Model Rules of Professional Conduct American Bar Association. House of Delegates, Center for Professional Responsibility (American Bar Association), 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Political pamphlets George Saintsbury, 1923 Political Pamphlets By George Saintsbury It is sometimes thought, and very often said, that political writing, after its special day is done, becomes more dead than any other kind of literature, or even journalism. I do not know whether my own judgment is perverted by the fact of a special devotion to the business, but it certainly seems to me that both the thought and the saying are mistakes. Indeed, a rough-and-ready refutation of them is supplied by the fact that, in no few cases, political pieces have entered into the generally admitted stock of the best literary things. If they are little read, can we honestly say that other things in the same rank are read much more? And is there not the further plea, by no means contradictory, nor even merely alternative, that the best examples of them are, as a rule, merged in huge collected 'Works,' or, in the case of authors who have not attained to that dignity, simply inaccessible to the general? At any rate my publishers have consented to let me try the experiment of gathering certain famous things of the sort in this volume, and the public must decide. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand

curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Visible Librarian Judith A. Siess, 2003-04-04 Recent law, corporate, and even public library closings are the sad confirmation that libraries are no longer a given. Despite the fact that librarians bring unique value to their communities and organizations, too often their work goes on under the radar. The benefits provided by information professionals are invisible and taken for granted as Internet search engines replace real experts. It's time to assert your value and the value of the resources you marshal. Step from behind the desk or computer to make your community aware of just how indispensable your services are. Here are all the tools you need to become the squeaky wheel and attract the attention your work deserves. Use these practical strategies to connect with customers, make services both visible and valuable to the community, and get the word out using proven marketing, customer service and public relations tactics specifically tailored to the library environment. Learn to: Provide the answers your users/customers need; Gather internal and external champions to grow a funding base; Access the resources that keep your enterprise viable; Keep information resources available in spite of budget constraints; Be recognized
