Cheering for the Children: Creating Pathways to HOPE for Children Exposed to Trauma Casey Gwinn, 2015-04-06 If we as a nation invested the money and time necessary to give every trauma-exposed child a cheerleader, we would empty our prisons and mental health facilities within two generations. We would dramatically reduce intimate partner violence and see stunning drops in crime rates across all categories. We have the resources and we know what to do. It is only a question of our priorities and commitment. Cheering for the Children is a clarion call to all caring people to become cheerleaders for children exposed to trauma and abuse. Author Casey Gwinn, former elected San Diego city attorney and a leading domestic violence professional, explains why childhood trauma should be the preeminent public health issue in America today and how we can all help change the lives of children for the better. In this compelling and well-documented book, Gwinn maps out the massive costs and lifelong consequences of unaddressed childhood trauma through the internationally recognized Adverse Childhood Experiences (ACE) Study and other critical research. Then, using his own personal journey through trauma, lessons learned from leading experts across the country, and poignant real-life anecdotes from survivors, he provides the big strategies and small, practical steps that every parent, grandparent, mentor, caring community member, and policymaker can take to make a difference in the lives of their own children and the hurting children of America.

A Hunter-Gatherer's Guide to the 21st Century Heather Heying, Bret Weinstein, 2021-09-14 A provocative exploration of the tension between our evolutionary history and our modern woes—and what we can do about it. We are living through the most prosperous age in all of human history, yet we are listless, divided, and miserable. Wealth and comfort are unparalleled, but our political landscape is unmoored, and rates of suicide, loneliness, and chronic illness continue to skyrocket. How do we explain the gap between these truths? And how should we respond? For evolutionary biologists Heather Heying and Bret Weinstein, the cause of our troubles is clear: the accelerating rate of change in the modern world has outstripped the capacity of our brains and bodies to adapt. We evolved to live in clans, but today many people don't even know their neighbors' names. In our haste to discard outdated gender roles, we increasingly deny the flesh-and-blood realities of sex—and its ancient roots. The cognitive dissonance spawned by trying to live in a society we are not built for is killing us. In this book, Heying and Weinstein draw on decades of their work teaching in college classrooms and exploring Earth's most biodiverse ecosystems to confront today's pressing social ills—from widespread sleep deprivation and dangerous diets to damaging parenting styles and backward education practices. Asking the questions many modern people are afraid to ask, *A Hunter-Gatherer's Guide to the 21st Century* outlines a science-based worldview that will empower you to live a better, wiser life.
