**The Role of English Teaching in Modern Japan** Mieko Yamada,2014-09-25 The Role of English Teaching in Modern Japan examines the complex nature of Japan's promotion of English as a Foreign Language (EFL). In globalized societies where people with different native languages communicate through English, multicultural and multilingual interactions are widely created. This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context. The myth of Japan's racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu, Zainichi Koreans, and Brazilian Japanese, who are in the same EFL classrooms. Acknowledging a variety of English uses and users in Japan, this book emphasizes the influence of Japan's recent domestic diversity on its EFL curriculum and urges that such changes should be addressed. It suggests new directions for incorporating multicultural perspectives in order to develop English language education in Japan and other Asian contexts where English is often taught as a foreign language. Chapters include: Social, cultural, and political background of Japan's EFL education Race, ethnicity, and multiculturalism Representations of diversity in Japanese EFL Textbooks Perceptions of English learning and diversity in Japan The role of EFL

education in multicultural Japan

Diversity in Japanese Education Naoko Araki,2017-06-09 No one is born fully-formed: it is through self-experience in the world that we become what we are. - Paulo Freire **Diversity in Japanese Education** explores 'self-experience' of individual learners and educators in Japan. The word

'diversity' is not limited to one's ethnic background. Here, diversity refers to one's pedagogical experiences and life experiences; to the norms, beliefs and values that impact such relations. These experiences and relations are fluid as they are shaped and reshaped in global and glocal settings. They are also reflected in praxis of English language learning and teaching in Japan. The authors' educational backgrounds vary but they all share the common ground of being educators in Japan. Through being involved in learning and/or teaching English language in Japan, they have witnessed and experienced 'diversity' in their own pedagogical context. The book focuses on shifting critical and reflexive eyes on qualitative studies of pedagogical experiences rather than presenting one 'fixed' view of Japanese education.

Space, Place and Autonomy in Language Learning Garold Murray,Terry Lamb,2017-11-03 This book explores theories of space and place in relation to autonomy in language learning. Encompassing a wide range of linguistically and culturally diverse learning contexts, this edited collection brings together research papers from academics working in fourteen countries. In their studies, these researchers examine physical, virtual and metaphorical learning spaces from a wide range of theoretical and interdisciplinary perspectives (semiotic, ecological, complexity, human geography, linguistic landscapes, mediated discourse analysis, sociocultural, constructivist and social constructivist) and methodological approaches. The book traces its origins to the first-ever symposium on space, place and autonomy, which was held at the International Association of Applied Linguistics (AILA) 2014 World Congress in Brisbane. The final chapter, which presents a thematic

analysis of the papers in this volume, discusses the implications for theory development, further enquiry, and pedagogical practice.

**Mobile Japanese Migrants to the Pacific West and East** Etsuko

Kato, 2023-12-01 This book explores “self-searching migrants,” a new group of indefinitely globally mobile people whose purpose of overseas stay is the search of true self and the work they really want to do, using Japanese trans-Pacific sojourners as the case study. Utilizing testimonies collected from interviews with Japanese migrants in their twenties to forties who had entered the job market between the early 1990s and 2010 and left for the English-speaking countries of Canada, Australia, and Singapore, the book argues that their practices are both ubiquitous and unique, the products of global and local contexts of a specific time. As semiskilled migrants from an extra-Western, postindustrial country, their struggles show a different picture of the West-centric world power system from those experienced by migrant workers from the Global South. Including extensive qualitative

research and interview material collected over a 20-year period, this book will be of huge interest to students and scholars of Japanese culture and society, cultural anthropology, and migration.

**Afterlives of Letters** Satoru Hashimoto,2023-10-24 When East Asia opened itself to the world in the nineteenth century, Chinese, Japanese, and Korean intellectuals had shared notions of literature because of the centuries-long cultural exchanges in the region. As modernization profoundly destabilized cultural norms, they ventured to create new literature for the new era. Satoru Hashimoto offers a novel way of understanding the origins of modern literature in a transregional context, drawing on Chinese-, Japanese-, and Korean-language texts in both classical and vernacular forms. He argues that modern literature came into being in East Asia through writerly attempts at reconstructing the present's historical relationship to the past across the cultural transformations caused by modernization. Hashimoto examines writers' anachronistic engagement with past cultures deemed obsolete or antithetical to new systems of values, showing that this transnational process was integral to the emergence of modern literature. A groundbreaking cross-cultural excavation of the origins of modern literature in East Asia featuring remarkable linguistic scope, *Afterlives of Letters* bridges Asian studies and comparative literature and delivers a remapping of world literature.

*Immigrant Japan* Gracia Liu-Farrer,2020-04-15 Immigrant Japan? Sounds like a contradiction, but as Gracia Liu-Farrer shows, millions of immigrants make their lives in Japan, dealing with the tensions between belonging and not

belonging in this ethno-nationalist country. Why do people want to come to Japan? Where do immigrants with various resources and demographic profiles fit in the economic landscape? How do immigrants narrate belonging in an environment where they are other at a time when mobility is increasingly easy and belonging increasingly complex? Gracia Liu-Farrer illuminates the lives of these immigrants by bringing in sociological, geographical, and psychological theories—guiding the reader through life trajectories of migrants of diverse backgrounds while also going so far as to suggest that Japan is already an immigrant country.
