*Destruction of Evidence* Jamie S. Gorelick, Stephen Marzen, Lawrence Solum, 1995-12-31 A practice manual as well as an authoritative resource, *Destruction of Evidence* analyzes issues from the standpoints of civil litigation, criminal litigation, and the laws of professional responsibility. *Destruction of Evidence* also discusses in-depth such areas as: the spoliation inference the tort of spoliation discovery sanctions ethics, and routine destruction Also included is an expanded discussion of discovery sanctions, including procedural issues, choice-of-law considerations, the requirements for preserving sanctions issues for appellate review, burdens of proof, and appellate review. The supplement keeps you up to date on the continuing development of the controversial torts of both first- and third party spoliation of evidence: Massachusetts has declined to recognize a cause of action in tort for intentional or negligent spoliation of evidence The Supreme Court of Mississippi did not recognize an independent cause of action for the intentional spoliation of evidence against first or third party spoliators Nevada declined to recognize an independent tort spoliation of evidence when weighed against the "potentially endless litigation over a speculative loss, and by the cost to society of promoting onerous record and evidence retention policies"; Constitutional implications in the realm of criminal law. Many states within the last year have been addressing the potential for due process violations when evidence is destroyed and are continuing to adopt and expand the rules dictated by Brady, Trombetta, and Youngblood. While each of these new jurisdictions refused to find due process violation, this trend recognizes the increased potential for constitutional violations when evidence is destroyed: Hawaii refused to find a constitutional violation where a police officer failed to save her completed police report, citing Brady The Supreme Court of Mississippi ruled that a defendant was not denied due process by spoliation of crime scene evidence, citing Trombetta Nevada, using a bad faith standard, ruled that an independent laboratory's failure to refrigerate a defendant's blood sample did not violate due process A New Jersey court did not find a due process violation where the police had lost a videotape of the administration of breath tests for a DUI charge Oklahoma ruled that a defendant's due process rights were not violated when the police destroyed latent crime scene fingerprints, citing Youngblood Using an exculpatory evidence standard, the Supreme Court of South Dakota ruled that the State's release of a rape victim's vehicle without notice to the defendant did not violate the defendant's due process rights.

*The Destroyer and the Lamb* Matthias Reinhard Hoffmann,2005 Matthias Reinhard Hoffmann identifies an angelomorphic portrait of Christ in certain passages of Revelation and provides possible reasons for the inclusion of an angelomorphic Christology: Angelomorphic Christology is not regarded as an isolated christological concept. In turn, the author compares angelomorphic Christology with the prominent Lamb Christology of Revelation. A

comparison of these concepts reveals that both Lamb and angelomorphic Christology serve the purpose of contrasting different functions of Christ. The functions correspond with the implied perception of Christ by his followers on the one hand and his opponents on the other. Accordingly, Christ appears to be an eschatological juridical figure (described in angelomorphic patterns) to his opposition, while he is perceived as salvific redeemer (in form of the Lamb) by those who believe in him. Such a christological perspective draws on traditions from the Exodus narrative, namely the features of the Passover Lamb and the Destroying Angel. Further, equality between God and Christ is established despite an angelomorphic portrait of Christ: especially those passages describing Christ as the Lamb put him on par with God. But also within visions with an angelomorphic description of Christ, his status as superior to angels and as an equal to God is displayed.

**Advance and Destroy** John Nelson Rickard, 2011-10-28 In the winter of 1944--1945, Hitler sought to divide Allied forces in the heavily forested Ardennes region of Luxembourg and Belgium. He deployed more than 400,000 troops in one of the last major German offensives of the war, which became known as the Battle of the Bulge, in a desperate attempt to regain the strategic initiative in the West. Hitler's effort failed for a variety of reasons, but many historians assert that Lieutenant General George S. Patton Jr.'s Third Army was ultimately responsible for securing Allied victory. Although Patton has assumed a larger-than-life reputation for his leadership in the years since World War II, scholars have paid little attention to his generalship in the Ardennes following the relief of Bastogne. In *Advance and Destroy*, Captain John Nelson Rickard explores the commander's operational performance during the entire Ardennes campaign, through his estimate of the situation, the U.S. Army's doctrinal approach to problem-solving. Patton's day-by-day situational understanding of the Battle of the Bulge, as revealed through ULTRA intelligence and the influence of the other Allied generals on his decision-making, gives readers an in-depth, critical analysis of Patton's overall effectiveness, measured in terms of mission accomplishment, his ability to gain and hold ground, and a cost-benefit analysis of his operations relative to the lives of his soldiers. The work not only debunks myths about one of America's most controversial generals but provides new insights into his renowned military skill and colorful personality.
