Teaching English Learners Kip Tellez, 2016-01-08 This book examines the teaching of English language learners (ELL) by exploring topics not typically covered in theory or methods textbooks. Although methods texts commonly draw readers through well-known strategies such as the audio-lingual method, this book, by contrast, focuses attention on how music can advance and improve language skills. Looking broadly at the sociocultural implications of ELD, Tellez examines the role of the teacher in introducing and inspiring students to learn both a new language and a new society. Furthermore, he offers alternative views of language, and shows how a deeper understanding of it can shape and enrich the lives of both students and teachers. Drawing upon progressive pragmatic philosophy of Dewey, Addams, and Rorty, this book helps teachers to understand the important lineage and profession they have joined (or will join), and the urgent role they play as agents of democratic ideals and actions.

Conflict, Exclusion and Dissent in the Linguistic Landscape Rani Rubdy, Selim Ben Said, 2016-04-29 This book explores the dynamics of the linguistic landscape as a site of conflict, exclusion, and dissent. It focuses on socio-historical, economic, political and ideological issues, such as reflected in mass protest demonstrations, to forge links between landscape, identity, social justice and power.

Japanese Public Sentiment on South Korea Tetsuro Kobayashi, Atsushi Tago, 2021-11-30 The contributors to this book demonstrate empirically how Japanese public opinion is formed amid strained Japan–South Korea relations. Studying public opinion in Japan and South Korea is critically important for exploring the causes and consequences of the deterioration of the relationship between the two countries.

Japan–South Korea relations are at their worst level since World War II. Faced with North Korea’s nuclear threat and China’s regional and global advances, Japan and South Korea are each allied with the US and function as key stabilizers within the Asia–Pacific Pax Americana. These relations play a decisive role in East Asia’s international security. The contributors explore a variety of social scientific methodologies—both conventional quantitative surveys and experiments, as well as quantitative text analyses of published books and computational analyses of social media data—to disentangle the dynamic relationship between Japanese public opinion and Japan–South Korea relations. An invaluable resource for scholars of East Asian regional security issues.

Korea: The Impossible Country Daniel Tudor,2012-11-10 South Korea's amazing rise from the ashes: the

inside story of an economic, political, and cultural phenomenon Long overshadowed by Japan and China, South Korea is a small country that happens to be one of the great national success stories of the postwar period. From a failed state with no democratic tradition, ruined and partitioned by war, and sapped by a half-century of colonial rule, South Korea transformed itself in just fifty years into an economic powerhouse and a democracy that serves as a model for other countries. With no natural resources and a tradition of authoritarian rule, Korea managed to accomplish a second Asian miracle. Daniel Tudor is a journalist who has lived in and written about Korea for almost a decade. In *Korea: The Impossible Country*, Tudor examines Korea's cultural foundations; the Korean character; the public sphere in politics, business, and the workplace as well as the family, dating, and marriage. In doing so, he touches on topics as diverse as shamanism, clan-ism, the dilemma posed by North Korea, the myths about doing business in Korea, the Koreans' renowned hard-partying ethos, and why the infatuation with learning English is now causing massive social problems. South Korea has undergone two miracles at once: economic development and complete democratization. The question now is, will it become as some see Japan, a prosperous yet aging society, devoid of energy and momentum? Or will the dynamism of Korean society and its willingness to change—as well as the opportunity it has now to welcome outsiders into its fold—enable it to experience a third miracle that will propel it into the ranks of the world's leading nations regarding human culture, democracy, and wealth? More than just one journalist's account, *Korea: The Impossible Country* also draws on interviews with many of the people who made South Korea what it is today. These include: Choi Min-sik, the star of *Old Boy*. Park Won-soon, Mayor of Seoul. Soyeon Yi, Korea's first astronaut Hong Myung-bo,

legendary captain of Korea's 2002 FIFA World Cup team. Shin Joong-hyun, the 'Godfather of Korean Rock.' Ko Un, poet. Hong Seok-cheon, restaurateur, and the first Korean celebrity to 'come out.' And many more, including a former advisor to President Park Chung-hee; a Shaman priestess ('mudang'); the boss of Korea's largest matchmaking agency; a 'room salon' hostess; an architect; as well as chefs, musicians, academics, entrepreneurs, homemakers, and chaebol conglomerate employees.

Script Effects as the Hidden Drive of the Mind, Cognition, and Culture Hye K. Pae, 2020-10-14 This

open access volume reveals the hidden power of the script we read in and how it shapes and drives our minds, ways of thinking, and cultures. Expanding on the Linguistic Relativity Hypothesis (i.e., the idea that language affects the way we think), this volume proposes the “Script Relativity Hypothesis” (i.e., the idea that the script in which we read affects the way we think) by offering a unique perspective on the effect of script (alphabets, morphosyllabaries, or multi-scripts) on our attention, perception, and problem-solving. Once we become literate, fundamental changes occur in our brain circuitry to accommodate the new demand for resources. The powerful effects of literacy have been demonstrated by research on literate versus illiterate individuals, as well as cross-scriptal transfer, indicating that literate brain networks function differently, depending on the script being read. This book identifies the locus of differences between the Chinese, Japanese, and Koreans, and between the East and the West, as the neural underpinnings of literacy. To support the “Script Relativity Hypothesis”, it reviews a vast corpus of empirical studies, including anthropological accounts of human civilization, social psychology, cognitive psychology, neuropsychology, applied linguistics, second language studies, and cross-cultural communication. It also discusses the impact of reading from screens in the digital age, as well as the impact of bi-script or multi-script use, which is a growing trend around the globe. As a result, our minds, ways of thinking, and cultures are now growing closer together, not farther apart.

The Memoirs of Lady Hyegyong JaHyun Kim Haboush, 2013-09-14 Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, *The Memoirs of Lady Hyegyong* is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

Friend Paek Nam-nyong, 2020-05-05 Paek Nam-nyong's *Friend* is a tale of marital intrigue, abuse, and divorce in North Korea. A woman in her thirties comes to a courthouse petitioning for a divorce. As the judge who hears her statement begins to investigate the case, the story unfolds into a broader consideration of love and marriage. The novel delves into its protagonists' past, describing how the couple first fell in love and then how their marriage deteriorated over the years. It chronicles the toll their acrimony takes on their son and their careers alongside the story of the judge's own marital troubles. A best-seller in North Korea, where Paek continues to live and write, *Friend* illuminates a side of life in the DPRK that Western readers have never before encountered. Far from being a propagandistic screed in praise of the Great Leader, *Friend* describes the lives of people who struggle with everyday problems such as marital woes and workplace conflicts. Instead of socialist-realist stock figures, Paek depicts complex characters who wrestle with universal questions of individual identity, the split between public and private selves, the unpredictability of existence, and the never-ending labor of maintaining a relationship. This groundbreaking translation of one of North Korea's most popular writers offers English-language readers a page-turner full of psychological tension as well as a revealing portrait of a society that is typically seen as closed to the outside world.
