  Microsoft Exchange Server V5.0 Tony Redmond,1997 Microsoft Exchange Server V5.0: Planning, Design and Implementation incorporates the author's general expertise gained from 15 years working with corporate messaging systems as well as several years specific experience working with large deployments of Exchange Server. The new functionality of Exchange V5.0 is covered, but the real value lies in the pragmatic and practical attitude taken to solving the problems posed by large-scale implementations of any messaging system. Exchange is not magic and little different to other e-mail systems; it is software that needs to be understood to be implemented well. This book helps system designers, implementation teams, and e-mail administrators understand what Exchange V5.0 is good at and where it needs human assistance to succeed. Foreword by Elaine Sharp, Worldwide Messaging Server Product Manager, Microsoft Corporation, March 1992 to October 1996 Fully covers all features of Microsoft Exchange Version 5.0 Practical guide to setting up an

Exchange server.

   Bridging the Gulf: EU-GCC Relations at a Crossroads Silvia Colombo ,2014-05-27 Relations between the European Union (EU) and the Gulf Cooperation Council (GCC) are at a crossroads. After the derailment of the negotiations for the Free Trade Agreement (FTA) in 2008, the cooperation between the two regional blocs has remained low-key in a number of different areas, while the unprecedented changes that have taken place in North Africa and the Middle East, the common neighbourhood of the EU and the GCC, have not led to a renewed, structured cooperation on foreign and security policy issues. This volume addresses the shortcomings and potential of EU-GCC relations by taking stock of their past evolution and by advancing policy recommendations as to how to revamp this strategic cooperation. In this light, it highlights the areas where greater room for manoeuvre exists in order to enhance EU-GCC

relations, discusses the instruments available and sheds light on the features of the regional and international context that are likely to significantly influence the new phase in the mutual relation between the two blocs. The book is the result of the research conducted in the framework of the project 'Sharaka – Enhancing Understanding and Cooperation in EU-GCC Relations' co-funded by the European Commission.

  Limits to Parallel Computation Raymond Greenlaw,H. James Hoover,Walter L. Ruzzo,1995 This book provides a comprehensive analysis of the most important topics in parallel computation. It is written so that it may be used as a self-study guide to the field, and researchers in parallel computing will find it a useful reference for many years to come. The first half of the book consists of an introduction to many fundamental issues in parallel computing. The second half provides lists of P-complete- and open problems. These lists will have lasting value to researchers in both industry and academia. The lists of problems, with their corresponding remarks, the thorough index, and the hundreds of references add to the exceptional value of this resource. While the exciting field of parallel computation continues to expand rapidly, this book serves as a guide to research done through 1994 and also describes the fundamental concepts that new workers will need to know in coming years. It is intended for anyone interested in parallel computing, including senior level undergraduate students, graduate students, faculty, and people in industry. As an essential reference, the book will be needed in all academic

libraries.
