Haunted Las Vegas Paul W. Papa,2012-08-07 Famous phantoms, strange occurrences, unique places, and the ghoulish faces of Sin City What happens in Vegas stays in Vegas . . . including the ghosts, unexplained phenomena, and other spooky happenings. The strip is much more than bright lights, gambling, wild shows, and quick marriage ceremonies. Haunted Las Vegas reveals the true mysteries of Sin City and brings the old legends to life in a chilling way. The Flamingo: Listed as one of the ten most haunted sites in America by the Wall Street Journal, the Flamingo Hotel is home to the ghost of Benjamin "Bugsy" Siegel. A known gangster, Bugsy is often called the man who invented Las Vegas. Even though he was killed in Hollywood, his ghost reportedly lives at the Flamingo. The Demon Swing: In the dead of the night, many people reportedly see smoke or mist surrounding Fox Ridge Park, home of the boy ghost on the demon swing. It is unknown how his ghost ended up in the park, but beware of this unfriendly boy—he is known to push people off the swings.

Games Without Frontiers? Heather Wardle,2021-07-16 This open access book focuses on how and why digital games and gambling are increasingly intertwined and asks "does this matter?" Looking at how "loot boxes" became the poster child for the convergence of gambling and gaming, Wardle traces how we got here. She argues that the intersection between gambling and gaming cultures has a long lineage, one that can be traced back throughout the 20th century but also incorporates more recent trends like the poker boom of the 1990s, the development of social media gambling products and the development of skin betting markets. Underpinned by changing technology, which facilitated new ways to bet, trade and play, the intersection between gaming and gambling cultures and products has accelerated within the last decade – and shows little signs of stopping. Wardle explores what this means for our understanding of risk, how gaming and gambling entities use each other for commercial advantage, and crucially explores what young people think of this, before making recommendations for action.

M Is for Mama Abbie Halberstadt, 2022-02-01 A PUBLISHER'S WEEKLY BESTSELLER
Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Mamas only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for mamas to grow and thrive. As a daughter of Christ, you have been called to be more than an average mama. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. *M is for Mama* offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

Addiction by Design Natasha Dow Schüll, 2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems--all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

The Gameful World Steffen P. Walz, Sebastian Deterding, 2015-01-16 What if every part of our everyday life was turned into a game? The implications of "gamification." What if our whole life were turned into a game? What sounds like the premise of a science fiction novel is today becoming reality as "gamification." As more and more organizations, practices, products, and services are infused with elements from games and play to make them more engaging, we are witnessing a veritable ludification of culture. Yet while some celebrate gamification as a possible answer to mankind's toughest challenges and others condemn it as a marketing ruse, the question remains: what are the ramifications of this "gameful world"? Can game design energize society and individuals, or will algorithmic incentive systems become our new robot overlords? In this book, more than fifty luminaries from academia and industry examine the key challenges of gamification and the ludification of culture—including Ian Bogost, John M. Carroll, Bernie DeKoven, Bill Gaver, Jane McGonigal, Frank Lantz, Jesse Schell, Kevin Slavin, McKenzie Wark, and Eric Zimmerman. They outline major disciplinary approaches, including

rhetorics, economics, psychology, and aesthetics; tackle issues like exploitation or privacy; and survey main application domains such as health, education, design, sustainability, or social media.
