such as *The Act of Creation* and *The Ghost in the Machine*, have been in part concerned with evolutionary theory, decided to investigate this old mystery. When he started on his researches, he expected to relate the tragedy of a man who had betrayed his calling, for Kammerer's suicide was accepted as a confession of guilt and his work was discredited from that day to this. Instead, as Mr. Koestler read the contemporary papers, corresponded with Kammerer's daughter, Bateson's son, and the surviving scientists who attended Kammerer's lecture in Cambridge, he found himself writing a vindication of a man who in all probability was himself betrayed. The story that emerges is, on one level, fascinating piece of scientific detection; on another, it is a moving and human narrative about a much abused, brilliant and lovable figure. Though no Lamarckian himself, Mr. Koestler ends the book with an appeal to biologists to repeat Kammerer's experiments with an open mind in order to verify or refute them. If Kammerer's claims were posthumously confirmed our outlook on evolution would be significantly changed. A superb intellectual thriller whose implications still reverberate today, *The Case of the Midwife Toad* is an entirely new kind of book for Mr. Koestler, and perhaps only he could have written it, for it required expert knowledge and familiarity with the academic world of science, combined with the creativity and imaginative insight of an outstanding novelist.

The Pleasure of Finding Things Out Richard P. Feynman,2005-04-06 This collection from scientist and Nobel Peace Prize winner highlights the achievements of a man whose career reshaped the world's understanding of quantum electrodynamics. *The Pleasure of Finding Things Out* is a magnificent treasury of the best short works of Richard P. Feynman-from interviews and speeches to lectures and printed articles. A sweeping, wide-ranging collection, it presents an intimate and fascinating view of a life in science-a life like no other. From his ruminations on science in our culture to his Nobel Prize acceptance speech, this book will fascinate anyone interested in the world of ideas.

Molluscs in Archaeology Michael J. Allen,2017-06-30 The subject of 'Molluscs in Archaeology' has not been dealt with collectively for several decades. This new volume in Oxbow's 'Studying Scientific Archaeology' series addresses many aspects of molluscs in archaeology. It will give the reader an overview of the whole topic; methods of analysis and approaches to interpretation. It aims to be a broad based text book giving readers an insight of how to apply analysis to different present and past landscapes and how to interpret those landscapes.

A Touch of Ruin Scarlett St. Clair,2021-11-30 The second in the captivating Hades and Persephone series from fan-favorite bestselling author Scarlett St. Clair. Are you saying you wouldn't fight for me? Hades sighed and brushed his finger along her cheek. Darling, I would burn this world for you. Persephone's relationship with Hades has gone public and the resulting media storm disrupts her normal life and threatens to expose her as the Goddess of Spring. To add to her troubles, everyone seems eager to warn Persephone away from the God of the Dead by exposing his hellish past. Things only get worse when a horrible tragedy leaves Persephone's heart in ruin and Hades refusing to help. Desperate, she takes matters into her own hands, striking bargains that lead to severe consequences. Faced with a side of Hades she never knew, and crushing loss, Persephone wonders if she can truly become Hades's queen.
