Sams Teach Yourself Microsoft Internet Explorer 5 in 10 Minutes Jill T. Freeze, 1999 Sams Teach Yourself Microsoft Internet Explorer 5 in 10 Minutes is a quick, efficient reference to getting connected to the Internet, finding and browsing Web sites, sending and receiving e-mail, reading and posting to newsgroups, and generally applying Internet Explorer to your everyday office and home life. Only the most common problems and most frequently used Internet Explorer tasks are covered--from saving bookmarks of your favorite Web sites, to organizing your e-mail folders, to creating a simple page on the World Wide Web. Revised and updated, covering all the new features of Microsoft Internet Explorer 5 and its integration with Microsoft Office 2000.

E-Mail Virus Protection Handbook Syngress, 2000-11-06 The E-mail Virus Protection Handbook is organised around specific e-mail clients, server

environments, and anti-virus software. The first eight chapters are useful to both users and network professionals; later chapters deal with topics relevant mostly to professionals with an emphasis on how to use e-mail filtering software to monitor all incoming documents for malicious behaviour. In addition, the handbook shows how to scan content and counter email address forgery attacks. A chapter on mobile code applications, which use Java applets and Active X controls to infect email and, ultimately, other applications and whole systems is presented. The book covers spamming and spoofing: Spam is the practice of sending unsolicited email to users. One spam attack can bring down an entire enterprise email system by sending thousands of bogus messages or mailbombing, which can overload servers. Email spoofing means that users receive messages that appear to have originated from one user, but in actuality were sent from another user. Email spoofing can be used to trick users into sending sensitive information, such as passwords or account numbers, back to the spoofer. Highly topical! Recent events such as the LoveBug virus means the demand for security solutions has never been higher Focuses on specific safeguards and solutions that are readily available to users
