**47 Echo** Shawn Kupfer,2013-04-15 Russia, 2019. Combined Chinese and North Korean forces have taken increasing amounts of territory in a war that is devastating the world. Nick Morrow is a convict conscript assigned to 47 Echo—a suicide squad. No one cares whether they live or die, as long as they complete their missions. Under the command of a Marine Corps with nothing but contempt for its squadron of felons, they are on a mission to defend what's left of war-ravaged Russia. A half-Chinese drifter, much isn't expected of Nick. Like the other members of 47 Echo, he's viewed as little more than cannon fodder. However, Nick's sense of honor, analytical mind and skills on the battlefield just might be what the squad needs to survive the meat-grinder that is the front lines of this bloody war. But can Nick himself survive the brutal crimes that haunt his past? 72,800 words

International Reactor Dosimetry File 2002 (IRDF-2002). International Atomic Energy Agency,2006 A data development project (International Reactor Dosimetry File or IRDF 2002) was initiated in 2001 to create a current, tested and standardised reactor dosimetry cross-section database with associated uncertainty data for use in the service lifetime assessment of nuclear power reactors. This publication describes the selection procedure and contents of the database and includes a CD-ROM containing the full contents of the IRDF-2002 data library. This set of recommended high-quality data is also appropriate for use in other neutron metrology applications, such as boron neutron capture therapy, therapeutic use of radioisotopes, nuclear physics measurements and reactor safety studies.

**The Radiological Accident in Soreq** International Atomic Energy Agency,1993 On 21 June 1990 a fatal radiological accident occurred at an industrial irradiation facility at Soreq, Israel. An operator entered the irradiation room by circumventing safety systems and was acutely exposed, with an estimated whole body dose of 10-20 Gy. The accident, like earlier accidents at similar irradiators, was the consequence of the contravention of operating procedures. An IAEA review team investigated the causes of the accident. This report presents its findings and recommendations and describes the clinical management of the patient, particularly of the haematological phase.

The medical treatment included the use of emerging therapies with haematopoietic growth factor drugs which may rescue the overexposed patient, albeit in this case only temporarily. The report is intended for regulatory authorities responsible for the regulation and inspection of irradiators, operating organizations and physicians who may need to treat overexposed patients.

**Eyeshield 21** Riichiro Inagaki,2007 The Devil Bats pull out all the stops in their game against the Seibu Wild Gunmen, but the Gunmens offense proves to be unshakable. Without a kicker, the Devil Bats don't stand a snowballs chance in hell--or do they?

*Radiation Protection for Particle Accelerator Facilities* National Council on Radiation Protection and Measurements,2003 The purpose of this Report is to provide design guidelines for radiation protection, and to identify those aspects of radiological safety that are of major, or even unique, importance to the operation of particle accelerator installations and to suggest methods by which safe operation may be achieved. The report is written from an engineering physics viewpoint and is intended to be useful to those engaged in the design and operation of accelerators, particularly in smaller institutions and organizations that do not have a large radiological-protection staff.

**Eyeshield 21, Vol. 19** Riichiro Inagaki,2008-04-01 Catch all the bone-crushing action and slapstick comedy of Japan's hottest football manga! Wimpy Sena Kobayakawa has been running away from bullies all his life. But when the football gear comes on, things change--Sena's speed and uncanny ability to elude big bullies just might give him what it takes to become a great high school football hero! Catch all the bone-crushing action and slapstick comedy of Japan's hottest football manga! The Successor It's the second half of the game between the Bando Spiders and the Deimon Devil Bats. The winner will walk away with the final seed to the Kanto Tournament--the loser will walk away in shame. Strong winds are playing havoc with the passing games of both teams, forcing them to stick to the ground. But the shifty Hiruma has been intentionally throwing weak passes to make the Spiders defense underestimate him. Just when they least expect it he fires off a missile for a touchdown and puts the Bats back in the game! But it's not over yet...
